The Durham Tobacco-Plant, of March 29, says: "D. M. Carter, of Raleigh, was in town last week it was said for the purpose of establishing a bank house in Durham. We did not have the pleasure of meeting him and cannot speak positively of the object of his visit, but we hope he was well pleased with our town and people and will decide to make this his home."

DECLINES THE NOMINATION.—We regret that R. H. Battle, Jr., feels himself obliged to decline the nomination as one of the aldermen of 3d Ward. Here is the letter of declination: RALEIGH, March 28, 1876. Col. P. F. Faison, chairman, &c:

DEAR SIR: The meeting of the conservatives of the 3d ward of the city of Raleigh last night excited my attention, and therefore I failed to attend. I have learned with some surprise that I was one of the nominees for the position of alderman at that meeting. Some days since I told one or two of my friends, who spoke to me on the subject that I could not be a candidate consistently with my ideas of professional duty. I am now engaged as attorney in suits against the city, and I would necessarily occupy an equivocal position were I elected alderman. For this reason I feel myself compelled to decline to accept the nomination. I beg that you will make known this declination to the conservatives of the ward, with my reason for it; and that you will, as chairman of the meeting, express to them the gratification I feel at this mark of confidence from my fellow-citizens of the ward. Very respectfully, R. H. BATTLE, JR.

THE ONLY SURE CURE FOR RUPTURE.—The Oldest and Best Hernia Surgeons in the world are some of the advantages offered by the Triumph Truss Co., 334 Broadway N. Y. whose Truss and supporter were awarded the Medal at the last session of the great American Institute Fair. Send 10 cents for their new book.

FRESH FISH.—L. W. P. Gott, at S. D. Harrison's corner, receives fresh fish every day from Beaufort.

MORE REPUBLICAN VOTERS COOPER.

Yesterday afternoon K. Haynes, the worthy sheriff of the good old county of Columbus, arrived in this city with four guests for Union League hotel i. e. the penitentiary. The sheriff started with five in his gang, but one of them, John Buff, white, under sentence for 20 years for horse stealing, slipped his handcuffs and made his escape through the car window at Selma. This is the roll call of those who were brought through safely: John Lawrence, white, horse stealing, 20 years; John Norris, white, larceny, 5 years; Geo. Ford, col., larceny, 8 years; Jack Jones, col., larceny, 5 years.

HIGHWAY ROBBERY.

—Tuesday afternoon Addison Cheek, a worthy farmer of Orange county, was robbed of \$95, while on his way home. He was in his wagon, with the reins tied over his head, and when opposite St. Mary's school he was approached by a couple of niggers from opposite sides. One of them asked him a question, and as he lifted his arm to check his horses the other negro ran his hand into Mr. Cheek's pocket and made off with the \$95. It seems that the niggers had "shadowed" Cheek from the time he got the money up to the preparation of the robbery. The robbery took place in daylight and there were a number of wagons a few hundred yards ahead of that of Mr. Cheek's.

MANY MINES.

—This famous gold mine is in Nash county, near Ransom's Bridge and the Herts mine is near to it. William A. Brown, of Philadelphia, for Cable, Knigh and others, is developing the mine with great success. Some three weeks ago they ground 1000 pounds of quartz which yielded over 21 ounces of gold worth more than fifty dollars. The supply of quartz on the property is indefinite and immense. Other lands adjoining are attracting notice and thought to be of great value. This gold is obtained by milling or grinding the quartz. Parties are daily looked for from the north who will extract gold at the Purvis mines by smelting, which is a more extensive operation than milling, but like the ring, smelting gets it all.

HOW ABOUT IT?

—Under this head, the Danville News, of March 28, says: "We learn that an agent of Messrs. Johnston & Garner, of Danville, was forbidden selling manufactured tobacco of their own make, in Raleigh, the other day, because he had no special license for it. Now this is the first instance where they have had any trouble of the kind in any state or city since they have been manufacturing. It is said that the supreme court of the United States has decided that a manufacturer has the right to sell goods of his own manufacture without paying extra license. Our contemporaries there had better look after the interests of their city, as such proceedings tend to drive the trade from a locality where one is liable to be taken up at any time."

