WIFE BEATING.—Allen Richardson, col., was before his honor, the mayor, this morning on the charge of beating his wife. The forgiving sharer of his joys and sorrows not appearing, Allen was discharged from custody.

A FEMALE MILL.—This morning two ebony dam-els, Jennie Thompson and Laura Plummer, had a mill somewhere in Ward No. 2. Both were on time when the police caused them to throw up the sponge. The mayor interviewed the belligerent duet and each of them had to contribute \$7.25 to municipal finances in the shape of fines and costs.

TAXES SETTLE UP.—Our people should remember that the time for listing county and state taxes will expire April 30. Albert Magnin has the list for this township at his office in the basement of the law building. Save the penalty of double taxes and an indictment by listing before the time runs out. Remember the time expires April 30.

MAJOR GALE.—This gentleman leaves this city Monday for Washington, where he lectures before the Odd-Fellow fraternity on the evening of the 26th. The Major will then proceed to Newbern where he lectures on the following evening. The good people of Washington and Newbern may be assured of an intellectual treat. Major Gale is a gentleman of graceful bearing, high culture and possesses great natural oratorical abilities.

ASSAULT AND BATTERY.—Yesterday afternoon Lila Harris, a coal black nymph of the plow handles, appeared before Squire Magnin, charging one Annette Searis, of the same complexion and a co-laborer in the fields of M. A. Bledsoe, with having committed an unprovoked assault upon her. The squire heard the case, but decided that it wasn't much of an assault after all and only fined Annette \$1, whereas Lila waxed wrathful and departed the precincts of the court in an unamiable frame of mind.

FOR RENT.—Two neat cottages. Apply to K. W. Best at office of Southern Underwriters' Association, mar 31-4f

RUMOR NOT SO.—Under this caption the News of this morning has this to say, which contradicts, in part, the truth of the rumour in regard to the same matter published in the Sentinel of yesterday:

The desire of the white people of North Carolina is for peace and good government. Their eyes are upon any party of men who work to this end and by their votes will endorse them. For a day or two past rumor has been rife on the street that Adjutant General Gorman, who so badly wants to be mayor, had issued arms and ammunition to a crowd of raw and untutored negroes in town. Of course such talk as this had best be publicly denied or publicly admitted, and to this end a News reporter called at once on Governor Brogden and inquired into the truth of it. The Governor emphatically denied it, and said he had never authorized arms to be issued to but one negro company in the state and that was in Wilmington, and he did not know of nor had he authorized the issuing of arms or ammunition to any colored companies elsewhere. So if Mr. Gorman has issued any state arms or ammunition to negroes here he has done so without the Governor's knowledge. The News is correct in saying that the white people of the state desire peace and good government, but as to the issue of arms to this negro company within the past several weeks we are prepared to give our authority for saying it is a fact, though Governor Brogden may, as he says, know nothing of it. We have no disposition to do injustice to Adjutant-General Gorman, and are prepared to give him our authority for publishing the report about the arms and the more recent issue of ammunition.

ODD-FELLOW GRAND LODGE.—THE Bangor T.—This august body meets in this city on the 10th of next month, and the indications are that a large number of delegates will be in attendance. The committees of the various lodges of this city are making active preparations for the proper reception and entertainment of the brethren. On the evening of the day following the meeting of the Grand Lodge a grand banquet will be given, which promises to be an elegant affair, as it is managed by gentlemen who know how to get up such things.

EMBEZZLEMENT.—Crawford Morse, col., was judged this morning in default of a \$100 bail bond, charged with embezzling money from W. H. Crawford, the well known butcher. It seems that Mr. Crawford gave Morse money to buy sheep, but instead of investing it in mutton he took off and gambled the money off.

JOHN A. WOMACK FOR SECRETARY OF STATE.

RINGWOOD, N. C., April 15, 1876. MR. EDITOR: Hailing from a county as completely democratic, negroes excepted, as any in the state, I beg the privilege of placing before our nominating convention, to assemble in your city, in June, the name of John A. Womack, of thatham, as a candidate for secretary of state. Mr. Womack is a skilled accountant, his honor "stationary" and his management of the people's funds would require the services of expert auditing committees to see that he hadn't taken an overplus of the public money. In addition to capacity, Mr. Womack would make the most popular candidate we could select. As an evidence of his strength, he received as a candidate for this office in 1873 a greater number of votes than any one on the ticket. His name will add character, strength and purity to any selection our convention may make.

HALIFAX. CHUFAS AND JAPAN PEAS.

The introduction of these crops throughout the south will enable us to keep our stock and fill our own houses as cheaply as it can be done in the west. The chufa is planted in a ridge like potatoes, yields on common land 200 bushels per acre of the richest feed, unequalled for fattening hogs, poultry and children. One acre will fatten more hogs than ten acres of the best corn, besides furnishing grazing all summer. For the truth of these claims we refer to U. S. Commissioner of Agriculture, Washington, or to any agricultural paper in the south. Price, by mail, 5c a package, 20c a package, 40c a pint 75c a quart by express, \$1 a peck, \$15 a bushel.

The Japan Pea fully established its merits several years ago, and is now in universal demand. It grows upright, like a cotton stalk, is cultivated like corn, and yields from 150 to 300 bushels an acre on ordinary land. Stock of all kinds relish it and thrive highly on it without other feed. Also excellent for table use. Price by mail, postage paid, 15c a package 3c a pint, 50c a quart. By express, \$3 per sack, \$10 per bushel. These are so scarce and costly that we cannot make any discount to wholesale dealers or granges. When southern planters grow their own stock feed, and fatten their own hogs, we shall hear no more of hard times and middle-men for this will put an end to both. If you fear to invest largely it will cost but a trifle to try these seeds, and unless your experience differs from all others you will be forever thankful for the trial. Address, A. F. WHITE & CO., Nashville, Tenn. ap 20-2t

The wool clip in Los Angeles county, Cal., this year is estimated at ten million pounds, worth a million and a half dollars. To be a San Francisco aristocrat one must be a member of the stock-board, which is composed of just one hundred members. But the select hundred are not disposed to let in the vulgar herd. The price of a seat has gone up from twenty thousand dollars last year, till thirty-five thousand were offered last week in vain.

Austria, in her efforts to patch up a peace between Turkey and her insurgent provinces, finds herself in the position of the man who attempts to interfere in a quarrel between husband and wife hated by one side and suspected by the other. And now Russia, in the part of the wife's big brother, stands ready to trounce the officious individual.

The enterprising journal clerk of the house of representatives, Mr. C. H. Smith, who endeavored to compass a corner in the collection of bounty claims in the state of New Hampshire, will doubtless have the fullest success in his new field of labor and usefulness. The house committee on rules, with a due appreciation of Mr. Smith's peculiar fitness for employment of this nature, have unanimously concluded to relieve him of his duties as an officer of the house, and he can now devote all his time and talents to the generous work of prosecuting the claims of disabled veterans. Finding his compensation in the consciousness of a noble duty and a selfless performance—and a commission of 25 per cent.

THE BEST FERTILIZERS IN USE. The Star Ammoniated Mapes' Nitrogenized

SOLUBLE PHOSPHATE SUPER PHOSPHATE OF LIME.

We have found by several years experience in selling the above Fertilizers, as well as by actual observation, that they have no superior, if any equal among Commercial Manures. Our prices are much lower than others, not so universally popular, and that have proven unequal in results, upon sworn statements from many of our best farmers. All we ask is a fair trial with anything sold in the South. We refer to the following gentlemen of large experience, who have used our Phosphates for several years:
