ADMINISTRATION MEETING.

In Camden County, N. C.

At a meeting of the Citizens of Camden
County friendly to the Administration, Joseph
Morgan, esq. was called to the chair, and M. S. Lewis, appointed Secretary.

When after a very appropriate speech
by Alfred M. Gatlin, esq. the following persons,
A. M. Gatlin, H. Bell, Willie McPherson,
George Ferebee, Isaac Tillet, Wm. G. Sawyer,
Luke G. Lamb and Cor. G. Lamb, were appointed
a Committee to draught resolutions expressive of
the sentiments of this meeting relative to the
subject thereof—who, after retiring for a short
time, returned and made the following

REPORT:

Whereas we consider the approaching
Presidential election as a matter of the first
importance to the future liberties of our
country, it is meet for the people, in due
season, to assemble together and inter-
change their sentiments, so as to concert
measures to defeat the unholy schemes of
those who would lead them into slavery
under the banners of a distinguished officer
of the late army. The warning voice
of history bids the people of every free
state to beware of military renown; be-
cause it shows them how often their liberties
have been trodden down by men who
raised themselves to distinction, by com-
bating against the foreign enemies of their
country. It teaches us how often those
who commenced with enthusiasm on the
side of the people, have terminated their
career by overturning the government and
erecting their own on its ruins. The Roman
legions were often called in to turn
the scale of popular elections in favour of
their own distinguished officers. But why
go back to antiquity when we have an in-
stance fresh in the recollection of many
here present! Who has forgotten Napoleon
Bonaparte, late Emperor of the French,
whose conquests of Italy and Egypt, un-
der the Republican banners, enabled him
at last to triumph over the people? The
principles involved in the contest, in which
French liberty was cloven down, are es-
sentially the same as those which regulate
the struggle in which we are engaged, at
this day, and equally require the aid of
every patriot around the standard of the
country. We are firmly persuaded, that
the late presidential election, and the various
incidents growing out of it, are only
seized upon, by the opponents of the pre-
sent administration of the general govern-
ment, as a convenient means of accom-
plishing, through the election of General
Jackson, the ultimate overthrow of our
happy form of government. And we can-
not but feel alarmed, when we see the dis-
appointed and discontented fragments of
the two great political parties which once divid-
ed our country, rallying around the stand-
ard of General Jackson; and behold him,
with great address and skill manoeuvring
his forces, so as to command their weight
and influence to accomplish his own ambi-
tious designs. In this trying crisis of the
republic, it is the duty of every freeman to
stand by the future destinies of the country,
unswayed by the denunciations or persecu-
tions which the military party of General
Jackson have made the order of the day.
Therefore

Resolved 1st. That we view with due sensibility
the heroic achievements of our brave army and
navy, during the late war with Great Britain,
and cherish a proper sense of gratitude towards those
officers who greatly distinguished themselves in
that contest, and gained imperishable renown for
their country. But deprecate the elevation of
any of them, solely on account of their war-like
achievements, to the first office in the gift of a
free people.

Resolved 2nd. That the elevation of military
over civil men is a dangerous experiment in a
Republic and ought to remain every friend of lib-
erty of the reward claimed and obtained, in a
sister Republic, by the celebrated conqueror of
Italy and Egypt.

Resolved 3rd. That the election of General
Andrew Jackson to the Chief Magistracy of these
States, would be pregnant with direful conse-
quences to the future liberties of our country,
and ought to be opposed by every man who is
not prepared to surrender his future destiny to
the same calamities which have ultimately over-
whelmed all other republics.

Resolved 4th. That the general tendency and
scope of the present administration of the Gen-
eral Government have been such as to promote
the prosperity and happiness of the country;
and that our present Chief Magistrate John
Quincy Adams, to the unabated confidence and
renewed support of these United States.

Resolved 5th. That it is unwise and impolitic to
change a long tried and faithful public servant,
merely for the sake of a change, before he shall
have completed the term of service prescribed
by the example of the father of his country.

Resolved therefore, That we will support by all
lawful and honorable means, the re-election of
John Q. Adams, to the office of President of the
United States.

