JOSEPH GALES \& SON,

TIME.
II has been observed by Py thagoras, that abiity and nef efw who have not, urged by
and there,
the later, accomplished takss previously the latier, accomplished task prcome dif-
thought mpraticable, and overcome
ficulties that had seemed too great to be
 the prominent events of his life, with the
thoughts and emotions by which each was
that accompanied, will be surprised to think
how easy many things havebeen in executivn, which appeared formidate in pros-
pect; ; and how, in retrospect, the whole
, tho path seems smothed down to uniform
etenness. There are many obstructions
 general, it may be said of these, that they are greaty increased and ition of our na-
the weakness and irresoltate
ture; that necessity seldom imposes a task where there is not ability to accow-
 dom and preatence, hough ne cannot com-
mand uscess, will not be likely to be detrated.
feat
the s
hiterature, like trammencing his careen of has ancive
at the foot of the Alps, map very naturul y dread of the Alps, may very naturaloubt his ability of arriving at the summit. But he should derive energy from the
knowledgo that the summithas been at-
tined ty myriads of others, with no as knowledge that the summir has been at-
tined by myriads of thers, with no as-
sistance but such as he can command; sistance but such as se can command;
that it is not to ereached by one mights effort o pad that every step of progression
doimp
dimioishes the difficulty of his succeeding. A feir gigantic intellects have existed, which seemed to grasp knowerge by insiins without paying any heed to interme-
diate propositions; but with these rare exceptioss, the mind, like the body, must be
radually expanded, frum the imbecility gradualy expanded, from the imbecility
or coildhood to the energy of the perfect $\stackrel{\operatorname{man}}{\mathrm{It}}$ is m
what mighty works have been accomp lish ed by preseverance and industry; and to
dote what important results frow from a
proper disoosition of time. Erasmus, an
 pas spent in poverty and in wander-
yn, by usefuly emplying every mament
that could be devoted to literatare-by Silling op, as some one has happily express-
ed it the interstitial vacancies which oc-
cur in the most cur in the most crowder variety of occupa-
tion has switen more, than one whose
time is time is similarly diversisied with engage-
ments would think H pracacicable te read.
At the present day, we have anuther At the present day, we have another con-
spicuous instance of analagous intellectual industry, io a writer who has siven to the
world delightal works of fiction with such
proititic asundance that the reader has
scricely had tine to complete the perusal
of one, before another has teen presented to hiss attention.
Could the mi.
y man spends, either in total idteness or
in frivelous
nursuits, be aggiourera ted int see what a large portion of his existence pad been throw anvay, and during how
hatitic of his life he had actually lived. - Take care of twe pence, a, ad thie ehilinings
