BY JAMES EWELL, M. D.

On the important subject of domestic medicine, many books have been written, which, though excellent in other respects, have greatly failed of usefullness to Americans ; because they treat of diseases which, existing in very foreign climates and constitutions, must widely differ from ours. The book now offered to the public has, therefore, the great advantage of having been written by a native American, of long and successful practice in the southern states, and who, for years past, has turned much of his attention to the composition of it.

To every family, more especially those in remote situations, the possestion of this book must unquestionably, be of incalculable value : for, capacity, and reasonable attention, may be enabled to pracetise with safety and advantage, in those cases of simple diseases most incident our climate.

value, and persuaded that it is not yet too hat to collect and save many precious materials that would soon he otherwise lost, the subscriber hopes to supply the long looked for desideralum, by the establishment of " THE AMERICAN TURE person or persons who will apprehend and con-REGISTER." But though an account of the performances on the American Turf, and the pedigrees of thorough-bred horses, constitutes the chief aim of the work, it is designed, also, as a Magazine of information (like the English Sporting Magazine) on veterinary subjects generally; and of various rural sports, as Racing, Shooting, Hunting, Fishing, Trotting Matches, &c. together with original sketches of the natural history and habits of American game of all kinds ; and

hence the title " The American Turf Register and Sporting Magazine." It will of course be the aim of the Editor to give to his journal an original American cast, conveying at once, to readers of all ages, amusement and instruction, in regard to our own country, its animals, birds, fishes, &c. in the absence of domestic materials, the magazines received from abroad will supply an ample stock of appropriate matter.

Finally, as to the style and execution of the work, the first number, just published & ready for delivery, may be received as a fair specimen, entitled to some allowance for the imperfections inseparable from the first essay in a new and somewhat complicated and difficult enterprize. J. S. SKINNER.
