Despite the threatening clouds this morning the Person Street Methodist Sunday school set out for their picnic at Penny's pond. The long line of vehicles was headed by the Citizen's Cornet band, and all seemed to anticipate a jolly time in spite of wind and weather.

OUR FLAG AT THE CENTENNIAL.

The ladies of this city who have the matter in charge have fixed upon the design and material of the centennial flag of this State, which is to be exhibited at Philadelphia. We know everything connected with it has been carried out in the best of taste, but we have one suggestion to make. We see from some of our northern exchanges that Rothermel's "Battle of Gettysburg" is to be displayed in the art building and will have the place of honor in the group of American pictures. The picture was painted by the order of Pennsylvania Legislature, but is a complete failure, the most competent judges in this country having pronounced it a very dabb. Its presence will reflect no credit upon American art, but on the other hand will excite the ridicule of artists from abroad.

THE GRAND LODGE OF I. O. O. F.

This body assembles in our city to-morrow. Already have a large number of delegates arrived and many more are en their way. This order comprises some of the best and most respected citizens in the State. On the part of those citizens outside of your fraternity we welcome you, gentlemen, to the City of Oaks, and trust that your stay here will be pleasant to you as individuals, and conducive to the prosperity of your order.

Away from General Custer his command and his breast rank—against the protest of the General of the army, and to the great injury of the public interest—because this gallant and able officer attacked the administration in testifying against Belknap, is only a piece with the discharge of Henderson as counsel in the whisky prosecutions at St. Louis for "attacking the administration" in his sharp pursuit of Babcock.—Boston Transcript (Ind.)

THE MEETING OF THE BOARD OF ALDERMEN LAST EVENING.

In accordance with a previous adjournment the Board of Aldermen met last evening. Mayor Manly presided and Aldermen Adams, Armstrong, Carner, Cook, Flemming, Jones, Lumsden, Murray, Upchurch, Walker, West and Williams were present. Licenses were granted Charles Homan, liquor dealer, and Robt. Orr, auctioneer.

M. B. Barbee, on the part of the bogus Board of Commissioners, presented a communication from that sweet-scented crew, demanding that the city government be turned over to them. The ridiculous document was handed to the clerk for future consideration.

J. C. Gorman, the pretending Mayor, next danced up with a personal communication for Mayor Manly. The Mayor said he would receive it as it was a personal matter, but would take his own time about considering it, whereupon the great would-be nervously walked off, seemingly in a disturbed state of mind.

The election of policemen was next gone into and the following were chosen: J. W. Besley, B. B. Betts, Samuel Betts, R. W. Bryant, J. M. Carver, W. E. Davis, J. K. Ferrell, J. M. Goodwin, Thomas Mitchell, J. H. Mullen, W. C. Parker, J. T. Parham, J. W. Waters, P. P. Williams and R. P. Finch. There is one vacancy in the corps which will be filled at the next meeting.

W. C. Carter was elected Janitor, with a salary of \$30 per month. Richard Fowler was elected Keeper of the Market, and invested with the powers of a policeman while on duty. S. M. Tant was re-elected City Weighmaster, and the City Clock was placed in the charge of T. W. Blake, with a salary of \$100 per year, which is to include repairs, &c.

The following standing committees were appointed:

Finance Committee—Adams, Anderson, Fleming, Lumsden and West.

Street Committee—Armstrong, Carner, Green, Jones and Sanders.

The time of the City Tax Collector to settle up for taxes of 1875 was, on motion of Alderman Jones, extended thirty days.

The following committee was appointed by his Honor to look into the matter of those in arrears for 1874: Cook, Jones, Murray, Pescud and Upchurch.

There being no further business, the Board adjourned.

ARMS ISSUED.

Adjutant General Gorman issued to-day a complement of breach-loading Springfield rifles and accoutrements, to the Elm City Rifemen (white). The "Elm City" is a traditional name. It had an organization before the war. It was one of the companies of the "old second" of Confederate memory, of which Col. Tew was commander, of Ransauer's brigade, and we are glad to know its name and memory are to be perpetuated. The deeds of its rank and file will live forever, and the new organization, perpetuating the name, ought to be the pride and glory of Newbern.

KEROSENE AS CAUSE OF DIPHTHERIA.

Messrs. Editors.—Would it not be well to call the attention of our physicians to notice an extract that is causing some excitement in other cities in regard to the prevalent use of kerosene, as it is not only dangerous in use, but detrimental to health, and if there is anything in it, let us know it. We have physicians whose opinions are worth as much as those in other cities. Here is the extract: "The extreme prevalence of diphtheria in parts of New York city within the range of odors from the kerosene oil factories on Long Island, with other evidence of the same sort in Connecticut, has led to a theory that kerosene is the cause, or a cause, of the disease. Dr. Wilson, a well known physician of Meriden, adopted the theory from facts under his own observation, long before anything was said about the factories. He goes so far as to say that the simple lighting or extinguishing of the blaze in the lamps of a house will produce a visible effect on the patient, and he always orders that the use of this oil be discontinued where he finds it in a family having a diphtheria patient. The disease, as is well known, is comparatively a new one, and it is said not to have appeared till after the discovery of petroleum. The evidence in support of this theory, however, is not yet by any means sufficient to establish it but the importance of the question certainly ought to stir the doctors up to an investigation, thorough and exhaustive enough to settle it.—Springfield Republican.

A curious volume has just been published by Messrs Seelye & Co. in London under the title of "Country Life in Syria." The author, Mrs. Rattray, is an English lady whose husband has long been engaged in agriculture on the Metayer system, his capital being laid out among the peasantry of Antilebanon. She has thus gained an intimate knowledge of their ways, of which she gives a graphic description.