Resolved, That in the opinion of this meeting,
it is expedient for those opposed, in this State,
to the election of General Jackson, to call con-
ventions and appoint delegates, to meet at

some convenient place, in each electoral Dis-
trict, on the second Monday in February next,
for the purpose of nominating some suitable
person as an elector for that District, so as to
form a general ticket for this State.
Resolved, That A. M. Gatlin, W. G. Sawyer,
and M. S. Lewis, be appointed delegates from
this county, to meet at Herford in Perquimans
county on the second Monday in February next,
to nominate in concert with the delegates which
may be sent from the other counties of this elec-
toral District, some suitable person as an elector.
Resolved, That M. S. Lewis, A. M. Gatlin,
W. G. Sawyer, Geo. Ferebee, W. McPherson,
Luke G. Lamb, Cor. G. Lamb and Isaac Tillet,
be appointed a committee of correspondence to
communicate with other committees as may be
formed in other parts of this State.
Resolved, That the proceedings of this meet-
ing be published in the Elizabeth City Star.
JOSEPH MORGAN, Chairman.
M. S. Lewis, Secretary.

FOR SALE

A valuable Plantation in Wake

THAT valuable Farm, lately known by the
name of West-Hill, lying on both sides of
Swift & Williams's Creeks, adjoining the Plan-
tation of Governor Branch, about nine miles from
Raleigh, on the Road to Haywood, settled origi-
nally by Joseph Lane, the Grandfather of the
late occupant of that name, at a time when farm-
ers had choice of the best lands in the country.
The whole Tract of land contains Two Thou-
sand Two Hundred and Twenty acres—near
1200 of which is prime land—a considerable
portion of it fine low grounds. The residue is
well-timbered long leaved Pine Land, and is sup-
posed to afford the best range for cattle and
hogs in the county. The farm under cultivation
is between 3 and 400 acres, on which there is
a tolerably good Dwelling-House, and other out-
buildings, on as handsome and healthful a site
as can be found in the county, or perhaps in the
State. There is a small Grist-Mill, which is con-
venient for family and neighbourhood purposes.
The farm is in good order, and that and the
and may viewed, on application to Mr. Thomas
Howell, on the premises; and the terms of
sale, which will be accommodating, will be
made known on application to J. Gales.

NEWMAN'S

CELEBRATED

PATENT GRIST MILL.

The Runner at the Bottom

A PATENT having been issued by the Presi-
dent of the United States, to Edward New-
man, for his valuable improvement on the Grist
Mill, the subscriber is fully authorized and em-
powered to make sale of Rights for using a single
Mill, or the Rights for using said Mills in any
County, or in any State in the Union, except
Louisiana.

Persons wishing to purchase Rights, can di-
rect their letters to Samuel Morehead, Postmas-
ter, Martinville, Guilford, N. C. and they will be
immediately attended to.

The superior advantages of this Mill, consist
in the grinding being done so near the centre,
where the power is applied—the small size of the
stones,—and the application of pressure to sup-
ply the absence of weight. The running stone
is placed on the spindle, and facing upwards to
be bed stone, which is permanently fixed. The
pressure is applied to the centre of the runner,
and the grain introduced into the mill through
the eye of the bed or top stone.

The simple construction of this Mill, its great
durability and cheapness, and its conveni-
ence and usefulness to all persons having large families
and stock, and the facility with which animal or
water power can be applied, have given it the
decided preference over all the inventions of
this kind, with persons who can judge such
things correctly. SAMUEL MOREHEAD,
Agent for Edward Newman, Patentee

PROSPECTUS

SOUTHERN AGRICULTURALIST.