TARBOPPS.

Professor Tripp is lecturing in Wilmington.

Wilmington declares she is no longer snailpoxy.

Durham is talking of starting another machine lodge.

The wife of Capt. T. B. Lyon died in Durham, March 25.

Reports of killed fruit crops come from all portions of the state.

Durham ladies run rabbits down and catch them without aid of dogs or men.

Raleigh, March 28, 1876. Col. P. F. Faison, chairman, &c:

Very respectfully, R. H. BATTLE, JR.

TO THE VOTERS OF THIRD WARD.

MR. EDITOR: We would respectfully recommend to the voters of 3d Ward the name of our young friend Frank C. Christophers to fill the vacancy caused by the declination of Mr. R. H. Battle, Jr. Mr. Christophers is one of our most enterprising young merchants and if selected to fill the vacancy will make a valuable alderman for our city. Hoping that he may receive the nomination before the convention we subscribe ourselves MANY VOTERS.

THE LAST SENSATION!

What Does It Mean?

RUMORS THAT COL WALTER CLARK IS TRYING TO EFFECT A COMPROMISE WITH HOWERTON.

Late last evening there was a rumor afloat that Col. Walter Clark, the prosecutor in the Clark-Howerton libel matter and his friends were endeavoring to compromise with Dr. Howerton, the secretary of state, in the libel case which was set for hearing before Mayor Manly at 2 o'clock this afternoon. The rumor says that a friend of Col. Clark was sent to Dr. Howerton bearing an offer to compromise and put a stop to the whole matter. This morning the rumor was uncontradicted, and a reporter for the Sentinel called on Dr. Howerton and desired to know the truth of the report. The doctor said he did not like to answer the question without consulting his counsel, and proceeded to call one out of his private office, where they were in consultation. The attorney promptly objected to the doctor answering the question, stating that there was no objection to the fact of the declination being mentioned.

NECESSITY FOR SOMEBODY TO RISE AND EXPLAIN.

Col. Clark objected to this portion of Dr. Howerton's recent card, and for its publication had both the author and Mr. Turner, of this paper, arrested for libel: "It is, I presume, generally known that as secretary of state I am required to give the publication of the insurance reports to one of the two papers published in this city having the largest number of subscribers. These two papers were the "Christian Advocate" and "Daily News." About the time I had given the publication of the insurance reports to the Advocate, Col. Walter Clark, one of the stockholders of the "News," approached me and asked me what I had concluded to do about the publication, saying "if you (I) will give it to me I will have you always denuded in the News," and also that he had received a communication against me which he would not publish if I would give the publication to the News. Upon my informing him that I had given it to the "Advocate" he said, "well, then, I will open my batteries on you."

What he meant I could not then conceive, and unconsciously of intentional wrong did not care.

Every one can now see what he did mean."

Read what Col. Clark said in his sworn testimony last Thursday morning in regard to the above:

Question: What part of the Howerton card is true as to your self?

Answer: There are four allegations in the card in relation to me: 1st. That I had a conversation with Dr. Howerton, 2d. That I told him if he would give the advertisement to the News, I would have him denuded, having already suppressed a communication against him. 3d. Upon his refusing to give the advertisement to the News, I threatened to attack him in that paper. 4th. That it was in consequence of that conversation that the letter was written to the Petersburg (Va.) Lumber Appeal and copied by the News. These were the only allegations of which he complained.

Question: Point out what is false in the card in regard to you.

Answer: The first allegation I named just now is true. I did have a conversation with Dr. Howerton about the advertisement of the insurance reports. The second allegation is in every particular untrue. The fourth allegation is in every particular untrue.

Here is the lie direct to Howerton's statement. How is this to be compromised?

