GALES & SEATION.

THE National Intelligencer is an old established Journal, at the Seat of the General Gov-ernment. It publishes, originally, regularly, and fully, the Proceedings and Debates of Con-gress; also, all the State Papers and Documents of public interest, laid before Congress, or origating in that body, and all the Acts passed by them. These recommendations, in addition to a variety of other information which is to be found in its columns, connected with the General interests of our own country, with Literature and Science, and the Affairs of the world at large; together with the character of general fairness which the paper has sustained under its present editors for many years, make the National Intelligencer useful and even valuable, to all who eel an interest in the concerns of this or of

inal Intelligencer is not a party pansures or approves where censure or probation seems to be due to public measures. It supported the late Administration of the Gentration were such as to meet its appro-It avows a determination, though it ophe election of General Jackson, to sup-just measures of this Administration, but as certainly to oppose the unjust or the pro-scriptive. It will be, in principle, opposed to any Administration of the Government, whose measures shall show it to have the interests of a party at heart, rather than the great interests of the country. It is, in a word, what its title de-notes, a National paper.

For the independent and impartial course which it has pursued, the National Intelligencer has been denounced, and an attempt has been made to put it down, right or wrong, by the rong arm of power directed by caucus agency The attempt is as vain as it would be for any modern prophet to bid the sun to stand still.— Thirty years old, this National paper is not yet in its prime, but acquires strength and power with every day of its existence.

Without having ever sought for popularity, of courted public patronage, the National Intelli-gencer enjoys already the widest circulation of any newspaper in the United States. It is read in every State and Territory in the Union, and and in every city and town, as well as in the country. It is read in every capital in Europe, and possesses sources of information exceeded by no other Journal.

For the first time, an effort is made to enlarge the subscription to it, by sending forth this Prospectus, which our adversaries in politics are expected to deal so generously with as to let it be seen, and our friends so kindly as to further our purpose with their aid and countenance. Heretofore, we have hardly wished to enlarge our subscription list. Intending hereafter, however, to devote ourselves wholly to the newspaper, and to a proper improvement of " the condition of the Press," we invite such further subscriptions, as, being punctually paid, will remunerate our labor and expenses.

The National Intelligencer is published daily, at ten dollars per annum, payable in advance. is published, also, for the more convenient irculation where a daily mail does not penetrate, three times a week at six dollars per annum, payable in advance. A remittance of either of these amounts in bank paper, by mail, will ensure the prompt and regular transmission of ex-

ery paper that may be ordered.

Those subscribing will please to signify whether they desire the paper for a year only, and then to be stopped without further notice, or wish it be continued until countermanded Washington, March 5, 1829.

TO THE AFFLICTED.

HADLOCK'S Vegetable Sirup and Powder

FOR DISEASES OF THE LUNGS. THE Proprietor of this Medicine, after repeat ed trials of its virtues, which have been at tended with the most signal success, now offers it to those who are afflicted with the wasting diseases which it is designed to relleve, in ful confidence that it will be found efficacious, particularly if taken in the incipient stages of these

diseases.

For two years past, this Medicine has been prepared in the form of a Fowder, & taken as an infusion, with the most happy success. It is now offered to the afflicted in the form of a Sirup or in Powder, as the Patient may prefer, under the conviction, that either form will produce the same happy result. Among its most prominent qualities the following may be mentioned, as en-titled to particular consideration. It promotes that gentle perspiration which is deemed healthy and checks those sweats which are morbid and pernicious. It relieves chronic affections and congestions of the lungs by giving force to the languid circulation. It assuages coughs. It promotes free and bland expectoration. It removes pain from the chest. It relieves asthmatic and difficult respiration. It corrects obstinate costiveness, and thus leaves the bowels in a regular and healthy state. Thus, it is found, that these painful symptoms which indicate diseased lungs readily yield to this powerful remedy, when seasonably resorted to, and that it restores the paby the Court that publication be made three tient to that bodily vigour, which that cruel months in the Raleigh Register, giving notice disorder the consumption, if left to its natural operation, would very speedily destroy.
