Notwithstanding the rain last evening quite a large crowd attended the Melange at Metropolitan hall. The performances were equal in every way to those of last Thursday evening.

The cadets from the school of Messrs. Atkinson & Scott paraded our streets this morning in honor of the 22d, and fired several salutes. They made a handsome appearance and are well drilled.

Last night about 7 o'clock the bursting of a kerosene lamp, in one of the rooms of the female department of the Shaw Collegiate Institute, caused the alarm of fire. No damage was done. The alarm bell was now apparently happy, and gas and lighted knots are on the line.

The very low price and increasing demand of the Star Ammoniated Soluble Phosphate seem to have created quite a sensation among manufacturers of and dealers in commercial fertilizers. Other manufacturers have even commenced manipulating and offering for sale a fertilizer called the "Star Bone Phosphate." Farmers should beware of imitations. The original and only genuine Star Ammoniated Soluble Phosphate has the trade mark of a star printed on each sack with the analysis manufactured by Lorens & Ritter of Baltimore, Md., and for sale by E. C. Sanders & Co., or their agents.

DEATH OF MRS. WILEY. - We regret to announce the death of Mrs. Wiley, the aged mother of our esteemed townsman, P. A. Wiley. Mrs. Wiley died this morning at the residence of her son, after an illness of some days of typhoid fever. Her's was a ripe old age, and a long life spent in the faithful performance of all the duties devolving upon a Christian wife, mother and neighbor. Her death was a great loss to her family and to the church of the Good Shepherd.

DIED FROM A FALL. - Saturday night a couple of negroes got into a row at Morgantown, an African settlement about 2 miles northwest of this city, both being heated by split-shell whiskey. One of the negroes went home, got his gun and came back, making demonstrations of shooting his antagonist, Bill Baker, a pigger bystander, interfered to prevent bloodshed, and in his efforts to get possession of the gun, received the lead in his groin, inflicting a wound which proved fatal this morning. Special Coroner Dunn proceeded this morning to the place for the purpose of holding an inquest, but up the hour of going, to press nothing had been heard from him.

A SUGGESTION. - In his gallant but unavailing efforts to save the life of the unfortunate Virginia Smith, Sunday night, Julius Taylor, a worthy citizen, received such severe burns about the hands that will incapacitate him for work for a number of weeks. He is a jeweler by trade, and dependent we learn, upon his daily labor for a livelihood for himself and family. In view of these things would it not be a graceful and kindly act, to say nothing of duty, for our liberal and benevolent citizens to give him some substantial testimony of their appreciation of his noble and manly conduct? We hope that this suggestion will speedily be acted upon.

A CHANCE FOR ARMPIT. - Governor Proctor left this city this morning at 11 o'clock to be present at the Mardi Gras at New Orleans, accompanied by one of his aides, A. D. Jenkins. He will be absent about 10 days. If he makes the connection all right at Charlotte the governor will cross the state line and get into South Carolina about 12 o'clock to-night. As soon as he does this Lt. Governor Armfield becomes the governor of this state. Section 12, art. 3 of the constitution reads, "In case of the impeachment of the Governor, his failure to qualify, his absence from the state, and the emoluments of the office shall devolve upon the Lieutenant Governor."

So, it is probable, by 12 o'clock to-night Mr. Armfield will be the real governor of the state. Here is your chance, Mr. Armfield. Come down here and enter upon the duties of your high office. Come, and let the good people of the state elect, even for a brief space, the respectability of having a honest and able democratic governor in the gubernatorial chair.

Dr. EUGENE GRISON. - A correspondent of the New North Star, published at Greensboro, gives the appended sketch of the gentleman whose name appears above. "Patricially we are unalterably opposed to the doctor, but personally we have ever been disposed to accord to him the possession of those attractive traits of character so happily sketched by the correspondent above alluded to. What is what he says?"

First a farm-boy, next a writer in the county clerk's office, then clerk of the superior court of Granville, and finally a physician, well disciplined, ambitious, conscientious and successful - life opened before him at once hopeful and alluring. He seemed a decided talent for politics, he was elected to the legislature several times, and in the house won the reputation of an excellent party manager and debater. Seven or eight years ago, when the republican party was in the ascendant, he was elected to the delicate and responsible position of state superintendent of the Insane Asylum. During his term of office, he has discharged the duties with integrity, skill and devotion that have secured the approval of persons of all parties. Under his admirable management many improvements have been made, and the capacity of the institution has been enlarged. He was indeed a capable and efficient administrator of the Insane Asylum. Senator Christianity is not alone in his belief (for which, by the by, the current season gives him good backing) that January is not so unlike May as the poets feign. The Russian Envoy near the Vatican, M. Orousoff, a diplomatist well known in years, was married the other day in Paris to Mile. d'Abaya, a charming young lady of eighteen.

Both Moulton and Bowen are denouncing the Advisory Council. Moulton says he is prepared to expose Beecher guilty of adultery and perjury by both oral and documentary evidence, if he is allowed to produce such evidence before the council. If he fails to do it, he says he is willing to be criminated and denounced by mankind as a wretch devoid of truth and honor. Let him have the opportunity.

