FARMER'S JOURNAL Prospectus.

The undersigned proposes to establish in the city of Raleigh, an agricultural newspaper, to be entitled the "North Carolina Farmer's Journal," to be as large as any in the state, and to be published weekly. The first number will appear early in August of the present year.

ent year.
The "Farmer's Journal" has no con-The "Farmer's Journal" has no con-nection whatever with the State Agri-cultural Journal. It will be operated in the loterest of the farmers of North Carolina, and is designed to include every department of agriculture, stock-ralsing, horticulture and domestic econ-

In addition to this it will contain all the important news of the day; a record of the weather, crops and prices; full market reports; movements in cotton, and pleasant or instructive reading for the home circle. There will be connected with it sev-

eral special features to which I desire to direct attention, to wit:

An organized staff of regular contribu-tors, composed of our ablest agricultu-ral and scientific writers;

ral and scientific writers;
Regular correspondence from the several deputies of the N. C. State grange;
Monthly crop reports from officers of granges in every section of the state;
A department devoted to the development of our material resources;
A column of inquiries and answers;
A literary page for original stories, poems and other-writings by native authors.

Each department of the Journal will be rendered as complete and as good of its kind as it is possible for enterprise, energy and close attention to accomplish. The Farmer's Journal will be edited for the whole state, and not any particu-lar section. Partisan politics and secta-rian discussions will be excluded. It will be independent of all sects, parties, factions, or rings. It will constantly aim to watch the farmers' interest; to improve their condition; to keep them well informed; to secure among them harmony, good-will, and vital brother-hood; to promote friendly relations between producers and consumers; to bring to the notice of the world the vast agricultural and mineral wealth of North Carolina; to induce immigration, and to increase the productive industries of

the country in every line.

Besides this, it will labor to secure nigid economy in the administration of government; to suppress national, sec-tional and local prejudices; to promote the cause of genuine reconciliation with the North; and, in a word, to do whatever fidelity to the people may require; and thus come, in good time, to merit a warm welcome in every household in North Carolina.

The subscription price is two dollars a year. Persons desiring to subscribe may send in their names and post-offices now, or at any time between now and July 1st, the subscription price to be paid on receipt of the second number of the paper, which will be issued about the middle of August next. Advertisers wishing to assure prominent positions wishing to secure prominent positions in the columns of this journal, will find it to their advantage to apply at once to the undersigned.