THE want of a Work to which our Planters
could refer for information, relative to the
Agriculture of the Southern section of the Union
has long been felt, and has long been submitted
to as a necessary evil, for which no remedy was
at hand. With a sufficiency of talents and of
enterprise, to conduct experiments, to draw in-
ferences, and to detail them, yet have we pre-
sented to the world, the spectacle of a high
minded and enterprising agricultural community,
destitute of original agricultural works, and depend-
ing solely on oral communications, or Foreign pub-
lications, for all our knowledge on these subjects.
Whilst others have carefully collected and re-
corded the experience of their practical Farm-
ers, we have permitted the hard-earned knowl-
edge of our fathers to perish with them. Whilst
others have been straining every nerve in the
cause, we have been mere lookers on. Whilst
they have advanced rapidly, we have been sta-
tionary, or at best have progressed but slowly.
From what cause has arisen the vast superiority
of the North over the South in all which relates
to Agriculture? Has it been that they alone have
turned their attention to the subject, that they
alone have made experiments and profited by
them? Not so.—The Planters of the South have
been as enterprising and as active in their re-
searches, as those of the North. But whilst the dis-
coveries made by the latter are brought imm-
diately into notice, by their periodical publica-
tions, those of the former are known but to few,
for want of a proper vehicle of communication.
Hence it has been that their improvements have
been more rapid than ours, and that we are at
this day so deficient in this branch of knowledge.
Such being the case, does it not become our
Planters to come forward and assist in the pre-
sent undertaking, and contribute from time to
time such information as may be of service to the
community. This work will be divided into three
parts. Part 1st, Original—Part 2d, Selections
and Reviews—Part 3d, Agricultural Information.
Part 1st will contain all Original Essays on Agri-
culture, Horticulture, Botany, Rural Affairs,
and Domestic Economy. Not only the present
staple articles of the South will be attended to,
but also the introduction of new objects of Cul-
ture, such as the Grape Vine, Olive, Capers, Tea,
Sugar Cane, Silk Worm and others, which have
yet been untried, and of course not known how
far they may be climatised. Only that branch of
Horticulture will be for the present attended to,
which relates to the Kitchen Garden. When the
proper time shall arrive, we are prepared to give
directions for the cultivation of the higher bran-
ches.

Part 2d will contain Selections from Foreign
Works on the above subjects, so far as they may
be applicable to the soil and climate of the South-
ern section of the Union, or may in some way
be of use to our Planters. Reviews of such
Works, as may treat of the Agriculture of these
States, or such as may either directly or indirectly
have an influence on us, will be inserted in this
part of the work.

Part 3d will contain brief Agricultural Notic-
es, so that our Planters may not remain igno-
rant of what is going on, but may have an op-
portunity of knowing what is done in the differ-
ent parts of the world in aid of Agriculture. It
is hoped, that this knowledge, will be as a spur
to our enterprise, and cause us also to make fresh
exertions. Here also will be inserted a list of
Agricultural, Horticultural and Botanical Works,
& occasionally some notice will be taken of their
contents. Advertisements of Agricultural Works,
or Implements, or any other which may inter-
est the Planters generally, will be published on a
separate sheet, and attached to each number.

We hope all such as are favourably disposed to
the work will assist us in contributing to its
pages, and also in procuring subscribers for it.—
We request, all who are disposed to contribute,
to forward to us their communications as early as
possible. Those who have made experiments with
Grape Vines, Olives, Silk Worms, or any other
articles new to our States, or can give any infor-
mation relative to them, we particularly solicit
to communicate what they may know on the sub-
ject.

TERMS.

This work will be printed on good paper, and
in the octavo size at Five Dollars per annum,
payable on the delivery of the first number. Six
Dollars, if paid in two months after.

The first number will be issued on the 1st Jan-
uary next, and on the first of every month suc-
ceeding, in numbers of from 32 to 50 pages, ac-
companied with engravings when necessary.

Strayed or Stolen.

FROM the Subscriber, at Lexington, N. C.
on Friday evening the 10th inst., a Dark
Gray MARE, young with foal, 16 hands high,
has two small knots just above each eye, which
are plainly to be seen on examination, also a scar
on her left hind leg, just above the hoof, the
bone of her tail has been cut; she had when she
went away, a tolerably long switch tail, white at
the end; no other mark recollected. I am led
to believe that the whole was stolen by a yellow
yellow calling himself Michael Mitchell, & a girl
between Lexington and Raleigh. The Mare had
on a common saddle with a new seat and old
plated stirrup-irons, plated dragon bridle, the
brow-band roped. I will give a reward of \$30
dollars for the Mare and all realizable expenses
paid.
