All orders from abroad will meet with immediate despatch.  
Oct. 15, 1825.

**Hair Restorative,**  
AND  
**Preservative Vegetable Cerate.**

Simple in its Nature and Wonderful in its Operation  
**THE** important discovery of a Vegetable substance, capable of restoring and preserving the Hair, was accidentally made by an individual who has neither the capacity nor the disposition to practice deception or fraud. The fullest reliance may be placed on the efficacy and power of the Vegetable Cerate, not only in restoring and preventing the falling off of the hair, but in producing the greatest loveliness of it; and the public may rest assured that its effects will be clearly manifested in the course of a short time by the renewal and vigorous growth of the Hair, and by effectually preventing its coming out or falling off. The Vegetable Cerate tends to resuscitate and excite the energies of the capillary vessels, which constitute those organs that secrete the matter forming the hair; these like many other organs of the animal body, which have been in a state of dormancy or disease, may be restored to their healthy action, and perform all those functions assigned them by nature. Elderly people, with bald heads, may rest assured that by applying a few boxes of the above Cerate, their Hair will be restored with all its youthful beauty and life. To prevent imposition, the sale of the Vegetable Cerate will be confined to Dr. JAMES H. HART, for the city of New-York only, corner of Broadway and Chamber-street, three doors from Washington Hall, where it will be sold at \$1 75 per box.

**More Proofs**  
Of the superior efficacy of the Vegetable Cerate over every other remedy, is daily increasing, and it is beyond a doubt the only thing yet discovered in this or any other country which restores the hair on **BALD HEADS**, and entirely prevents its coming out or falling off. The following certificates are published at the particular request of the patients, for the benefit of the public.

**RECOMMENDATIONS.**  
Copy of a letter from Dr. Wm. Chambers New-York, Elridge-st. Oct. 12, 1824.  
SIR—Your Vegetable Cerate having prevented my hair from coming out, I recommended it to Dr. Divine, who was nearly bald; he had not used it more than four weeks when a vigorous vegetation of young hair made its appearance. From a motive of curiosity I have paid much attention to its action for fifteen months, and from accurate observations, I can safely say, I have known as many as fifty persons, whose hair has been reproduced, in this city. I am induced to believe, from the above observations, that it is the only thing ever yet discovered that reproduces the hair.  
With respect,  
**WM. CHAMBERS.**

Copy of a letter from George Hubbard, Esq. of Berlin, Hartford county, Conn. to the proprietor of the Vegetable Cerate, or Hair Restorative.  
SIR—For the satisfaction of those who have lost their hair, and become bald, I will state that I was completely bald for nearly five years; on hearing of the many cures effected by your Vegetable Cerate, I was induced to give it a trial. And now, after using three boxes, and in the short space of six weeks, I find my hair is reproduced with all its original vigour. I was also afflicted with an almost constant headache—since using the Cerate it has entirely left.  
Your ob't servant,  
**GEORGE HUBBARD.**  
Hundreds of Certificates might be added; but the acknowledged virtues of the Cerate renders that unnecessary.  
\* \* \* A supply of the **HAIR RESTORATIVE** just received, and for sale by  
**T. WATSON,**  
Nov. 18.

**The Ladies' & Gentleman's ANNUAL Pocket Remembrancer,**  
FOR THE YEAR 1826,  
Just received and for sale by  
**T. WATSON.**

**BUTLER'S Vegetable Indian Specific.**  
**FOR** the cure of Colds, Coughs, Consumptions, Spitting of Blood, Asthma, and all disorders of the Breast and Lungs.  
There is perhaps no medical observation better established, none more generally confirmed by the experience of the best physicians of all ages and countries, and none of more importance to the human family, than the fact that many of the most difficult and incurable consumptions originate in neglected colds. In a climate so variable as ours, where the changes of the weather are frequently sudden and unexpected, it requires more care and attention to guard against this dangerous enemy of life, than most people imagine, or are able and willing to bestow. The bills of mortality exhibit the melancholy fact that the proportion of deaths by this disease may be considered as about five to one. Inasmuch then as this fatal disease bids defiance to the skill of the most learned physicians, it is a gratification to the Proprietor that he is enabled to offer to those afflicted with it a goodly prospect of relief in that highly valuable remedy the **Vegetable Indian Specific.**—The Indians are happy in their knowledge of medical plants; governed wholly by experience, they are certain as to their effect, and it is said by an author of great character, that a true consumption is a disease never known among them. For the information of those afflicted with complaints of the breast and lungs, the Proprietor inserts (from among the numerous testimonials in his possession) the following certificate:

