THE RALEIGH SENTINEL

Democratic Always and Under All Circumstances

WEDNESDAY, MAY 17, 1876.

DISTRICT CONVENTION.—A convention of the Democratic-conservative voters of the Fourth Congressional District will be held in the city of Raleigh on Tuesday, the 13th day of June next, for the purpose of nominating a candidate for congress and a presidential elector, and selecting two delegates to the St. Louis Convention. A full attendance is earnestly desired. Each county will be entitled to one vote for every one hundred votes and fractional part over fifty given for Merrimon in 1872.

By order of the District Executive Committee.

H. A. LONDON, JR.,
Chairman.

March 31st, 1876.

Papers in the district will please copy.

BLAINE AND TILDEN.

The betting of our yankee cousins seems to be upon Blaine and Tilden. The knowing ones say the first will be nominated at Cincinnati and the latter at St. Louis. Though head now, they may both be turned down before the conventions meet.

BOY MURDERER.

Massachusetts beats all her sister States turning out young murderers. Pomeroy was her best until recently a boy named Piper, seeing there was no hanging for Pomeroy, murdered a little girl in the church belfry. He was likely to get a new trial, but confessed his guilt and confessed to two other murders, and the papers say he is not yet through confessing.

HOME RULE.

The British Parliament allows the Scotch members to determine and control measures which pertain exclusively to Scotland. The Irish members recently asserted the same right on the whisky question and with success. The federal government in these latter years have wholly disregarded the rights reserved to the States, and it may be the example beyond the waters will have a good effect upon our radical rulers and they may admit that, like Scotland and Ireland, the States have some rights the federal government and the republican party must respect

FITZHUGH, THE DOORKEEPER.

The congressional doorkeeper, Fitzhugh, is from the wilds of Texas, and writes foolish letters which have brought him into trouble. He wrote to a friend that "with the members he was a bigger man than old Grant." and for this they would expel him. If he had written that he was a bigger man with the people he might have plead justification and taken the vote as proof. Though at first charged with writing a foolish letter, it is now said he was indicted in Kentucky for a high offence before he left that State for Texas. This will be a comfort to Belknap.

RALEIGH AND CHICAGO.

These two cities are much alike, though distinct from each other. They have both suffered from fire, especially the latter. They are not so much alike in fire and ashes as in government. They each have what Tom Benton called double-headed governments when Mr. Calhoun proposed to have two Presidents, one from the north and the other from the south. Chicago now has two Mayors, Mayor Colvin holding over, and Mayor Hayne voted for at the late election and declared elected by the city council. This council, therefore, does not recognize Colvin, but does recognize Hayne. Raleigh had two Mayors, Manly and Gorman. Manly and Colvin are recognized while Hayne and Gorman are content to be Mayors so-called by their few followers, while Colvin and Manly are sure enough Mayors.

"IF THE PRESIDENT DOES NOT OBJECT."

Grant, Morton, Belknap, Blaine and among them are tired of this investigating foolishness, and Secretary Bristow says, in a note to the investigating committee, that he will not allow them to take any original paper from his office, but he will furnish copies if the President does not object. Why should his Secretary put in this saving clause "if the President does not object," unless the President had told him he would object? Doorkeeper Fitzhugh has had a resolution of expulsion served upon him for writing a "foolish letter." Bristow's letter to the committee was quite as foolish as Fitzhugh's, yet Bristow is neither expelled nor impeached. John Pool and the loyal no doubt think it ungrateful in the rebel members of Congress to be investigating their benefactors who so magnanimously admitted them to their seats.

MORE BLOOD.

The news from Louisiana is of a bloody color. At Lowell, in west Feliciana Parish, eight negroes were killed, four hung and twenty wounded. There were none killed among the whites.

This will be food for Grant, and call the attention of the country from Belknap and the bold frauds which are perpetrated in Washington and the great cities of the Union.

We have no intelligence as to the immediate origin of the fight. Eleven hundred negroes are reported under arms. More killing may be expected.

The government of Louisiana was taken from the people and given over to the negroes and Grant's corrupt satellites, and hence the frequent flow of blood in Louisiana. Good government is a blessing, and happy are the people who possess it.

