THE METHODIST CENTENNIAL.

THE PROPER ARRANGEMENTS GRANDEUS OF THE OCCASION, &C.

EDITOR SENTINEE: It is just a hundred years since the Methodist Episcopal church was introduced into this state. This is also, as I see by Judge Battle's letter, the hundredth year since North Carolina first became an independent state. It is also the nation's centennial. Indeed it is an epoch of centennialism, a sort of ensus mirabilis. The Methodists of North Caroling, glowing with the common sentiment of this year of jubiles, are preparing themselves for a great family gulluring to celebrate the centennial of the advent into the state of their spiritual fathers. This family remien to which eighty thousand of the acus and daughters of Wesley are called, ought to be had in the woods, under a mighty artor, with tents, cabins, &c., around, for the camp it setting is essentially of Methodism. But they remember that Raleigh is the political capital, the civil centre of the state, and for this once they have determined to make it the ecclesiastical centre also, without, however, in the remotest degree medding with affairs of state. There are no Gilbert Havens, nor any of his kith, kin or kidney among us.

affairs of state. There are no Gilbert Havens, nor any of his kith, kin or kidney among us.

And so on Tuessiny, the 21st of March next, they will meet in Raleigh and continue from day to day to Sunday, the 26th. Would you know what they mean to do? Rend the programme just published in all the papers. See who will be there. Of Bishop Marvin to in needless to speak to a Raleighite. His is needless to speak to the land in that city and empty overy other house. Of Hishops Boggett and McTyeirs, not so well known in Raleigh, I will only say that I shall be content to let the people speak for themselves when they shall have heard them. Then mark the relief of North Carolina speakers, ministerial and lay. Of cellege presidents three; of college professors two; two gentlemen, possibly more, of your cloth and unine; and others known, to the Methodists at least, throughout the state.

Then note the subjects for discussion—but I will not trespace further at present, maykap I may send you another note, a short one, pointing out a few incre of the salient features of the occasion. The event is a rare one, Mr.

inore of the vallent features of the occasion. The event is a rare one Mr.
Editor, grand and unique; we have
seen nothing like it and shall hardly
see another. Raleigh may as well get
herself ready to receive a host, a multiinde such as camped in and around about
Jerusalem at the great Feast of Tabernacies, when all Israel were required
to go up to the city of the temple. But
not Methodists alone are invited and
expected and desired to attend; the
invitation is spened wide to all North
Carolina of whatever faith. May you
and I be there to see.

Truly yours,

Cultified Remental Resources People sometimes suppose that Dr. Pierce's Family Medicines represent the entire extent of his resources for ouring diseases. This is an error. Experience proved that while the Golden Discovery. Favorite Prescription. Pleasant Purgative Pellets. Compound Extract of Smart Weed, and Dr. Sage's attarh Bemedy would, if faithfully used, cure a large variety of chronic complaints, there would be here and there a case which, from its severity, or from its complication with other disorders, would resist their action. These exceptional cases required a thorough examination into their symptoms, to ascertain the exact nature and extent of the disease or diseases under which the patient was laboring, and the use of specific remodies to meet and overcome the same. This lied to the establishment of the World's Dispensary, at Buffalo, N. Y., with its faculty of physicians and suggeons, each of whom its akilled in the treatment of chronic disorders in general and those belonging to his own special department in particular. To one is assigned diseases of the throat and lungs; to another, diseases of the kilmsys and trogonital organs; to another, diseases of the kilmsys and trogonital organs; to another, diseases of the system; to another, diseases of the system; to another, diseases of the percetion in medicine and surgery is attained. The establishment of this institution enables the Doctor to meet a long-felt want in the treatment of the more severe chronic affections. By a careful consideration of the symptoms as given in writing, he successfully treats thousands of cases at their homes. Others visit the Dispensary in person. The amplest resources for the treatment of the more severe chronic affections for the application and those on whom the proprietary medicines do not have the desired effect can procure a more thorough and efficient course by a personal application to the proprietor of the World's Dispensary.

A GREAT CURE OF RHEUMATISM. A GREAT CURE OF RHEUMATISM, DYSPEPSIA, DISEASS OF THE LIVER AND SPLEEN, BY DR. JONES, —I came to Dr. Jones upon crutches, having been afflicted with rheumatism and disease of the liver, and enhanced spleen. Having been treated and given up by our best doctors as a hopeless case, and was reduced to a suffering skeleton—was scarcely able to move in my bed part of the time. I had the dyspepsis also, and could not eat, sleep, nor walk, and suffered intensely day and night. When I was placed upon the care to go to Dr. and could not eat, sleep, nor walk, and suffered intensely day and uight. When I was placed upon the care to go to Dr. Jones, my neighbors said I could never return alive; but in three weeks I returned, a sound man, and have attended to business ever since. I hunt, fish, walk, run, jump -am, active and well. And to Dr. Jones I owe my life. I advise the afflicted to spend no time no money with any other treatment, if they are within reach of Dr. Jones. I live at Marion, Greene county. N. C., where my disease was pronounced incurable, and where I astonished my neighbors when I returned cured by Dr. J. A. Jones. Dr. Jones, I wish you to publish this cure, and all who wish to can see me here, and will be astonished to hear my neighbors tell of this great cure.
