## "SCANDAL."

Reader, have you ever suffered in being made the mark of scandal? Is there a man or woman, old or young, in the town of Providence who has not ? And are there many, who have not, in their time, led at that meeting have b inflicted scandal? These are leading no " drop or nostram will dislodge questions, and are more or less applicable to every community, and particularly so to the blassed community in which we

> There are ten or fifteen men, in this town, who are without business of their own, and are continually meddling with that of other people. Are a lady and geo--they are engaged to be married, and they will go on and fix the day of your wedding, the colour and shape of your dress, the parson, and all the particulars ; and if the lady takes your arm, she is nothing less than you wife. By these means, the tongue of scandal will allot to a man more wives in one week, than Solomon had in the course of his life. Does a gentleman speak with a married lady, -- there is intrigue and sin afoot, and her husband must know it. Does a lady without hundred thousand doilars presume to go into the street decently dressed,-she is bringing down ruin upon her family-she is making a great show to display her charms to captivate the men, while her unwashed kettles are tumbling together in the kitchen, and cubwebs fill every corner of the house. Is a man transiently embarrassed in his affairs,-he is in jai -he he has morigaged all his property—he is living in a style he cannot afford-he eats too rich a steak for his dinner-he wears oo fine a piece of cloth-and he never attends to his business. Does he hire a chaise to go out of iown on his own affairs ? -he is runaway, and all his criditors are seen running after him. Besides these there are a thousand and one stories hatched, wi hout the shadow of a plausibilityinfanous lies, orgendered whole, and set in motion for the purpose of creating at excitement. Miss So-and-so has swallowed poison, because her father wouldn't let her marry. Another has runaway from with her tootman. Another was seen to kiss a gon teman in the street-and another has contracted more debts thin her hu-band can ever pay. Mr. Sufferer was seen last night as drunk as a beast, and rope-walk hill all last afternoon, and in the evening they came down into the street and frightened some little girls; when at last is was proved that Mr. Sulferer was out of town all the afternoon, on busines. These are some of the ten millious of scandalous and lying reports which daily float through this country, as thick as the air we breathe. They meet us at every corner of the street; hey in almost every brain. By night and day, the evil spirit is forth-old friends are parting, and old enemies excited afresh, and the very roots and springs of society are turned into bitterness. #### PARENTAL FALSEHOOD

In noticing Mrs. Opie's "Illustrations of Lying" a writer in the London Literary Gazette, has the following remarks, which are well worthy the attention of parents :

There is one class of lies, which we are little surprised did not attract a larger share of Mrs. Opie's attention :- CP Lies old by Parents to their children .- We be lieve that the slight regard in which strict ruth is held among markind, is principally wing to the lies, which are told to chil Iren by their Paren s, during the few first years of their lives. Then is the time that permanent impressions may be as well made as at any later period. It is then, probably, that what is called the natural propensity of a child is unfolded. Many persons who have great abhorrence of lying, and whip their children if they detect them in it, yet make no scruple of telling and acting to them the most a rocious filsehonds. There are few parents who do not to this in a greater or less degree, though doubiless without dreaming they are guilty of criminal deception. With many, the whole business of managing their children is a piece of mere artifice and trick. They are cheated in their amusements, dress. Lies are told them to get them to do any thing which is disagreeable. If a hild is to take physic, the mother tells him she has something good for him to drink ; if recusant she will send for the doctor to cut off his ears or pull his teeth or that she will go away and leave him, and a thouand things of the same kind, each of which may deceive once and answer the present purpose, but will invariably fail afterwards.