In 1870, says the Baltimore Gazette, the national debt was only sixty millions of dollars, and the total state debts about two hundred millions. Here is the record now:

National debt,	$2,289,000,000
State debts,	382,900,000
County debts,	180,000,000
Municipal debts,	769,000,000
Railroad debts,	1,680,000,000
Total,	$5,220,900,000

When these figures are thrown at the republican politicians they immediately begin to shout "Jeff Davis" and the "Confederacy," endeavoring to throw the responsibility upon the democratic party. This is all nonsense. Most of the stealing has been done since the war closed. The "rings" that have been swindling the government and robbing it of millions and millions of dollars have come into existence since 1865. In 1869 they blossomed into full luxuriance, when Mr. Grant came into office, and since then have been flourishing like green bay trees. That is where the money has gone.

OFFICIAL CORRUPTION.

The Christian Advocate, speaking of corruption in high places, says:

With such illustrious precedents or examples before them, it is not to be wondered at, however much it is to be deplored, that minor officials in the National and State governments should betray the confidence and trust of the public whom they serve.

It is necessary that not only the party opponents of those who are guilty of crimes and fraud should become indignant and expose and denounce the offenders, but that all citizens, of whatever party affiliations they may happen to be, shall withdraw their countenance and support from them. If the people are intelligent, law-abiding and virtuous, their rulers and public officials will be honest and faithful. No government can long be tyrannical except where the people are willing to be slaves; and no officials can or will dare to be corrupt and dishonest, except where the people, whom they serve, condone their faults and, through partisan feeling, defend or attempt to conceal their wrong doing. As long as a bribe-taker or malfeasant finds his party willing to hide or defend his offences, he will not care much for the attacks and denunciations of the opposite party. Let the people be virtuous and demand, as they have the right to demand, honest and christian men to fill their offices, and disgraceful conduct will soon be at a discount.

THE CENTENNIAL EXPOSITION.

THE ATTENDANCE SATURDAY—FINE WEATHER AND LARGE TURN OUT—PROTEST AGAINST CLOSING ON SUNDAY, ETC.

The fine weather of Saturday invited a much larger number of visitors out to the centennial exposition in Philadelphia on that day than on the previous day. The walking facilities were much better. Improvements have been made on the principal avenues, and in a few days Belmont avenue will be in good condition. The attendance on Saturday numbered between forty and fifty thousand, though the exact figures cannot be stated, the electric apparatus for the purpose of registering not having yet been attached to the turn-stile. Work on the grounds in the vicinity of George's Hill and Machinery Hall is still very backward, and it will take some weeks to finish up.

In the art gallery much remains to be done. Several of the sections have been closed in order to allow the workmen to put up railings in front of the exhibits. The display here when complete will doubtless be very fine.

Gilmore's concert in the main building on Saturday afternoon was well patronized. The feature of the exhibition seems to be a happy one, and expressions of gratification are heard on all sides.

Among the notables who visited the grounds on Saturday were Dr. O. Wagener, the imperial Japanese commissioner; Mr. DeBeldt, attache of the legation of Sweden and Norway; Mr. Fritz Cunliffe Owen, Japanese commissioner, and Guiseppe Dassi, Vice-President of the Italian commission.

The centennial commission have done away with the regulation requiring a fifty cent note or a fifty cent silver piece to secure admission. Hereafter fifty cents of any kind, so it is genuine, will admit a visitor.

A second edition of the official catalogue will be issued in a short time. The various inaccuracies and deficiencies in the present issue will be rectified.

About the 30th of the present month the unveiling of the Witherspoon monument will take place. Gen. Bedle, of New Jersey, has been chosen orator for the occasion.

For the Fourth of July quite a number of demonstrations have been arranged.

Sunday the avenues leading to the grounds presented the same busy scenes of last week, except that the gates of the exhibition were closed. The avenues were lined with people and vehicles, and the streets and did a thriving business. The extra city police force was on duty throughout the day.

The arrangements for the unveiling of the Humboldt memorial will be matured in the course of a week or two.

On the 4th of July the ceremonies attending the unveiling of the monument to religious liberty and the Catholic temperance fountain will take place.

