LIFE.
 The leaf that falls in Autumn's hour,
 The rose that fades upon the stem,
 Are emblems of the silent power,
 Of time and change on us and them;
 Yet happier in the rose's fate,
 For Spring will other leaves restore,
 And Summer with new flowers create,
 As bright as those which bloom'd before.
 But when life's morning dreams depart,
 And grief succeeds to fancied bliss,
 Oh! what shall cheer the lonely heart,
 Or soften sorrows bitterness?
 Years will roll on—and time will bring
 Its various changes—but in vain—
 There is in life but one short Spring,
 And it can never return again!

 Will be Published,
 By **H. C. CAREY & I. LEA,**
 PHILADELPHIA,
 The First Number of the
American Quarterly Review.

IN thus announcing a new Quarterly Journal, the publishers state, that their desire is to gather and diffuse information in every part of the Union, and to provide an additional channel for the reciprocation of light and sentiment between all the American States, and between those States and Europe. Their design is national, as far as it can be so extended. For that object, impartiality, as well as breadth of survey and variety of subject, will be invariably studied. In Philadelphia, the aid of many gentlemen of superior ability, and scholastic and scientific acquirements, has already been secured; but as it is desired to bring into action talent and knowledge wherever situated, contributions are invited from writers throughout the Union, to whom personal application may not be made; and the publishers pledge themselves to pay liberally for such articles as shall be inserted in the work. The duties of Editorship will be confided to a gentleman of high literary reputation.

With regard to the subjects which are embraced in the design of the American Quarterly Review, its title and the common and known contents of the existing models bespeak them sufficiently. Preference must be given to works and materials, to principles and opinions, specially interesting and useful to our own country, whether they be of domestic or foreign origin. Mere party or local politics, polemical theology, involving injurious and irritating imputations, and whatever tends to disturb essential morals, fundamental Christian faith, or republican theory, will be rigorously excluded. As the work is not meant to be devoted to the views or favorite ends of any member or section of the Union, neither will it be to any exclusive or partial doctrines in any of the admitted subjects. The utmost latitude of opinion and discussion will be allowed, that is compatible with the limits, temper, and general merit to be required in each article. The resources and connexions of the proprietors are such, as to place within their reach copious information of the contemporary literature and public concerns of the principal countries of Europe and America, and they will sedulously avail themselves of all the means of the kind which they can command, for the enrichment of the Review. They scarcely need to add, that the work will be truly American in spirit and drift; patriotism, alert, emphatic, resolute, militant even under certain circumstances, is a trait which should distinguish it and every similar production of this country.

Terms of Publication.—It will be handsomely printed in octavo, and will appear on the first of March, June, September and December. The price will be Five Dollars per annum. Gentlemen at a distance, who desire to have it forwarded to them, will please to transmit the amount of one year's subscription to the Publishers.

One Hundred Dollars Reward.
RANAWAY from the Subscriber, sometime in September last, four Negro Men, viz:—**ISAAC, SCIPIO, JERRY, and KASEY**
 ISAAC is about thirty years of age, of middle stature, spare make, with some marks of the whip upon his back. He can read a little, has some knowledge of figures and the carpenter's trade, and has a downcast look when spoken to. He had on when he went off a blue cloth coat, olive colored pantaloons, and a Castor hat.
 SCIPIO is about 5 feet 10 or 11 inches high, spare make, and about the same age of Isaac.
 JERRY is a stout fellow, about 6 feet high, and 26 or 27 years of age, and has a silky look.
 KASEY is about 5 feet 8 or 10 inches high, very stout, between 45 and 50 years of age, and limps a little in walking, caused by having his thigh broken.
 I expect they are endeavoring to get northwardly to some non-slaveholding State, as Isaac for some time had a disposition that way, and no doubt has enticed the rest away with him. I expect they were all in company with another of my negro men, who went off at the same time, and who has since been lodged in Granville Jail. Masters of Vessels and others are hereby forewarned against harboring or carrying off said fellows. I will give the above reward for their delivery to me, or confinement in any jail, or for information so that I get them again—or Twenty-Five dollars for any one of them.

Clerks of the Superior Courts,
 AND other Gentlemen holding Subscriptions to the New Map of North-Carolina, are requested to return the same by the 1st of January next. They will be so good as to present them, in the mean time, to such persons as will be likely to patronize the work, who have not had an opportunity of doing so already. The price to non subscribers will be \$10. Very few, however, more than those subscribed for will be printed. To remove any objection that may be urged against subscribing, the publisher wishes it to be understood, that none of the subscribers will be held bound, if the Map is not correctly drawn, finished in the best manner, and of the best material.

From the returns already received, the Publisher is warranted in believing, that a subscription of not less than one thousand names will be obtained in North-Carolina, among whom are, His Excellency the Governor, all the Officers of the State Government residing at the metropolis, the Members of both Houses of the Legislature, a liberal proportion of the Professional Gentlemen, a large number of that most respectable class of citizens, the Farmers, and generally the Merchants and Traders of our Towns, to whom a correct Map of the State is particularly desirable.

The Publisher takes this opportunity to acknowledge his obligations for the polite attention which has been uniformly paid to his applications for assistance in the prosecution of his work, and especially to those gentlemen who have interested themselves in procuring the surveys of the several counties. Any information calculated to benefit the work will still be thankfully received.
