Hair Restorative,

AND
Preservative Vegetable Cerate.

Simple in its Nature and Wonderful in its Operation.

THE important discovery of a Vegetable substance, capable of restoring and preserving the Hair, was accidentally made by an individual who has neither the capacity nor the disposition to practice deception or fraud. The fullest reliance may be placed on the efficacy and power of the Vegetable Cerate, not only in restoring and preventing the falling off of the hair, but in producing the greatest loveliness of its immitigable; and the public may rest assured that its effects will be clearly manifested in the course of a short time by the renewal and vigorous growth of the Hair, and by effectually preventing its coming out or falling off. The Vegetable Cerate tends to resuscitate and excite the energies of the capillary vessels, which constitute those organs that secrete the matter forming the hair; these like many other organs of the animal body, which have been in a state of dormancy or disease, may be restored to their healthy action, and perform all those functions assigned them by nature.

Elderly people, with bald heads, may rest assured that by applying a few boxes of the above Cerate, their Hair will be restored with all its youthful beauty and life.

To prevent imposition, the sale of the Vegetable Cerate will be confined to Dr. JAMES H. HART, for the city of New-York only, corner of Broadway and Chamber-street, three doors from Washington Hall, where it will be sold at \$1 75 per box.

More Proofs

Of the superior efficacy of the Vegetable Cerate over every other remedy, is daily increasing, and it is beyond a doubt the only thing yet discovered in this or any other country which restores the hair on **BALD HEADS,** and entirely prevents its coming out or falling off. The following certificates are published at the particular request of the patients, for the benefit of the public.

RECOMMENDATIONS.

Copy of a letter from Dr. Wm. Chambers New-York, Elridge-st. Oct. 12, 1824.

Sir—Your Vegetable Cerate having prevented my hair from coming out, I recommended it to Dr. Divine, who was nearly bald; he had not used it more than four weeks when a vigorous vegetation of young hair made its appearance. From a motive of curiosity I have paid much attention to its action for fifteen months, and from accurate observations, I can safely say, I have known as many as fifty persons, whose hair has been reproduced, in this city. I am induced to believe, from the above observations, that it is the only thing ever yet discovered that reproduces the hair. With respect,
WM. CHAMBERS.

Copy of a letter from George Hubbard, Esq. of Berlin, Hartford county, Conn. to the proprietor of the Vegetable Cerate, or Hair Restorative.

Sir—For the satisfaction of those who have lost their hair, and become bald, I will state that I was completely bald for nearly five years; on hearing of the many cures effected by your Vegetable Cerate, I was induced to give it a trial. And now, after using three boxes, and in the short space of six weeks, I find my hair is reproduced with all its original vigour. I was also afflicted with an almost constant headache—since using the Cerate it has entirely left. Your ob't servant,
GEORGE HUBBARD.

Hundreds of Certificates might be added; but the acknowledged virtues of the Cerate renders that unnecessary.

A supply of the **HAIR RESTORATIVE** just received, and for sale by
T. WATSON,
 Nov. 19.