The special committee preparing the list of judges of commissioners of award authorise the statement that the publication by a New York journal of what purports to be a list of such judges is incorrect in so many respects as to be entirely valueless as a guide. It is the intention so soon as the selections are complete, or are within two or three or half a dozen names of completion, to make public announcement of them to the press impartially on or about the 24th instant, the day on which the judges are invited to assemble.

A large meeting of citizens to protest against the closing of the centennial exhibition buildings on Sunday was held Saturday night at Musical Fund Hall. Rev. Dr. Furness presided, and addresses were made by the chairman, George W. Biddle, Esq., Colonel John W. Forney, Dr. Bellews, of New York, and Colonel Fitzgerald.

A series of resolutions was adopted expressing the opinion that the opening of the exhibition on the first day of the week, either free to all or at a reduced rate, will promote the cause of religion and morality, as well as the happiness of the people, by providing a place where all may contemplate on this day the handiwork of the Creator, as well as the achievements of human genius, industry and skill. The meeting was enthusiastic throughout, and the resolutions were adopted amid great applause. A committee of thirteen was appointed to urge upon the managers of the exhibition the early adoption of rules in accordance with the purpose entertained by the meeting.—Baltimore Sun.

Professor Palmieri has invented a new instrument which he calls a "diagometer," and which is constructed for the rapid examination of oils and textures by means of electricity. What the apparatus will do, Professor Palmieri details thus:—1. It will show the quality of olive oil. 2. It will distinguish olive oil from seed oil. 3. It will indicate whether olive oil, although of the best appearance, has been mixed with seed oil. 4. It will show the quality of seed oils. 5. Finally, it will indicate the presence of cotton in silken or woollen textures. The professor has been complimented for his invention by the Chamber of Arts and Commerce at Naples, who have published a full description of the apparatus, with instructions for use.

POLITICAL NOTES.

Tilden seems to be the coming man. Though not our first choice, he would be entirely satisfactory. A Jeffersonian democrat, a lawyer who has preserved a reputation for integrity, and stands at the very head of his profession in the United States—a man who was never an office-seeker, but who in office has proved himself fearless, firm, and equal to every occasion, he is one of the few men who can lead the democracy to victory.—Woodford (Ky.) Leader (Dem.)

The feeling in favor of Tilden's nomination throughout the South is rapidly growing, and we think he is, even now, the favorite of the southern democracy. We are not of those who think that Governor Tilden or any other man is "the democratic party," but we should like to see him nominated, because he is one of the ablest, purest and bravest of our leaders, and because he seems to us to render very certain elements of strength essential to our success.—New Orleans Democrat (dem.)

TO ALL MEN A SPEEDY CURE.

Weakness of the Back or Limb, Stricture, Affection of the Kidneys or Bladder, Involuntary Discharge, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose, or Skin, Affections of the Liver, Lungs, Stomach or Bowels—these terrible disorders arising from solitary Habits of Youth—secret and solitary practices more fatal to their victims than the song of the Syrenes to the Mariners of Ulysses, blighting their most brilliant hopes and anticipations, rendering marriage a most impossible, destroying both Body and Mind.

Marriage.

Married persons or young men contemplating marriage, suffering from Organic and Physical Weakness, Loss of Procreative Powers, Impotency, Prostration, Exhausted Vitality, Involuntary Discharges, Non-Erectability, Hasty Emissions, Palpitation of the Heart, Nervous Excitability, Decay of the Physical and Mental Powers, Derangement of all the Vital Forces and Functions, Nervous Debility, Loss of Manhood, General Weakness of the Organs, and every other unhappy disqualification, speedily removed, and full manly vigor restored.

To Young Men.

These are some of the sad and melancholly effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, etc.

MENTALITY.—The fearful effects on the mind are much to be dreaded—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil-Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, etc., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of consumption.

A Perfect Cure Warranted

In recent Disease Immediate Relief—No Mercury. Persons ruining their health, wasting time with ignorant pretender and improper treatment, driving disease into the system by that Deadly Poison, Mercury, causing Fatal Affections of the Head, Throat, Nose, or Skin, Liver, Lungs, Stomach or Bowels, speedily cured. Let no delicacy prevent apply immediately.