UNLIMITED REMEDIAL RESOURCES. People sometimes suppose that Dr. Pierce's Family Medicines represent the entire extent of his resources for curing diseases. This is an error. Experience proved that while the Golden Discovery, Favorite Prescription, Pleasant Purgative Pellets, Compound Extract of Smart Weed, and Dr. Sage's Catarrh Remedy would, if judiciously used, cure a large variety of chronic complaints, there would be here and there a case which, from its severity, or from its complication with other disorders, would resist their action. These exceptional cases required a thorough examination into their symptoms, to ascertain the exact nature and extent of the disease or diseases under which the patient was laboring, and the use of specific remedies to meet and overcome the same. This led to the establishment of the World's Dispensary, at Buffalo, N. Y., with its faculty of physicians and surgeons, each of whom is skilled in the treatment of chronic disorders in general and those belonging to his own special department in particular. To one is assigned diseases of the throat and lungs; to another, diseases of the kidneys and urogenital organs; to another, diseases of the digestive system; to another, diseases of the nervous system; and to another, diseases of the eye and ear. Thus the highest degree of perfection in medicine and surgery is attained. The establishment of this institution enables the Doctor to give a long-felt want in the treatment of the most severe chronic affections. By a careful consideration of the symptoms as given in writing, he successfully treats thousands of cases at their homes. Others visit the Dispensary in person. The simplest means for the removal of lingering ailments are thus placed at the disposal of every patient, and those on whom the proprietary medicines do not have the desired effect can procure a more thorough and efficient remedy by a personal application to the Dispensary of the World's Dispensary.

MEETING OF THE STATE DEMOCRATIC-CONSERVATIVE EXECUTIVE COMMITTEE.

Boons on the Dem. Con. Ex. Com. - RALEIGH, N. C., Jan. 29, 1876.

At a meeting of the Central Executive Committee of the Democratic-Conservative party this day held, it was resolved that a meeting of the State Executive Committee be called to assemble in the city of Raleigh on Wednesday, the 15th day of March, 1876. The object of the meeting is to decide upon the time and place of holding a State Convention of the Democratic-Conservative party and to consider such other matters as may come before the Committee.

Each member of the Committee is earnestly requested to be present.

W. R. COX, Sec'y.

The inference with which so many people regard a cough or cold is truly unparadiseable. These affections often lead to consumption, and should be checked in time by use of Dr. Ball's Cough Syrup.

A VOICE FROM THE MECHANICS.
STILL LATER!

MR. EDITOR: Latest intelligence from that "spicy little journal" and the "cheapest paper in the state," run by a railroad ring in the interest of the "blood" of the state, the Raleigh News, is that the poor printers are about having their wages reduced again.

First from \$18 to \$16, then from \$16 to \$12, and now it is proposed to reduce to \$10 per week, and the hands not to be required to work later than 3 o'clock in the morning. Will the democratic executive committee endorse the News as the organ of the party? If it does, there are hundreds of workmen who will not endorse the democratic as their party. Rob-stall lawyers and hand-logs may attempt to dictate terms to workmen, and from necessity may control their labor for a while, but, at the time has passed when the honest laboring classes can be led by the nose and required to vote "the ticket." It matters not whose name is upon it. One of the professions of the radical party has been that it was the friend of the poor man, and that it always elevated the mass of wretches, although they might come from the ranks of the swineherds, and the humber walks of life, and this has contributed in no small degree to the success of that party. Contriving the action of the two parties in this respect, is it strange that workmen begin to consider where their interest lies? I regret that such a state of affairs exists, but, Mr. Editor, let the democratic party beware lest it drive from its ranks a large number of voters. The mechanics and workmen will not endorse the News, nor those who do endorse it. He who thinks to the contrary will be deceived.

RUBBER AND CAPSULE.
There is scarcely a branch of human industry in which India rubber has not in some form found its way. Although widely known and used, but few are aware of its medicinal virtues and great curative properties. Practical experiments have proven that it is a natural reservoir of electricity, containing more than any known substance or compound. Owing to this fact it has been used with success in curing nervous complaints and rheumatism that were invulnerable to drugs.

It has also been discovered that India rubber possesses all the properties valuable as a specific for pulmonary complaints and cure many forms of consumption and lung disease. Combined with Capsaicin it is unparalleled as a pain-reducer, whether external or internal. Nearly all the surgeons have adopted it on account of its great healing properties.

The most effective way of using the article is in the form of a perforated plaster. The extensive use of ordinary perforated or porous plasters, is a testimony to its merit.

The only objection ever found with the ordinary Rubber Porus Plaster is that it acts too slowly - requiring days and continuous wear to relieve pain or effect a cure.

A celebrated physician of New York, who has long made the medical properties of rubber a study has succeeded in making a great improvement in the Rubber Porus Plaster, which overcomes all the former objections, enabling the plaster to do in a few moments what it formerly required days or weeks.

Capsaicin is the most valuable ingredient ever used as an external remedy. It operates with astonishing vigor and relieves pain immediately. Its curative properties have become so famous that an entire re-pressing firm in New York, look it in hand, and by bringing Capsaicin Plasters to the attention of physicians, have met with unprecedented success.

The article is known as Benson's Capsaicin Plaster. The price is the same as the ordinary Porus Plaster, 25 cents. Every Druggist has it.
