CONGRESSIONAL ELECTIONS.

In the Surry District, LEWIS WILLIAMS s re-elected over his opponent SAMUEL king, having obtained a majority in every County in the District, viz : in Ashe, Avotes; in Iredell, 214 votes; in Wilkes, 94 votes; in Surry, 38 votes. Total majority, 400.

In the Salisbury District, John Giles has succeeded over John Long, by a majority of 945 votes. The vote in the whole District stood as follows:

	Giles.	Long.
Rowan,	1260	165
Davidson,	953	329
Randolph,	334	1036
Chatham,	679	751

late Administration are said to have been elected.

The Richmond Enquirer states that the President of the United States proposes to spend a few days at Old Point Comfort, for the benefit of his health, which is represented as not being very good. The Enquirer appears delighted that the President will thus escape for a while, from his Executive troubles. Leaving the fatigues of official stations, is amusingly described by and E. Hough, Moore 821, Hough 792 Fleming the Marquis of Halifax, alluding to Charles the second. "The thing called sauntering is a stronger temptation to Rulers, than it is to others. The being galled with importunities, pursued from one room to another with asking faces-the dismal sound of unreasonable complainants and illgrounded pretences-the deformity of fraud ill-disguised-all these would make a man runaway from them." How can cynical Editors find fault then with the " travelling Cabinet," when they have such reasonable cause for migrating?

Primitive Methodists .-- There have lately arrived in this country, from England, four delegates from the Primitive Methodist Connexion (vulgarly called Runters) authorised by conference. Of these, two are at present in New-York, and two are in Philadelphia.

Large Peaches .-- We saw last week, some very fine peaches, which grew in this vicinity, several, of which measured in circumference between eleven and twelve inches.

One week later !- By the ship Antioch, Rich, at New-York, from Havre, which port she left on the 8th July, the Commercial Advertiser has received European intelligence one week later than previous Hertford.-B. I. Montgomery, S. J. H. Whee- advices. From these accounts it will be seen that "the triumphs of the Muscovite our last advices he had not been takensoldiers in the neighborhood of Choumla, were greater than had previously been conjectured, and more decisive than could have been imagined." Indeed it would appear that with the exception of the garrisons within the fortress of Silistria and Choumla the Turkish Grand army north of the Balkan range, has been completely broken up.

Cheerokee Lands .- We learn from Gen. R. M. Saunders, who returned a few days since from the Cherokee Nation, that himself and the Rev. Mr. Posey, the other Commissioner, succeeded in contracting with the claimants for reservations of land, in fifty-four cases, of 640 acres each; that there are three or four remaining cases, in which they expect to meet with no difficulty in obtaining: that the appropriation by Congress, \$20,000, will more than cover the purchase and attending expenses: that it will be necessary for the Commissioners again to visit the Nation, to pay the money, take conveyances, &c. when they expect to make a final adjustment of the whole business; and that a part of these lands have already been sold by the State; but a large proportion are yet to sell, some of which are valu-

able. The country is represented to us as healthy, and well suited to persons of small force, as stock of all kinds is raised to great advantage. The inhabitants of the new county of Macon evince much public spirit, in the opening of roads, the erection of Public Buildings, &c. Contracts have been made for the erection of a Court House and Jail, both of brick, at the price of about \$7,000. There seems to be no doubt, that after another sale of the State Lands, the county will become fully settled.

A clock shivered into a housand pieces, a rifle broken up and destroyed, and yet not one person, out of member of the University whose name nearly twenty in the house, at all injured. The lightning penetrated the house in two different places, about two or three feet from the heads of two persons. Such an instance of providential preservation very seldom or never came under our notice .- Fayette. Obser.

Gold in Rowan .- New deposites, and new veins of this valuable metal, are al most daily discovered in Rowan County Productive mines have been recently discovered on the land of Noah Partee, Esq. William Harris, Esq. and in a number of other places. In fine, all that ridge of country south-east of Salisbury, extending from South-Carolina to the centre of this State, is found to be rich in veins of gold :- even the soil is auriferous. Nothing but capital, skill and enterprize, are wanting, to render the Gold Mines of North-Carolina a source of wealth and prosperity to the State. And we are gratified to find, that our own citizens are beginning to be actuated by a proper spirit, on the subject; they are taking the business into their own hands; and show a determination that strangers shall not reap all the profits. - West. Carol.

Murder .- We understand that a most atrocious murder was committed, Lexington, on Saturday night last, by Kinchen A. Wilborne, on the body of Lieut. James Biddle, late of the U. States Navy. It is unknown what led to the pepetration of this deed, but we understand that both parties were drunk!of Lexington, to arrest Wilborne, but at Jackson Gazette.

Office Seeking .-- We verily believe that this republic of ours is after all, the most ffice seeking quarter of the Globe, and we ought to take due shame to ourselves for it; for the vice is really without any adequate temptation. In no country is public labour so slightly compensated : from the highest office of the Government down to the lowest, the salaries are barely sufficient to live upon. And yet no sooner does a vacancy occur, or any prospect of an opportunity to make one, than applicants come upon the appointing power in shoals. The new Collector of the Port of Newbout twenty changes among the subordihate officers of the Custom House, and for hese appointments there were fifteen hundred applicants .- Camden Jour.

Advantage of Promptness .- A merchant whose policy expired at 12 o'clock, called at the Insurance Offi e at half past 11, and obtained a renewal of it. At 2 o'clock, the same day, his stores and goods were reduced to ashes! This circumstance occurred at the late fire in Augusta, Geo. -What would have become of that man's fortuge if he had thought it " would do as well after dinner ?"

Washington College Commencement. -The 3d annual Commencement of this College took place on Thursday last at the Centre Church, and was witnessed by a much greater concourse of citizens and strangers than we often see together. Among the strangers present, we were gratified to find, that a large number came from distant States and that many were gentlemen of distinction. The gathering of such men to our literary jubilee, betokens well for the growth and reputation of the College: it shows, that they are becoming interested in its welfare, and that they deem it sufficiently meritorious to extend to it a good share of patronage, young as it is, and destitute as it therefore must necessarily be of some few advantages possessed by older institutions.

The degree of Bachelor of Arts was conferred on the following gentlemen, alumni of the College. Marcus L. Filley, Park Benjamin, Joshua G. Wright, Samuel S. Gen. Rats.—The Nashville Banner complains of the immense number of rats which infest that city, No place, it observes, is more beset with rats than the good town of Nashville. The crevices of the rocks on which it is founded, serve as convenient shelpers for the noxious vermin, which, with all the exertions that have been made use of with cats, dog- and poison, not only are not exterminated, but grew more and more numerous.

When will every Farmer take a Paper?-The other day we were informed by a respectable farmer residing in the town of Phelps, Ont- county, that he had taken 120 dolls, on the Middle District Bank, and that too, 4 days after the failure was known in that country!
