"SIX EIGHT YEARS AT HANCOCK STRENGTH."

A SONG.

Turn—The Bonnets of Blue, Here's a health to Tippecanoe!

Here's a health to Tippecanoe! And be that won't drink to the pride of North Bend

In neither a wise nor true. It's base to be led by the few;

It's good to stand up for the popular choice: Then about for old Tippecanoe!

Horrah for old Tippecanoe! Horrah for old Tippecanoe!

It's good to cheer him who has often cheer'd us; Then about for old Tippecanoe!

Here's a health for Tippecanoe! Here's a health to Tippecanoe!

Here's a health to the Chief who was never yet beat; Three rounds for the honest and true!

Here's luck to the hand that will toil! Here's luck to the seed that is sown!

Who's a poor man himself is a friend of the Poor, And values their rights as his own.

Then about for old Tippecanoe! Horrah for old Tippecanoe!

It's time to turn out all the profligate herd, And put in Old Tippecanoe!

JAYNE'S EXPECTORANT

is decidedly superior to any other known combination of medicine, for Coughs, Colic, Consumption, Asthma,

Spitting of Blood, Palpitations of the Heart, BRONCHITIS—Chronic Pleurisy, Difficulty of Breathing, Hooping Cough, and all diseases of the Pulmonary Organs.

This medicine is highly and justly recommended, by numerous and respectable individuals, who have found relief from its use.

Many who have been labouring under protracted Coughs and Pains in the Breast, and have been supposed by themselves and their friends far advanced in Consumption, have been happily restored to perfect health by the use of this valuable Expectorant.

Extract of a Certificate from Rev. Dr. Babcock, late President of Waterville College, Maine.

"From intimate personal acquaintance with Dr. D. Jayne, a regular student of the Medical University of Pennsylvania, and an experienced, successful practitioner of medicine, I was prepared to appreciate the numerous testimonials in favour of his different medical preparations, much more highly than the great majority of those which are extensively circulated.

On trial of them in my own family, and some of them personally, I have more than realized their favourable anticipations. They are what they profess to be—no quack nostrums—but skillfully prepared antidotes for some of the most afflictive of human diseases. I know that they are highly esteemed, and frequently prescribed, by some of the most respectable of the regular practitioners of medicine in this city and elsewhere, and I do not hesitate to commend them as a valuable addition to our materia medica, and a safe, as well as eminently useful remedy for the diseased."

RUFUS BABCOCK, Jr., Philadelphia, 7th June, 1838.

Jayne's Expectorant.—We invite attention to this admirable remedy for Pulmonary affections, advertised in another column. The principle therein announced of the morbid character of obstructions—its tendency to originate inflammation of the Bronchia, and consequent vitiation of the natural humors—its beyond dispute, the truth itself. The only practicable mode of removing such obstructions, is by means of expectoration, a result which we are convinced can always be obtained by a judicious exhibition of the remedy of Dr. Jayne—Philadelphia Spirit of the Times.

Jayne's Expectorant.—By a reference to our advertising columns, it will be seen that this valuable Medicine is offered for sale in this city, by E. W. BULL, Agent. We esteem it a pleasure to be able to recommend this medicine, as the best calculated for the purpose of curing coughs, colds, sore throat, asthma, and all affections of the lungs. From a long personal acquaintance with Dr. Jayne, we know that he is no quack, and his medicines are not nostrums of the modern cry-up, but are the result of his long experience as a practicing physician, and the expense of great labour.—Harford, Ct., Daily Review.

From the Philadelphia Saturday Courier.

Valuable Medicine.—We do not wish to commend one good medicine at the expense of another, but we cannot forbear to notice the valuable properties possessed by the "Comminative Balsam," and the "Expectorant," prepared by Dr. Jayne, of South Third Street in this city. We have forborne to give evidence until after a thorough trial in our own family. They are invaluable in a family of children.

Numerous other certificates might be added, but the above are considered sufficient evidence of its great usefulness.

The above article, together with all other Medicines prepared by Dr. Jayne, are for sale in Raleigh, by WILLIAMS & HAYWOOD, Petersburg, Dupuy, Roles & Jones, Wilmington, Doctor Ware, February, 1840.

PETERS' PILLS.

These Pills are no longer among those of doubtful utility. They have passed away from the hundreds that are daily launched upon the tide of experiment, and as extensively public as in all parts of the United States, Canada, Texas, Mexico, and the West Indies, as any medicine that has ever been prepared for the relief of suffering man. They have been introduced wherever it was found possible to carry them, and there are but few towns that do not contain some remarkable evidences of their good effects. The certificates that have been presented to the proprietor exceed twenty thousand!—upwards of five hundred of which are from regular practicing Physicians, who are the most competent judges of their merits.

Often have the cures performed by this medicine furnished subjects for editorial comment, in various newspapers and Journals, and it may with truth be asserted that no medicine of the kind has ever received testimonials of higher value than are attached to this.

They are in general use as a family medicine, and there are thousands of families who declare they are never satisfied unless they have a supply always at hand.

