FAMILY PHYSICIAN;

TREATING OF THE DISEASES OF THE UNITED STATES, Vith their symptoms, causes, cure, and mean of prevention : common cases in Surgery ; t anagement and diseases of Women and Chi dren; a Dispensatory, for preparing Family Medicines, and a Glossary explaining Technical terms Also, the Nurse's Guide.

The Seventh Edition. Revised, enlarged, and very considerably improved BY JAMES EWELL, M. D.

On the important subject of domestic medicine, many books have been written, which, though excellent in other respects, have greatly failed of usefullness to Americans; because they treat of diseases which, existing in very foreign climates and constitutions, must widely differ from ours. The book now offered to the public has, written by a native American, of long and successful practice in the southern states, and who, for years past, has turned much of his attention to the composition of it.

To every family, more especially those in remote situations; the possestion of this book must inquestionably, be of incalculable value : for, conducted by such a guide, it will not be presumptuous to say that any person of tolerable capacity, and reasonable attention, may be enabled to pracetise with safety and advantage, in those cases of simple diseases most incident to our climate.

American Turf Register SPORTING MAGAZINE

THE want of a repository in this country, like the English Sporting Magazine, to serve as an authentic record of the performances and pedigrees of the bred horse, will be admitted by all, whether breeders, owners, or amateurs of that admirable animal. The longer we remain without such a register, the more difficult will

it be to trace the pedigrees of existing stock, and the more precurious will its value become. Is it not, in fact, within the knowledge of many readers, that animals known to have descended from ancestry of the highest and purest blood. have been confounded with the vulgar mass of their species, by the loss of an old newspaper or memorandum book, that contained their pedigrees? Sensible for years past of the danger which in this way threatens property of so much value, and persuaded that it is not yet too late to collect and save many precious materials that would soon be otherwise lost, the subscriber hopes to supply the long looked for desideratum, by the establishment of "THE AMERICAN TURE REGISTER." But though an account of the performances on the American Turf, and the pedigrees of thorough-bred horses, constitutes the chief aim of the work, it is designed, also, as a Magazine of information (like the English Sporting Magazine) on veterinary subjects generally ; and of various rural sports, as Racing, Shooting, Hunting, Fishing, Trotting Matches, &c. together with original sketches of the natural history and habits of American game of all kinds; and hence the title " The American Turf Register and Sporting Magazine." It will of course be the aim of the Editor to give to his journal an original American cast, conveying at once, to readers of all ages, amusement and instruction, in regard to our own country, its animals, birds,

an ample stock of appropriate matter. Finally, as to the style and execution of the work, the first number, just published & ready for delivery, may be received as a fair specimen, entitled to some allowance for the imperfections inseparable from the first essay in a new and somewhat complicated and difficult enterprize, J. HADLOCK'S Vegetable Sirup and Powder, FOR DISEASES OF THE LUNGS.

THE Proprietor of this Medicine, after repeated trials of its virtues. which have been attended with the most signal success, now offers it to those who are afflicted with the wasting diseases which it is designed to rel'eve, in full confidence that it will be found efficacious, particularly if taken in the incipient stages of these

For two years past, this Medicine has been prepared in the form of a Powder, & taken as an infusion, with the most happy success. It is now offered to the afflicted in the form of a Sirup or in Powder, as the Patient may prefer, under the conviction, that either form will produce the same happy result. Among its most prominent qualities the following may be mentioned, as entitled to particular consideration. It promotes that gentle perspiration which is deemed healthy and checks those sweats which are morbid and pernicious. It relieves chronic affections and congestions of the lungs by giving force to the languid circulation. It assuages coughs. It promotes free and bland expectoration. It removes pain from the chest. It relieves asthmatic and difficult respiration. It corrects obstinate costiveness, and thus leaves the bowels in a regular and healthy state. Thus, it is found, that these gratis-and so in proportion for a larger number. painful symptoms which indicate diseased lungs, readily yield to this powerful remedy, when seasonably resorted to, and that it restores the patient to that bodily vigour, which that cruel disorder the consumption, if left to its natural operation, would very speedily destroy.

Certificates respecting the virtue of this Medicine will accompany each bottle, Price of the Syrup, \$2 50 per bottle, or \$24 a dozen. Of the Powder \$1 per bottle, or \$9 a dozen.