**Baltimore, 7th Dec. 1824.**  
**I. W. PRICE,** of the city of Baltimore, do hereby certify and declare, that I was for a long time afflicted with a severe cold, accompanied with an almost incessant cough, and pain in my breast and lungs; also *spitting of blood* and purulent matter from the lungs, with night sweats and fevers, and was much emaciated with loss of appetite, rest, &c. I applied to several eminent physicians, and passed through a course of medicine, but could obtain no relief and found myself fast verging on to a confirmed consumption. Having at length heard of the many astonishing cures effected by the **Vegetable Indian Specific** I was induced to make trial of it, and found almost immediate relief, and my rest restored. I continued its use, improving fast, my appetite better, and all the symptoms of the disease daily diminishing, and in a few weeks was completely cured, and have remained so for several months, and am now in better health and flesh than I have been for many years. I therefore with confidence, recommend the use of the **Vegetable Indian Specific** to all who suffer a similar complaint, and as a safe, pleasant and effectual remedy for consumptions, and all diseases of the breast and lungs.  
**W. PRICE.**

The celebrated Dr. Cullen has taught us that "our first attention should be employed in watching the approach of the disease and preventing its proceeding to an incurable state; and in persons of a consumptive habit, especially those born of consumptive parents, the slightest symptoms of an approaching consumption at the consumptive period of life ought carefully to be attended to."  
The Specific is obtained by extraction from herbs, roots, flowers, plants, &c. when in perfection. In consequence of a happy combination of the most valuable herbs, &c. it becomes a balsam of superior value. It heats the injured parts, opens the pores and composes the disturbed nerves, after the manner of an anodyne; consequently the obstruction of the chest and the lungs which constitute the disease, particularly need its use. It promotes expectoration, which is constantly called for; and whilst it cleanses and heals it also gives strength to the tender lungs. In this manner it removes the hectic fever, improves digestion, gives strength to the nerves, repairs the appetite and improves the spirits. This specific may always be given in safety—it is mild, pleasant to the taste, and is found particularly useful in hypochondriacal, nervous and hysterical diseases. Each bill of directions contains a detailed account of this disease in all its different stages, and will be accompanied with the signature of the Proprietor in **Red Ink.** It is offered for sale by  
**CAMERON & OSBORN,**  
Agents,  
Newbern, Dec. 10, 1825.—98.

**LANDS FOR SALE CHEAP !!**  
**THE** Subscriber wishes to dispose of the following **LANDS,** viz—About 85 or 1000 acres in Onslow County, situated on the west side of Whiteoak River, comprizing two tracts; on one of them are about one hundred thousand corn hills cleared, a set of turpentine boxes, an apple orchard, a comfortable dwelling and other necessary out houses. On the other tract are about seventy-five thousand corn hills, with a convenient dwelling and other buildings, called the Field's lands.—Also, between 800 and 1000 acres in the same county, on the west side of Whiteoak River, having 150 or 200 thousand corn hills cleared, with all the necessary buildings, called the Gibson's lands. All the above tracts may be greatly improved, having an excellent soil.—Also, 640 acres in the upper part of Jones County, and 229 acres lying on Deep Gulley, in the same county; besides several other tracts.—Also, a House and Lot in Trenton.—Persons wishing to purchase lands, would do well to call and examine for themselves.  
I will take in payment for any of the above tracts, approved notes, merchandise, or five annual payments, and feel assured that better bargains may be had of me than any other person, if the quality of land and manner of payment are taken into consideration. My only object in wishing to sell this property is, that I can make more active and profitable use of the capital otherwise.—Further particulars can be had by applying to the subscriber, or to **Asa Smith, Esq. WM. ORME.**  
**Trent Bridge, Nov. 16, 1825.**

**FLOUR.**