They have no rival in curing and preventing Bilious Fevers, Fever and Ague, Dyspepsia, Liver Complaints, Sick Headache, Jaundice, Asthma, Dropsy, Rheumatism, Enlargement of the Spleen, Piles, Cholera, Female Obstructions, Heart-Burn, Furred Tongue, Nausea, Distension of the Stomach and Bowels, Incipient Dropsy, Flatulency, Habitual Constiveness, Loss of Appetite, Bloated or Sallow Complexion, and in all cases of Torpor of the Bowels, where a cathartic or aperient is needed. They are exceedingly mild in their operation, producing neither nausea, griping, nor debility.

These extraordinary and justly celebrated Pills are sold, in Raleigh, by Williams & Haywood, and W. M. Mason & Co., and in all the principal towns in the State. Retail price, 50 cents per box. May 1. (1837.)

A NEW VOLUME OF THE NEW-YORK MIRROR.

Engraving on Steel, and all the Fashionable Music of the Day. Published weekly in the City of New-York.

As a refined and elegant repository of the belles lettres, embracing every subject within the range of polite literature and the fine arts, the New-York Mirror has received the spontaneous and universal commendation, not only of the press of the United States, but of Great Britain.

The first number of a new volume, of this beautiful parlor journal, will be issued on the twenty-seventh day of June next, at which time, as the work is generally bound at the end of the year, it is desirable that new subscribers should commence their subscription, as it is the intention of the proprietor to print no more copies than shall be required, this early notice is given in order to prevent the disappointment that usually takes place in applications for the first numbers of a new volume.

The N. York Mirror is the oldest, and unquestionably the cheapest periodical in America. Every number contains a great variety of useful, interesting, and amusing matter, on every subject connected with literature and the fine arts; and they form, at the end of the year, an immense Volume of four hundred and sixteen imperial quarto pages, with vignette title-page, table of contents, splendid Engravings, and fifty pieces of popular music, arranged for the piano-forte, guitar, &c.—a library in itself—and all this is afforded at the very trifling cost of five dollars a year, a sum almost inadequate for the extraordinary equivalent rendered to subscribers.

Our friends are more numerous, our resources more ample, and our exertions to render the Mirror the first of periodicals shall be as undaunted as ever. At home we have a list of nearly two hundred contributors, embracing most of the talent and genius of America; and we have established a permanent correspondence both in London and Paris.

Four superb Engravings will be given in the course of the new Volume, from original designs, plate and engraved expressly for the work, by the most eminent artists. A number of curious etchings on wood will also be given.

Articles from the pens of well-known and distinguished writers, upon every subject that can properly interest, including original poetry, tales and essays, humorous and pathetic; critical notices; early and choice selections from the best new publications, both American and English; scientific and literary intelligence; copious notices of foreign countries; strictures upon the various productions in the fine arts; elaborate and beautiful specimens of art, engravings, music, &c.; notices of the Drama; translations from the best new works in other languages, French, German, Italian, Spanish, &c.—and an infinite variety of miscellaneous reading relating to passing events, remarkable individuals, discoveries and improvements in science, art, mechanics, &c. &c. will be published in the course of the volume.

In entering for the general taste, we shall never omit to send a due portion of space for the especial amusement and edification of our fair and gentle countrywomen, in the sunshine of whose favour the Mirror has so long flourished as a favourite journal.

In issuing this new volume, we feel confident that while we continue to merit, we shall continue to receive the liberal support which we take this occasion to acknowledge; and we shall commence a new volume with renewed spirit, and a steady determination to render the Mirror all that its most ardent friends could wish.

Advertisements.—The Mirror is published every Saturday, at No. 1, Barclay-street, next door to Broadway. It is elegantly printed in the extra super-royal quarto form, with brevity, minion, and nonpareil type. It is embellished once every three months, with a splendid super-royal quarto engraving, and every week with a popular piece of music, arranged for the piano-forte, harp, guitar, &c. For each volume an exquisitely engraved vignette title-page, and a copious index, are furnished. The terms are five dollars per annum, payable, in all cases, in advance. It is forwarded by the earliest mails to subscribers residing out of the city of New-York. Communications, post paid, must be addressed to the Editor. No subscriptions received for a less period than one year.

New Subscribers will be furnished, gratuitously, with proof copies of two of the most magnificent engravings ever published in this country, painted by Chapman, and engraved by Danforth; the first being a representation of the "Landing of Columbus in the New World," as described by Washington Irving; and the second the "Landing at Jamestown, in Virginia," as described by the Hon. J. K. Paulding, the present Secretary of the Navy. These beautiful illustrations are intended either for framing or for the portfolio, and are particularly valuable, not only as illustrating the writings of two eminent authors by American artists; but as perpetuating events in the history of this country interesting to every person of taste and refinement, and to all who feel a pride in their native land.

Post-Masters generally are requested to act as agents for the work.

Remember, all letters ordering the Mirror, must contain \$5, and be post paid, and that the terms are always in advance.

BRANDRETH'S PILLS.

