POMEROY'S
EXTRAORDINARY METALIC
Strap and Paste,
For Razors, Surgeons' Instruments,
Penknives, &c. &c.
A supply, of a superior quality, is just
received, and for sale by
THOMAS WATSON,
AT THE POST-OFFICE.

The Manufacturers offer the above Strap
and Paste to the public, with a full belief
that they will be found on trial far superi-
or to any ever before used in this coun-
try or elsewhere.

They feel themselves authorized to make
this declaration, from their own experi-
ence—the approbation of all who have used
them, and the recommendations of sev-
eral gentlemen of the first respectability.

Among others that might be procured,
they submit to the public the following:—

I hereby certify that I have for six or
seven weeks past, made use of a Razor
Strap and composition of Paste, prepared
by E. M. Pomeroy of Wallingford, Conn.
for sharpening my Razors and Surgical
Instruments, and I am certain that I have
never found any Strap of composition that
would produce so perfect an edge either
on a Razor, or on Surgeons' Instruments.

NATHAN SMITH,
Professor of Physic and Surgery,
Yale College.

I hereby certify, that I have for seven
weeks, made daily use of a Razor Strap,
prepared by Mr. E. M. Pomeroy, of
Wallingford, Conn. I have found this
Strap, decidedly superior, to any that I
have used. A Razor, which was in in-
different order, it brought immediately
to a delicate edge, which it preserves, by a
little judicious use of the Strap. I should
think, from the trial I have made, that
this Strap would in a great measure, if
not entirely supercede the necessity of
honing. From the disclosure made to
me, of the substance employed in pre-
paring the Strap, it is obvious that it
could not have been better chosen, and I
have never heard of its being applied for
this purpose before.

BENJAMIN SILLIMAN,
Professor of Chemistry, Pharmacy,
Mineralogy and Geology in Yale College.

Having used one of Mr. Pomeroy's
Razor Straps for some time past, and
having been made acquainted with the
nature of the Paste which he uses in dress-
ing them, I have no hesitation in say-
ing, that I believe it to be much superior to
any thing before used for that purpose.

ELI WHITNEY,
Gun Manufacturer.

TO THE FREEMEN Of Carteret, Craven, Jones, Lenoir, Greene, Wayne and Johnston.

GENTLEMEN,
THE time for which I was chosen
to represent you in Congress, ex-
pired by the Constitution on the 4th
of last March, and the ensuing elec-
tion is drawing nigh when you will
have to choose some person to rep-
resent you in the next Congress of
the United States. I avail myself
of this opportunity, fellow-citizens,
to tender you my sincere thanks for
the honor you conferred on me at
the last election, by choosing me
your Representative; and yielding
to the solicitations of my friends,
I again offer myself a candidate
for your suffrages at the next
election.

Should I be chosen your Repre-
sentative, I do assure you that my
efforts will be contributed to pro-
mote the welfare of our common
Country; but on the contrary, should
I not be the object of your choice;
unambitious of the distinction or e-
molumment of office, I can with equal
satisfaction to myself, return to
my Agricultural employment, from
which nothing but the call of my
Constituents, in the service of my
Country, can separate

Your Friend and Fellow-Citizen,
William S. Blackledge.
Craven County, June 13, 1821—169th.

TO THE FREEMEN Of Johnston, Wayne, Greene, Lenoir, Craven, Jones and Carteret.

FELLOW CITIZENS,
THE time is fast approaching,
when you will be called on, to
exercise one of the most important
rights secured to us by the Constitu-
tion; the selection of some one
to represent this district in the next
Congress of the United States.

Encouraged by the countenance
and solicitations of many respecta-
ble friends, I have consented to of-
fer myself a candidate for your suf-
frages on this occasion.

Born and raised among you, and
living by the cultivation of the soil,
I can have no bias or prejudice un-
connected with the honor of my
country and no interests but such
as are common to every farmer in
the district. With qualifications so
humble, it is with much diffidence
I present myself to your considera-
tion, and if you should deem them
sufficient to entitle me to a seat in
the national councils, I can only an-
swer for the fidelity with which my
abilities, whatever they may be, shall
be devoted to the security of your
rights and interests and advance-
ment of the prosperity of the country.

With great respect,
Your obedient humble servant,
John P. Daves.

TOWN TAXES.

THE Subscriber gives Notice, that he
has been appointed by the Commis-
sioners of the Town of Newbern, to re-
ceive the lists of taxables in said town
for the present year.—He will attend at
his store in Pollock-Street the last twenty
days in July, (Sundays excepted) for that
purpose. Those who fail to give in within
twenty days, are subject by law to a pen-
alty of Forty Shillings and to a double
tax. To enable the Commissioners to
ascertain what lots and parts of lots are
not given in, and to subject such to their
just share of taxation, it is required that
each list should designate the number of
the lot given in, the street on which situ-
ated, and the quantity of ground where
less than a whole lot is returned.

STEPHEN B. FORBES.
No tax will be received
after the 31st day of July.

MR. HURLEY, DENTIST,

PROPOSES to spend a short time in
Newbern, and respectfully offers his
professional services to the citizens of this
town and its vicinity.

Mr. H. operates for all diseases inci-
dent to the teeth and gums; he frees the
teeth from tartar, which if permitted to
accumulate to a certain degree, will in-
fallibly induce that most offensive disease,
the scurvy; he arrests decay in its incep-
tion by filing, and when the caries has
made considerable progress, he checks it
effectually by plugging. When caries, so
unfriendly to beauty and convenience, has
made such ravages as to be otherwise ir-
remediable, Mr. H. inserts Artificial
Teeth, after the most approved manner,
and executed in a style so nearly ap-
proaching nature, as to bid defiance to
detection. It is well ascertained, that
when the teeth of children are disposed to
assume an irregular growth, unfavorable
to symmetry and beauty, and tending to
future diseases, this may be corrected by
the timely application of proper means.

Mr. H. has a room suitable for the pur-
poses of his profession, at Mr. Bell's Ho-
tel; and if requested, he will attend the
Ladies at their own houses.
