THE SENTENCE.

of the United States District Court, delivered by Judge Baldwin, upon Wilson and Porter, Mail Robbers.

GEO. WILSON AND JAS. PORTER: You appear for the last time before human tribunal, whose solemn duty it is to consunce a sentence, which forever closes our secounts with the violated laws of our country, and in a few short days, will cause you to disappear, from among our fellow men Hitherto you have apneared in this Court as men accused of crime, of deep and black atrocity indeed, but under the projection of our mild and benign laws, which presumed you innocent, until a jury of your fellow-citizens have, on their highest obligations, propounced you guilty of the high offence charged against you; and the Court adjudged that your guilt has been manfest, according to the strictest rules and well-established laws of judicial proceedings. But the time has passed, when the esumption or even possibility of your inincence, or the most remote doubt of your entire guilt, can exist. The evidence which has been brought to bear upon you, was full, undoubted, uncontradicted and decisive; nay, it was so powerful and overwhelming, that you could offer naught to explain, extenuate, miligate, or in any may to soften its force ; it burst over you

efforts of your Counsel to save you from your impending fate. Had you been innocent-had you been about to become the victims of persecution, perjury or error, a ray of hope was still left, which seldom fails to save the unfortunate. Good character, resulting from good conduct, furnishes an almost certain resource, in an appeal to jurors. In a community tike this, whose prevalent feeling is philanthropy, it is never to be feared, that the life of a prisoner

with a strength, which paralysed the noble

is in danger, whenever there exists a fair spology to save it.

But, neither the history of your past life, nor the estimation of your fellow men, enabled your counsel to present to the Jury, one miligating, one redeeming feature, in either of your cases. In the hours of your drepest distress, no human being could be found, who would peril his soul by his tesmony in your favor, and no Jory would have acquitted you, without affixing to their own characters a stain, approaching to the hue which they would have effaced from yours. No alternative was left them, but to obey or violate the laws of the counry, to perform their duty in enforcing them, or leave you free to renew your depredation with impunity. The Court have vell-grounded reasons for believing, that your past history affords little else than a

We had only to decide whether our trial should terminate in th vindication of the offended laws of the na tion, or the triumph of acknowledged guilt referring the close of your sad career, for the commission of some act of still blacker and more complicated atrocity, at the thought of which, humanity shudders.

Your counsel have declared that the have no further reason to offer why the sentence of the law should not be pronounce ed upon you, and none exists in the mind of the court. The safety of our citizens require-public justice demands, our judg ment, awful and dreadful as it is ; our du ty and our oaths compel us to render it .-The humanity of the law has reached its end; its doors of mercy are forever closed to you in this court ; your days are numbered, and you must soon die the death o felons, unless there is found elsewhere an arm stretched forth to save you from a fate which we cannot avert—a hope which we most solemnly caution you not to indulge.

Much as we admire the mildness of our criminal code; opposed as we are to cap- ularity and care .- Little Falls People's ital punishments, where the peace of sociery and the security of the lives, of our citizens do not imperiously exact them, ve should have much cause to question Fox's East India Bill-" I have known the justice or wisdow of the national legis- merchants with the sentiments and abililature, if, in their opinion, such a scene ties of statesmen; and I have seen peras has been disclosed on your trial, did sons in the rank of statesmen, with the not call for the highest punishment. Even murder may have its with a capacity for sound and manly popalliatives, when committed under the ex-licy." citement of passions, which the laws may condemn, but for which, those who administer them may be excused the indulgence of some feeling of commiseration; but for those who in cool blood resolve on a desperate offence, under the instigation of no passion but for plunder, reckless of the innocent lives that its gratification may cost, false humanity alone has a tear. It is a wise and just law that dooms such offenders to atonement by their lives-they justly forfeit life by such offences, and so the laws have ordained. Our only remaining daty is obedience to its commands.

Our sentence, therefore, is, that you be taken hence to the prison, whence you were brought, and there safely confined, till the day of your execution, when you shall be taken to the place of execution, and there be hanged by the neck until you are dead; and may God have mercy on your souls.

The manner in which the stones were taken out deserves to be noticed: there were two poles laid across the well, and four log chains suspended from them, forming loops, in which were two planks and one across them, which formed a scaffold for two men to stand upon and take the stone from those below; and when another scaffold was required, other chains were hooked into them which formed loops below, into which more planks were placed, and so on alternately to the bottom, making eight scaffolds in the whole. By this means the stone were aken out in much less time than would have been required to draw them out in baskets by a windlass; and considering the anxiety natural on such an occasion, and the great number of People present, every thing was managed with great reg-

My Friend's Family

LOOK HERE!

FEW days since, a Negro Man called at the house of the subscriper, living four miles south-east of Raleigh, and enquired the way to Smithfield, stating that his name was BEN, that he belonged to Mr. Nathan Upchurch of Chatham, and that his master had hired him to some one in Smithfield. On questioning him closely t was very evident that he had runaway, which supposition became confirmed by his subsequent conduct. Being asked for his pass, he said he "When I am gone fire the big guns over had lost it a short distance back on the road which he came, but would go and find it. I offered to accompany him, but he said he would leave his bundle, and soon return. He deposit-eil his bundle in my yard and started off in search of his pass and I accompanied him on horseback As soon however as we reached the woods, he darted off and I have not since seen him.

His bundle contained a number of valuable ar ticles of clothing, the chief of which are here no ticed, with a hope that they may meet the eyes of the owner, for I am confident they were stolen. They will be delivered to any one having a right to demand them, on their paying for this advertisement.