Clark says that this statement of Howerton is false, and a part and parcel of a conspiracy entered into by Howerton and Turner to libel and injure him. Howerton, on the other hand, has said he is willing to swear to their truth and further says he can prove it by numerous witnesses. Here is a question of veracity between the two. How can a compromise be made without either one or the other acknowledging himself guilty? Clark either did or did not make use of the expressions as charged by Howerton in the portion of the card published above. There is a falsehood out and somebody must have told it. Why shrink back from an investigation now? If Howerton has lied, let Col. Clark prove it. If Clark has falsely denied the charge, let Howerton prove it on him. Neither party

Success in Advertising.—In times past it was thought modest to proclaim the excellence of one's goods, or to solicit patronage for them in newspapers. During the past twenty-five years through the immense competition in trade, it has become a necessity. The public are always anxious to learn of progress, but are equally desirous to avoid all frauds, as they have been humbugged by useless wares until they have become skeptical of an article possessing genuine merit, and are particularly prejudiced against startling announcements of some new and wonderful medicine without character or worth. Still the public are grateful to manufacturers or inventors of articles of merit, even if known as medicines; many of them are the result of years of careful study by our most eminent physicians, and embrace such principles and productions as Quinine, Chloroform, Chloral Hydrate, Potus Plasters, &c.

Success in advertising depends much upon the intrinsic worth of the article itself even though it be a medical preparation. As an evidence of this, a celebrated physician of New York made a great improvement in Potus Plasters by adding Capsine on account of its giving increased effect and quicker relief and cure than any known medicinal property; he hesitated about advertising, fearing his reputation would be injured. A firm of Pharmaceutical chemists in his city learning of this decided improvement, made an arrangement with his physician and commenced advertising in the best newspapers; in a short time the sale increased from hundreds to thousands until now the sale of Benson's Capsine Plasters is exceedingly large and daily increasing. They can be obtained of any Druggist at 25 cents each.

"O'wad some power the gift give us, To see ourselves as others see us."

Behold that pale, emaciated figure, with downcast eyes, like some criminal about to meet her fate! see that nervous, dispirited look, as she walks along with a slow and unsteady step. The pink has left her cheeks and the cherry her lips. The once sparkling dancing eyes are now dull and expressionless. The once warm, dimpled hands are now thin and cold. Her beauty has fled. What has wrought this wonderful change? What is that which is lurking beneath the surface of that once lovely form? Does she realize her terrible condition? Is she aware of the woeful appearance she makes? Woman, from her very nature is subject to a catalogue of diseases from which man is entirely exempt. Many of these maladies are induced by her own carelessness, or through ignorance of the laws of her being. Again, many Female Diseases, if properly treated, might be averted in their course, and thereby prove of short duration. They should not be left to an inexperienced physician who does not understand their nature, and is, therefore, incompetent to treat them. The importance of attending to Female Diseases in their earliest stages cannot be too strongly urged. For if neglected, they frequently lead to Consumption, Chronic Debility, and often-times to Insanity. In all cases of Female Diseases, Dr. Pierce's Favorite Prescription is without a rival. No medicine has ever surpassed it. In "The People's Common Sense Medical Adviser," of which R. V. Pierce, M. D., of Buffalo, N. Y., is the author and publisher, is an extended treatise on Woman and her Diseases. Under this head, the various affections to which woman is incident are carefully considered, accurately portrayed, and a restorative course of treatment suggested. Every woman, who values her life and health, should possess a copy of this valuable book. If the book is desired, this "Adviser" will show her how she may be restored to health, and also direct her how she may ward off many maladies to which she is constantly being exposed. Let every suffering woman heed this timely advice and see herself as others see her. Price of Adviser, \$1.50 (post-paid) by any address.

GILES' LINIMENT IODIDE OF AMMONIA

GILES' IODIDE OF AMMONIA is, in my judgment, the best remedy for rheumatism put before the public. I have been afflicted with this disease for 20 years, and never until I fell upon Mr. Giles' remedy did I find any assured relief. I take pleasure in saying this, inasmuch as I desire always to be a benefactor of the human family.