VEGETABLE and Universal Medicine, proved by the experience of thousands to be, when properly persevered with, a certain cure in every form of the only one disease, all having the same origin, and invariably arise from the universal torp of all disease, namely, impurity of imperfect circulation of the Blood.

In a period of little more than three years in the United States, they have restored to a state of health and enjoyment over One Hundred Thousand persons, who were given over in despair by Physicians of the first rank and standing, and in many cases when every other remedy had been resorted to in vain.

In all cases of Pain or Weakness, whether it be chronic or recent, whether it be deafness or pain in the side, whether it arise from constitution or from some immediate cause, whether it be from internal or external injury, it will be cured, by persevering in the use of these Pills.

This principle of purging with Brandreth's Pills, removes nothing but the useless and decaying humors of the blood; those humors which cause disease—they impede the functions of the liver, when they settle upon that organ, and which, when they settle upon the lungs, produce rheumatism; or, upon the nerves, produce gout; or, upon the lungs, produce consumption; or, upon the intestines, produce constipation; or, upon the lining of the blood vessels, apoplexy and paralysis, and all the train of disorders so melancholy to the sufferer and all who behold them.

Yes, purging these humors from the body is the true cure for all these complaints, and every form of disease. This is no mere assertion—it is a demonstrable truth, and each day is extending itself—far and wide it is becoming known, and more and more appreciated.

The cure by purging may more depend upon the laws which, produce the torp of impurity, than upon the generally imagined. Whatever tends to stagnate, will produce sickness, because it tends to putrefaction; therefore the necessity of constant exercise is seen.

When constant exercise cannot be used from any cause, the occasional use of opening Medicine is absolutely required. Thus the conduct of the blood, the fountain of life, are kept from those impurities which would prevent its steady current ministering to health. Thus morbid humors are prevented from becoming mixed with it. It is nature which is thus assisted through the means and outlets which she has provided for herself.

Certificates of cure by the Brandreth Pills.

DYSPEPSIA CURED. During the month of August last, Mr. Joshua H. Shields was violently attacked with a most dangerous dysentery. The passages were of the most fetid and alarming character, and very frequent that they numbered as many as 45 in one day. After having taken the prescriptions of two of the most celebrated physicians in the country, without receiving any permanent relief, he was induced, by the suggestion of a neighbor, to try the Brandreth Pills; but so weak had he become by the continual evacuations of his disease, that he had no hopes of recovering. However, after having taken a few of the pills, he received almost immediate relief, and continued to take them until they had effected a perfect cure. If any individuals are inclined to doubt the correctness of the above certificate in every particular, they are respectfully referred to Mr. J. H. Shields, Hopkinstown, Christian County, Ky. October 13, 1838.

DYSPEPSIA CURED. B. Brandreth, M. D.—Dear Sir: For the benefit of my fellow sufferers, I wish you to publish the particulars of my case. You know when I was in Louisville last Spring, I did not expect to live long; my bones were almost protruding through my flesh. Flatulency, heart-burn and loss of sleep had reduced me to a skeleton. I had heard much of your pills, but I did not believe that they or any thing else would cure me; however, as you know, I bought a box and took them, since which time I have taken six boxes, and I now take great pleasure in saying that I can perform more labor and endure more fatigue than I have been able to do for years previous to my taking your medicine. Wm. THOMPSON, Taylor Creek, Hardin county, Ky. September 29, 1838.

READ AND PROFIT!

THE following Letter from the Hon. BREVETED T. TEXERA, Professor of Law in William & Mary College, Virginia, was recently received, and affords very strong evidence of the efficacy of Brockwira's Anti-Dyspeptic Pills, in the disease for which they were designed:

Lee's Springs, Virginia, Aug. 7th, 1839. Six: An accidental meeting with a friend of yours has determined me to offer you the acknowledgments which I have long felt to be due from me, for the benefits I have received at your hands. Fourteen years ago I was left by a most malignant liver with a diseased liver, a disordered digestion, and a constitution in ruins. My Physicians permitted me to hope that with care and prudence I might drag on a few years of precarious existence, and assured me that the least indiscretion might be fatal. Soon afterwards I found myself becoming dyspeptic, and became acquainted with all that indescribable misery which dyspepsia alone can know. This, as usual, grew upon me, though less rapidly than in most cases, because a consciousness of my danger put me on my guard, and experience had made me familiar with the proper management of myself. By the constant use of the most approved remedies the progress of the disease was retarded, and my life was made tolerable but not comfortable. I rarely ate two meals in regular succession, and for some hours of almost every day, was incapable of any exertion of thought or feeling. A painful impatience of existence occupied my whole mind.

Two years ago I met with your Anti-Dyspeptic Pills, and confiding in the accompanying certificates of respectable gentlemen whom I happened to know, I took them according to directions. The result is that I now eat what I please, do what I please, sleep soundly, and enjoy life as much as any man living. Your young friend, who has been with me a week, will tell you that he has never seen my strength or spirits, or my elasticity of mind or body fail for a moment. For this I give you no pleasure to say I have my thanks, and to add the assurance of my high respects. B. TUCKER, Dr. BROCKWIRA, 48
