TATNES EXPECTORANT is decided! superior to any other known combination of medicine, for Coughs Colds, Consumption, Asthma, Spitting of Blood, Palpitations of the Heart, BRON-CHIPIS—Chronic Pleurisy, Difficulty of Breathing, Hooping Cough, and all diseases of the Polymonary

This medicine is highly and justly recommended, by numerous and respectable individuals, who have found relief from its use. Many who have been la-bouring under protracted Coughs and Pains in the Breast, and have been supposed by themselves and their friends far advanced in Co. sumption, have been happily restored to perfect health by the use of this valuable Expecturent.

Extract of a Cartificate from Rev. Dr. Bebeock, late President of Waterville College, Maine.

"From intimate personal acquaintance with Dr. D. Jayne a regular student of the Medical University of Pennsylvania and an experienced successful practitioner of medicine. I was prepared to appreciate the numerous testimonials in favour of his different medical preparations, much more highly than the great majority of those which are extensively enlogised. On trial of them in my own family and some of them personally, I have more than realized their favourable anticipations. They are what they profess to benot quack nostrums—but skilfully prepared antidotes for some of the most afflictive of human diseases. I know that they are highly esteemed, and frequently prescribed, by some of the most respectable of the regular practitioners of medicine in this city and elsowhere, and I do not hesitate to commend them as a valuable addition to our materia medica, and a safe. as well as eminently useful remedy for the diseased."

Jayne's Expectorant.—We invite attention to this admirable remedy for Pulmonary affections, advertised in another column. The principle there announced of the morbid character of obstructions—its tendency to originate inflammation of the Bronchia, and conse nent vitiation of the natural humors-is, beyond dispute, the truth itself. The only practicable mode of removing such obstruction, is by means of expectoration, a result which we are convinced can always be obtained by a judicious exhibition of the remedy of Dr. Jayne.—Philadelphia Spirit of the Times.

Jayne's Expectorant.-By a reference to our advertising columns, it will be seen that this valuable Medi-cine is offered for sale in this city, by E. W. Bull. Agent - We esteem it a pleasure to be able to recommend this medicine, as the best calculated for the pur-pose of curing roughs, colds, sore throat, asthma, and all affections of the lungs. From a long personal acquaintance with Dr. Jayne, we know that he is no mack and his medicines are not nostrums of the modern cry-up, but are the result of his long experience as a practising physician, and the expense of great labour.—Hurtford, Ct., Daily Review.

At home we have a list of nearly two hundred contributors embracing most of the talent and genius of America; and we have established a permanent correspondence both in London and Paris.

In catering for the general taste, we shall never omit to set aside a due portion of space for the especial amusement and edification of our fair and gentle countrywomen, in the sunshine of whose favour the

Mirror has so long flourished as a favourite journal.
In issuing this new volume, we feel confident that while we continue to merit, we shall continue to receive, the liberal support which we take this occasion ume with renewed spirit, and a steady determination could wish.

READ AND PROFIT!

THE following Letter from the Hon. BEVERLY TUCKER, Professor of Law in William & Mary College, Virginia, was recently received, and afford very strong evidence of the efficacy of BECKWITH's Anti-Dyspertic Pills, in the disease for which they were designed: Lee's Springs, Virginia, Aug. 7th, 1839.

SIN: An accidental meeting with a friend of yours has determined me to offer you the acknowledgements which I have long felt to be due from me, for the benefits I have received at your hands. Fourteen years ago I was left by a most malignant fever with a diseased liver, a disordered digestion, and a constitution in ruins. My Physicians permitted me to hope that with care and prudence I might drag on a few years of precarious existence, and assured me that the least indiscretion must be fatal. Soon afterwards I found myself becoming dyspeptic, and became acquainted with all that indescribable mise-Clockfast, Americus, Fearnaught, Jolly Roger, Nor- ry which dyspeptics alone can know. This, as usuton's Traveller, out of an imported Barb Mare. For al, grew upon me, though less rapidly than in most cases because a consciousness of my danger put me on my guard, and experience had made me far with the proper management of myself By the stable, Granville county, North Carolina, on the min constant use of the most approved remedies the progress of the disease was retarded; and my life was made tolerable but not comfortable. I rarely ate two meals in regular succession, and for some hours of almost every day, was incapable of any exercise of thought or feeling. A peevish impatience of existence occupied my whole mind.

> Two years ago I met with your Anti-dyspeptic Pills, and confiding in the accompanying certificates of respectable gentlemen whom I happened to know, I took them according to directions. The result is that I now eat what I please, do what I please, sleep soundly, and enjoy life as much as any man living. Your young friend, who has been with me a week. will tell you that he has never seen my strength or spirits flag, or my elasticity of mind or body fail for a moment. For this it gives me pleasure to say you have my thanks, and to add the assurance of B. TUCKER. my high respects.
