MEDICAL COMPANION,

PAMILY PHYSICIAN

PASES OF THE UNITED STATES, terms Also, the Nurse's Guide.

The Seventh Edition.

BY JAMES EWELL, M. D.

On the important subject of domestic medi-cine, many books have been written, which, though excellent in other respects, have greatly failed of usefuliness to Americans; because they treat of diseases which, existing in very foreign climates and constitutions, must widely differ from ours. The book now offered to the public has, therefore, the great advantage of having been written by a native American, of long and successful practice in the southern states, and who, for years past, has turned much of his attention to the composition of it.

To every family, more especially those in re-mote situations, the possestion of this book must unquestionably, be of incalculable value: for, conducted by such a guide, it will not be presumptuous to say that any person of tolerable capacity, and reasonable attention, may be enabled to pracetise with safety and advantage, in those cases of simple diseases most incident to our climate.

TO THE AFFLICTED.

HADLOCK'S Vegetable Sirup and Powder FOR DISEASES OF THE LUNGS.

THE Proprietor of this Medicine, after repeat-ed trials of its virtues, which have been attended with the most signal success, now offers it to those who are afflicted with the wasting diseases which it is designed to relleve, in full confidence that it will be found efficacious, particularly if taken in the incipient stages of these

diseases. nest this Medicine has been prepared in the form of a Powder, & taken as an infusion, with the most happy success. It is now offered to the afflicted in the form of a Sirup or in Powder, as the Patient may prefer, under the conviction, that either form will produce the same happy result. Among its most prominent qualities the following may be mentioned, as entitled to particular consideration. It promotes that gentle perspiration which is deemed healthy and checks those sweats which are morbid and pernicious. It relieves chronic affections and congestions of the lungs by giving force to the languid circulation. It assuages coughs. It promotes free and bland expectoration. It removes pain from the chest. It relieves asthmatic and difficult respiration. It corrects obstinate costiveness, and thus leaves the bowels in a regular and healthy state. Thus, it is found, that these painful symptoms which indicate diseased lungs, readily yield to this powerful remedy, when seasonably resorted to, and that it restores the patient to that bodily vigour, which that cruel disorder the consumption, if left to its natural operation, would very speedily destroy.

Certificates respecting the virtue of this Medicine will accompany each bottle. Price of the Syrup, \$2 50 per bottle, or \$24 a dozen. Of the Powder \$1 per bottle, or \$9 a dozen. JAMES HADLOCK.