The Cologne Cathedral is approaching completion, more than seven hundred men having been engaged and more than one million marks spent upon it in 1875. The eight towers which surround the octagon are nearly finished up to 200 feet in height from whence the spires of 110 feet will be superadded. The total height, including the cross, of these towers, will be 500 feet, against 452 feet of the Strasburg minister, 431 of St. Stephen's, Vienna, and 393 feet of the dome at Antwerp.

The pilgrimage to Mecca and Medina, of Moslems, has been larger this year than ever before. One of the attractions at Mecca was a celebrated preacher, regarded as a saint and a prophet. People from Turkey, northern Africa, Soudan, Arabia, and India gathered in crowds to hear him. One of the preachers advised the pilgrims to abstain from all intercourse with Christians, and from drinking wine. Some of the listeners, wrought into a frenzy by his words, threw themselves beneath the hoofs of his horse as he rode away. Another preacher said all Europe would be under the Crescent in ten years.

[Published by Request.] A CARD.

Mr. Editor.—The News of this morning does me injustice in its report of the trial before Mayor Manly yesterday, and I beg leave to lay the whole matter before your readers that the false impression conveyed may be corrected.

About three o'clock yesterday, Mr. Williams came to my place of business and said he wanted my taxes for 1875. I have recovered judgments for about twelve hundred dollars against the city of Raleigh, and a suit asking for a mandamus to compel the authorities to pay off these judgments has been pending in the Superior Court of Wake county since the spring of 1875. In July 1875, I again sued the city on what is known as city scrip, and obtained a judgment for about fifty-seven dollars, and this scrip was signed by Mayor Separk, under the direction of the then Board of Aldermen. About three weeks ago I applied, with my counsel, to the Board of Aldermen, then in session, to have this last judgment taken in payment of my city taxes. Mr. Busbee, City Attorney, suggested that this could be allowed as interest on the judgments referred to above, without violating the established rule, not to pay any scrip. The matter was, after some discussion, referred to a committee. Mr. Williams was cognizant of these facts, having been present at the meeting as clerk, and had agreed with both me and my counsel not to take any steps in the matter before it was determined what the board would do. When he made the demand yesterday I requested him to wait until I could see my counsel, T. R. Furnell, Esq., who had gone home to dinner. His reply was something about a committee having been appointed to make him settle last year's taxes, and he deputed some one standing near to levy on my horse and dray. The man deputed caught hold of the reins, and I jerked them out of his hands. Mr. Williams and the man immediately left. There was no "high-handed outrage," as the report says, and on the trial the prosecuting counsel said, and the *de facto* Mayor intimated, this was to be a test or a leading case. When brought before the "court," my counsel, asked for time to prepare a defense. It was refused. He then asked for twenty-four hours to get his books to argue the defense. This was likewise refused. Objection was then made to the court as not being even a *de facto* court, and a plea to the jurisdiction entered. This was overruled without argument. There was a trial, judgment and fine, as stated, and in rendering the judgment "Mayor Manly said he did not know how much of the fine would be remitted. Afterward, Mr. Williams came to my store, and after some conversation said he thought he could get Major Manly to remit the fine if I would assure him the tax would be paid. Mr. Furnell said if he had been sent for before the attempt to levy was made, this might have all have been avoided; that Mr. W. was the *de facto* collector of 1875, as all the city officers had been recognized as *de facto*, even in the pleading in the city suits; and though he doubted his right to make the levy, if the fine and costs were both remitted he would advise me to pay the taxes for 1875, but would give him (Williams) a lively time collecting the taxes of 1876. After a few minutes absence Mr. W. returned, and said the whole matter would be dropped, fine and costs remitted, if I would assure him the taxes would be paid. Upon advice, I gave the promise to settle by to-day. I will further state that I had been notified by Gen. J. C. Gorman not to

pay any city taxes to Mr. George H. Williams or any of the pretended city officials acting with him, calling themselves the Board of Aldermen; that if I did I would probably have it to pay again. I am informed that this notice only applied to the taxes of 1876. S. D. HARRISON.

A CALL FOR A COUNTY CONVENTION.

As chairman, I am instructed by the executive committee of the Democratic-Conservative party of Wake county to give notice that there will be held a convention of the Democratic-Conservative voters of the county at the courthouse on the 10th day of June next at 12 m., for the purpose of sending delegates to the state and congressional district conventions and to consider the propriety of nominating candidates for public offices. I am further instructed to call upon the chairmen of the various township committees to hold meetings in their respective townships on the 27th day of May, in order to appoint delegates to this convention. W. W. JONES, Chm'n.

How awfully culpable must be those afflicted with Consumption, Bronchitis, Asthma, or any disease of the Lungs, Throat or Chest, who neglect to use Dr. Tutt's Expectorant after reading the following letter, written by one of the most estimable ladies in the south: SAVANNAH, GA., April 28, 1872.

DR. TUTT: It is with gratitude for the benefit received by the use of your Expectorant, I do cheerfully add my testimony to its wonderful power in curing deep-seated coughs. For several years I suffered dreadfully with a cough attended with great difficulty of breathing. I was induced to try your Expectorant, and it gave almost immediate relief. I took six bottles and am now perfectly restored. It is about five months since I began its use, and I have not had an attack since. It has been a great blessing to me; I cannot afford to be without it, and heartily recommend it to all who have lung or throat disease. Very respectfully, MRS. A. M. WELLS.
