Dr. Ira A. Thayer, of Baconsburg Ohio, writes : "I regard your Pellets as the best remedy for the conditions for which you prescribe them of any-thing I have ever used, so mild and cer-tain in effect, and leaving the bowels in excellent condition. It seems to me they must take the place of all other cathartic pills and medicines." Lyon & Macomber, druggists, Ver-million, D. T., says: "We think they

are going to sell like hot cakes as soon as people get acquainted with them, and will spoil, the pill trade, as those that have used them like them much better than imge pills."

THE CONCERT LAST EVENING. Last evening Tucker hall was filled with the beauty and fashion of our little city to hear an operatic concert, under the direction of Professors Norman and Baumann. The programme was at once select and elaborate, and the rendition such as to induce almost incessant applause--in fact, the applause was so frequent and prolonged as to be disagreeable. Mrs. Norman sang a

aber of solos, all of which procured for her an encore, especially "Tanti Pulpiti," from Tancredi ; "Fierce Flames," from Il Trovatore ; the "Rose Bush." Mrs. Norman has a full, rich contralto voice, and her throat-notes can be characterized in no better way than by calling them exquisite.

Mrs. Geo. C. Jordan's rendition of the "Gambler's Wife" was one of the feafures of the evening. A clear, sweet contralto voice, distinct, artic perfect time and utmost grace of expression all combined to elicit tokens of ap precistion on the part of the audience, and to stamp the lady as an artist of the first order of ability.

Mrs. Baumann's "Adelaide" was de lightfully rendered. Her sweet, silvery soprano voice charmed all. The piano performances of Professors Bas and Norman were very fine and v the recipients of hearty applies were also soveral choruses which were rendered with fine effect. The concer was a success in every respect and re-flects credit upon all engaged in it.

The Raleigh Sentinel of the 20th contains an article headed the "Charlotte Observer," in which it contains a reply to some comments we made, some days ago, upon the recent course of the Raleigh papers. We do not know who the author is, but as the signature indicates, the letter "A" is one of the initials of his name. At any rate, he will accept our admiration at the fairness and dignity that characterize his article. It is a courteous and high toned reply, and does not avoid the subject at issue by dealing in persons sion will surpass anything that has ever allties and abuse. - Charlotte Queerver. Mrs. Norman has a full, deep, clear and remarkably sweet contraito, and will give pleasure wherever she sings, Mr. Norman is a fair accompanist, but it is a matter of regret that his piano

solos were selections that have been often played, and played well by young ladies attending our seminaries. In this morning's News the song "The Gambler's Wife," was attributed in comments of the song in error to Mrs. Norman, and was prop-erly termed one of the gems of the evening. It was sung by Mrs. Geo. C. evening. It was sung by Mrs. Geo. C. Jordan, who possesses one of the most exquisite contralto voices in our state. The Presbyterian choir have always evinced a willingness to help in any good cause, and deserves the hearty appreciation they have so often receiv-ed.

Lieutenant Cameron, in his recent travels in Central Africa, came to a country where the iron trade was in a country where the iron trade was in a flourishing condition, there being many founderies, about fifty feet long by thirty feet wide, where they frequently got one hundred and fifty to two hun-dred pounds of metal at a single smelt-ing. Here he had seen pieces of iron worked simply by the hammer, and moulded into various shapes, including moulded into various shapes, including the human form, as completely finished as if manipulated by the most skillful English artisan.

blood being the source from which the system is built up, and from which we derive our mental as well as physical capabilities, how important that it should be kept pure 1. If it contain vile, festering poisons, all organic function become cufeebled. Settling upon im portant organs, as the lungs, liver and kidneys, the effect is most disastrous. Hence it behooves all to keep their blood in a perfectly healthy condition. and more especially does this apply at this particular season of the year than at any other. No matter what the exciting cause may be, the real caus of a large proportion of all disease is bad blood. Now, Dr. Pierce does not wish to place his Golder Medical Discovery in the entalogue of quack patent nostrums, by pecom mending it to cure every disease nor does he so recommend it; on the contrary, there are hundreds of disease that he acknowledges it will not cure ; but what does he claim in this, that there is but one form of blood disease that it will not cure, and that disease is cancer. He does not recommend his Discovery for that discase, yet he knows it to be the most searching blood-clean-ser yet discovered, and that it will free the blood and system of all other blood poisons, be they animal, vegetable, or mineral. The Golden Medical Dis-covery is warranted by him to cure the worst forms of skin discoses, and all forms of Blotches, Pimples, and Emp-tion ; also all Glandula Swellings, and the worst form of Scrofulous and Ulcerated Sores of the Neck, Legs, or other parts, and all the Scrofulous Disenses of the Bones, as White Swellings, Fe-ver Sores, Hip-joint and Spinal Dis-eases—all of, which belong to Scrofulous diseases.
