### BATHING.

It is singular, in a temperature so changeful as ours that bathing is not more in use, and especially the warm bath, as it has nearly all the salutary effects of the cold bath, without any of its evils in diseased systems, as in many instances, the cold bath ought to be avoided, viz: cutaneous diseases, checked perspirations and fevers. Cutaneous, and many howel complaints are relieved by the warm bath, (whereas the cold baths would be injurious) which are common in the latter part of the summer and autumn. #### PROSPECTUS OF THE ALABAMA HERALD.

The Subscribers propose to establish in the Town of BARBOURVILLE, Wilcox County, a weekly Newspaper, entitled the ALABANA HERALD, to be devoted to Political, Agricultural, Literary and Miscellaneous Intelligence.

In addition to the importance of a Press in Wilcox, in a political point of view, the convenience and interest of the people of this and the neighboring countles require that a Paper should be established in this region, congenial to its feelings and devoted to its interests. The growing importance of this section of South-Alabama, and the wants of its citizens, give every assurance that we will be liberally sustained in the enterprize. And being practical Printers, we flatter ourselves that we will be able to render the Paper at once respectable and interesting.

While we disclaim any intention to act illiberally towards our political opponents, or to refuse them an opportunity of defending their principles, in an honest manner, through our columns, we wish not to conceal the fact, that our own sentiments are in accord-ance with those of the Winte party; and of course, upon its members we must chiefly depend for encouragement and support. In common with the great majority of the American People, we look to Whig principles and to Whig measures as the only means of restoring the Government to its former purity, and of radicating the pernicious and factious practices which corrupt Administrations have inflicted upon the country. We have witnessed and still witness the servants whom the people have called to administer the affairs of the Government, disregarding the clearly expressed wishes of their constituents, and chosen on account of his loud professions of Demoeracy and Republicanism, and coming into office with hypocritical declarations of attachment to popular rights, presumptuously accusing a large portion of the people with bribery and corruption, because they expressed, in a constitutional manner, their opposition to one of his propositions. We have seen sy cophantic office-holders and unprincipled peculators plainly encouraged and protected in their acts of plunder and

corruption. We have heard a "Democratic President" tell the people that they expected too much from their own Government, and that it was the duty of " the Government" (himself and his underlings ?) to take care only of its own affairs, and leave the people to extricate themselves from their embarrassments-embagrassments which his own and his "illustrious predecessor's" capricious experiments had fastened upon them. We have seen honest and capapie public servants contemptuously dismissed from office, because they dared to differ in political opinion with those who seem determined to rule the country with a rod of iron. And we now behold the authors of these wrongs, the perpetrators of these outra-ges, soliciting an approval of their course and a con-tinuance of their power, at the hands of the American People. It is against these practices, these doctrines, and these MEN, that we intend (if our undertaking shall metet with the favor of the public) to raise our humble voices. It is to open to the citizens of Wilcox and the adjoining counties a medium of making known and defending their political opinions, that we make this attempt to establish a Whig Journal in Barbour-
