THE MEDICAL COMPANION, OR

FAMILY PHYSICIAN; TREATING OF THE

DISEASES OF THE UNITED STATES,

With their symptoms, causes, cure, and means of prevention : common cases in Surgery ; the management and diseases of Women and Children; a Dispensatory, for preparing Family Medicines, and a Glossary explaining Technicarterms-Also, the Nurse's Guide.

The Seventh Edition. Revised, enlarged, and very considerably improved.

BY JAMES EWELL, M. D.

On the important subject of domestic medi cine, many books have been written, which, though excellent in other respects, have greatly failed of usefullness to Americans; Decause the treat of diseases which, existing in very foreign climates and constitutions, must widely differ from mirs. The book now offered to the public has, therefore, the great advantage of having been written by a native \merican, of long and successful procince in the southern states, and who, for years past, has turned much of his attention

to the composition of it. To every family, more especially those in remote situations, the possestion of this book must unquestionably, be of incalculable value : for, conducted by such a guide, it will not be pre sumptuous to say that any person of tolerable canacity, and reasonable attention, may be enabled to pracetise with safety and advantage, in those cases of simple diseases most incident to

our climate. This work is for sale, by

American Turf Register

SPORTING MAGAZINE.

MITE want of a repository in this country, like The English Sporting Magazine, to serve as an authentic record of the performances and pedigrees of the bred horse, will be admitted by all, whether breeders, owners, or amateurs of that admirable animal. The longer we remain without such a register, the more difficult will it be to trace the pedigrees of existing stock, and the more precarious will its value become. is it not, in act, within the knowledge of many readers, that animals known to have descended from ancestry of the highest and purest blood, have been confounded with the vulgar mass of their species, by the loss of an old newspaper or memorandum book, that contained their pewhich in this way threatens property of so much to collect and save many precious materials that would soon be otherwise lost, the subscriber hopes to supply the long looked for desideratum, REGISTER." But though an account of the perchief aim of the work, it is designed, also, as a Magazine of information (like the English Sporting Magazine) on veterinary subjects generally; and of various rural sports, as Racing, Shooting, Hunting, Fishing, Trutting Matches, &c. together with original sketches of the natural history and habits of American game of all kinds; and hence the title "The American Turf Register and Sporting Magazine." It will of course be original American cast, conveying at once, to readers of all ages, amusement and instruction, in regard to our own country, its animals, birds, fishes, &c. in the absence of domestic materials, the magazines received from abroad will supply an ample stock of appropriate matter. Finally, as to the style and execution of the

work, the first number, just published & ready for delivery, may be received as a fair specimen, entitled to some allowance for the imperfections

Vegetable Sirup and Powder, FOR DISEASES OF THE LUNGS.

THE Proprietor of this Medicine, after repeat ed trials of its virtues, which have been at inseparable from the first essay in a new and it to those who are afflicted with the wasting somewhat complicated and difficult enterprize. | diseases which it is designed to relieve, in full confidence that it will be found efficacious, ticularly if taken in the incipient stages of these

For two years past, this Medicine has been prepared in the form of a Powder, & taken as an infusion, with the most happy success. It is now offered to the afflicted in the form of a Sirup or in Powder, as the Patient may prefer, under the conviction, that either form will produce the same happy result. Among its most prominent qualities the following may be mentioned, as entitled to particular consideration. It promotes that gentle perspiration which is deemed healthy and checks those sweats which are morbid and pernicious. It relieves chronic affections and congestions of the lungs by giving force to the langual circulation. It assurges coughs. It promotes free and bland expectoration. It removes pain from the chest. It relieves asthmatic and difficult respiration. It corrects obstinute costiveness, and thus leaves the bowels in a regular and healthy state. Thus, it is found, that these L lection of claims against the United States painful symptoms which indicate diseased lungs, be individuals. His knowledge of the manner of conducting business at the public offices, and acquaintance with the coveres generally, afford disorder the consumption, if left to its natural

operation, would very speedily destroy.

Certificates respecting the virtue of this Medicine will accompany each bottle. Price of the Syrup, \$2 50 per bottle, or \$24 a dozen. Of the Powder \$1 per bottle, or \$9 a dozen. JAMES HADLOCK.

Persons applying for Letters will please say they have been advertised.

Roanoke Literary and Scientific Institution. THE location of this institution has been chang-

ed from Littleton to Oxford, N. C. In announcing this change to the public, some remarks in relation to the causes which induced it, may be necessary. The object is to establish in the State of North-Carolina the institution upon a permanent basis. At Littleton, although it possesses the advantages of health and retirement in an eminent degree, it was found, that the convenience and opportunities for carrying it on, would be incommensurate with the object in view, particularly since the death of the late proprietor of that place. In selecting a new location, regard has been paid to public opinion; and so far as it could be ascertained, the feeling of the public has centered upon Oxford as the most suitable location in the State.

Oxford has long been known as a place of flourishing and well conducted schools For its health, its moral and refined society, it stands pre-eminent. The site selected for the institution is pleasant and retired; the buildings and grounds are spacious; and such measures will be adopted in the government of the institution as will prevent the students from any unseasonable communication with the villag . The plan heretofore laid before the public will -till be pursued.

Any further information in relation to the institution, may be had on application to the subscriber. D. H. BINGHAM, Supt.
