FAMILY PHYSICIAN;

THEATING OF THE DISEASES OF THE UNITED STATES, lith their symptoms, causes, cure, and mean f prevention : common cases in Surgery ; the nanagement and diseases of Women and Chit dren: a Dispensatory, for preparing Family Medicines, and a Glossary explaining Techni-cal terms—Also, the Nurse's Guide.

The Seventh Edition, Revised, enlarged, and very considerably improved. BY JAMES EWELL, M. D.

On the important subject of domestic medicine, many books have been written, which, though excellent in other respects, have greatly failed of usefullness to Americans; because they treat of diseases which, existing in very foreign climates and constitutions, must widely differ from ours. The book now offered to the public has, therefore, the great advantage of having been written by a native American, of long and successful practice in the southern states, and who, for years past, has turned much of his attention to the composition of it.

To every family, more especially those in remote situations, the possestion of this book must unquestionably, be of incalculable value : for, conducted by such a guide, it will not be presumptuous to say that any person of tolerable capacity, and reasonable attention, may be enabled to pracetise with safety and advantage, in those cases of simple diseases most incident to our climate.

SPORTING MAGAZINE THE want of a repository in this country, like

the English Sporting Magazine, to serve as an authentic record of the performances and pedigrees of the bred horse, will be admitted by all, whether breeders, owners, or amateurs of that admirable animal. The longer we remain without such a register, the more difficult will it be to trace the pedigrees of existing stock, and the more precarious will its value become. Is it not, in fact, within the knowledge of many readers, that animals known to have descended Hale's do U. States The History of Modern Europe, with an acdigrees? But though an account of the performances on the American Turf, and the pedigrees of thorough-bred horses, constitutes the chief aim of the work, it is designed, also, as a do | Magazine of information (like the English Sportdo ing Magazine) on veterinary subjects generally; and of various rural sports, as Racing, Shooting, do Hunting, Fishing, Trotting Matches, &c. together with original sketches of the natural history and habits of American game of all kinds; and hence the title " The American Turf Register and Sporting Magazine."
