In pursuance of the act of last session, directing sales of the several tracts of land purchased by the State at the sale of the land and negroes of the late John Haywood, Esq. sales have been made, as will appear from exhibit F, amounting to \$7,191.

Bonds have been taken, payable in one, two and three years, with interest from the day of sale, (except where the purchaser elected to make them payable in one and two years,) which are on file in this office. A report of the sales has been made to the Comptroller, and the respective purchasers are properly charged in the books of this office. The amount which the State gave for the several tracts of land is \$6,300.

The sales under this act of Assembly exceed the price given by the State, the sum of \$89,100.

The appropriation of \$6,000 to the Club-foot and Harlow's Creek Canal Company, was paid as directed by resolution of Assembly, in one and two instalments; on the payment of each, bonds with surties were given by the President of the company; and the conveyances, as directed by the act of Assembly, have been executed by the company and are on file in this office.

The receipts on the books assigned by the Executors of the late John Haywood, Esq. to be applied in part payment of the judgment, the State against him in Wake County Court, will appear from the exhibit C. But a small part of the bonds have been collected. On this judgment scire facias's were issued against the devisees under the will of the said John Haywood.

At February term of Wake County Court, 1829, judgment was rendered against the real estate, and the same condemned in the hands of the devisees. The devisees being minors, were by law, entitled to a stay of twelve months on the judgment, which will be out at the County Court of said county, to be held the third Monday of February next. From which term an order of sale will issue, commanding the Sheriff to sell the land for cash. Unless some person is appointed, with authority to bid on behalf of the State, or power is given to the Sheriff to sell on a credit, the land, although valuable will not sell for its value.

The suits that have been commenced against the sureties of the late Public Treasurer, are now at issue in Wake Superior Court, under the management of the Attorney General and Gavin Hogg, Esq.

The commissioners appointed by the act of the Assembly of last session, for selling the reversionary interest of the State in the lands formerly occupied by the Tuskarora Indians, have according to the provisions of the act, made a report of the sales to the Public Treasurer, with the bonds taken from the purchasers, amounting to \$2,977 87, payable in instalments of one or two years from the 7th of March, 1829, which are on file in this office. The greater part of the bonds are for sums under one hundred dollars. By the act, it is made the duty of the Public Treasurer to collect them as they become due. No authority is given for him to place them in the hands of an attorney or agent for collection. The duties of the Treasury office will not admit of his personal attention. It is respectfully submitted, whether directions should not be given for the bonds to be put in the hands of the Solicitor of that district for collection, in case payment is not made in a reasonable time after they become due.

The books containing the accounts of the sales of the Cherokee lands, have been copied as directed by the resolution of the last session of the Assembly. They have been examined and certified by the Secretary of State, and the originals deposited in his office.

The demand against Doctor Fabius J. Haywood has been liquidated as authorized by the resolution of the last session of the General Assembly. He has given bonds with surety in three instalments, each for the sum of \$261 73, making the sum of \$785 25, with interest from the 20th August, 1828, payable the 10th of January, 1830, 1 and 2; which sum has been passed to the credit of John Haywood, Esquire, late Public Treasurer. Also the demand against John Holloway, as surety for Susan Schaub and David Royster has been liquidated as directed by resolution of the last session of the General Assembly in his behalf, and four bonds have been given with surety, each for the sum of \$337 75, payable the first of January, 1830, 1, 2, and 3, with interest from the 20th August, 1829;

for which he is charged in the books of this and the Comptroller's Office. The amount of the Treasury Notes remaining in circulation, according to the Report of the Public Treasurer to the last session, and redeemable at the Treasury on the first of November, 1828, was \$155,530 20 1/2

The amount burnt by the Committee of Finance of last session, according to their report, was 17,761 89

Which deducted, with those on hand, shows the amount of Treasury Notes now in circulation of those directed by acts of Assembly to have been issued, to be \$116,634 61 1/2

The mutilated state of the notes, has and will continue to increase the demand for payment, which, with the contingent charges of government for the next fiscal year, may reduce the funds of the Treasury so low, as to require some aid before the receipt of the revenue of the ensuing year.

In this event, it would be well for some provision to be made, to authorize a loan to be obtained from some of the Banks of the State on the deposit of Treasury Notes or otherwise.

The regulations of the Treasury Department by the act of 1827, have been found on experiment to be wise and salutary. The accountability is well guarded by the monthly settlements, and checks on the disbursements introduced by the system in keeping the books of the office. The duties of the office, however, are considerably increased thereby, added to those required of the Public Treasurer in attending to the demand for payment of the Treasury notes, which of late has been great, on account of their mutilated state, and again issuing them, when asked for, is respectfully made known, under the hope that provision will be made for giving such assistance as will enable the Public Treasurer faithfully to discharge the duties of the office.

The receipts and disbursements on account of the Agricultural Fund, and disbursements of the Board of Internal Improvement, will appear by the exhibits G and H.

The account of the balances due to the State from the 1st of Nov. 1828, to the 1st of Nov. 1829, and statements of the different branches of the revenue and allowances to the Sheriffs for insolvents, as allowed by the Comptroller, and the Exposures or Statements of the affairs of the Banks of the State, as filed by them during the last year, are herewith submitted.

All which is respectfully submitted. WM. ROBARDS, Public Treasurer.

To whatever profession or calling they may belong, the readers of this Journal will find precepts susceptible of valuable application. Air, food, exercise, the reciprocal operation of mind and body, climate and localities, clothing and the physical education of children, are topics of permanent and pervading interest, with the discussion and elucidation of which the pages of the work will be mainly filled.
