In regard to the character of these two last named settlements of land or plantations, it is sufficient to say, they have been pronounced by competent judges to be inferior to no body of land north of the Sabine River. Their location, fertility, and production, for corn and cotton cannot be surpassed; they lie be-tween the Chattabooches and Flint River; a section of our State that is rapidly attracting public notice and in a very few years will stand unrivalled as a cotton growing section of the Southern States. These were selected with great care and expense, by one of

The undersigned are very destrous to dispose of these two bodies of land, in two separate plantations, and will do so at private sale, to a fair purchaser, and on good time. An exchange or transfer of a Mare insurance, will entitle the owner of the Hotse to the insurance. Hardluck was never trained, and we hope the public will not judge his blood by the low nates at which he is let to Mares. We therefore refer them to the distinguished performances of his son Grey Mamus, to speak the Sire's merits, a particular account of which may be found in my large Bills; and we aver that there is no horse in America, ha can bast of such a son, who does not stand at double the amount, Hardluck is proposed to the public. We invite the attention of breeders to call and see Hard-luck and judge for themselves—and think iste experience has proven our nitive stock superior to the imported stock--at least we have had enough of the orted stock from the stables of the English Lords at \$100 to \$11.0 the Season, and want other testimo ny of their thorough breds.

## DESCRIPTION AND PEDIGREE.

Hardluck is a light Grey. 8 years old this Spring full 15 mands high, combining, at a single glance, the essentials of the Race Horse-bone, sinew, and mus le-with a beauty and symmetry of form, blood-like and game appearance, unsurpassed. He has but one colt old enough to appear on the Turf, (Grey Momus) a fac simile of his Sire, which he got in his three year old form, whose distinguished performances speak in louder terms of commendation of his Sire, than all that may be said. The lofty head, the fiery eye, the fine silky appearance of his cost, and superior ac-tion, at once denote him to be a thorough bred, rarely

to be met with. Hardluck was got by Randolph's Roanoke, his dam (AntoFuette or Lady Washington,) by Sir Archy. grands a by Old Potomac, g g dam by Bellair g g g Major Cook & Old Vesta. HAIR TOXIC.—We call the attention of those af-flicted with premature buildness, to the excellent "Hair Tonic" prepared by Dr. Jayne of this City. Having used it ourselves, we can speak of its virtues by es-perience, and we unhesitatingly pronounce it an in-valuable remedy to prevent the falling off of the bair, and to restore it from a dead to a fine, healthy apand to restore it from a dead to a line, healthy ap-pearance. We can also speak from personal knowl-edge of the cases of two or three friends who were predisposed to buildness, who by the use of Jayne's Hair Tonic, have now insuriant hair. We have no disposition to puff indiscriminately, all kinds of reme-dics, for all discuss which firsh is heir to, but when we have tested the virtue of an article, we are free to say it is good .- Solurday Evening Post, Sep.7, 1839

JATRE's HAIR TORIC .- The efficacy of this ele gent preparation in restoring the growth of the hair in hald places, is truly wonderful. Where the hair has been worn off from the top of the head, by the careless practice of carrying things in the crown of the hat, it is generally considered difficult if not im-possible to restore it, but it is found by numerous exples that the Hair Tonic reaches these cases very promptly and effects a complete cure. Every gentle man-(we say nothing to the ladies, it being a fair presumption that their hair is always in full luxuri-ance, at least it always seems so.) - every gentleman wh.-finds his hair growing too thin, or becoming loose should place a battle of Jayne's Hair Tonie in his dressing case and apply it with a free use of the hair brush every morning. The result will be a full, strong and healthy head of hair The cases that have fallen under our own observation warrant us fully in asserting this.- Weekly Messenger.

C Attention is called to Dr Jayne's Hair Tonic for the preservation, growth and restoration of th Hair. We are assured that several most remarkable cures have lately been effected by this remedy. It is certainly worthy a triol. - Philadelphia Saturday Chromicle.

JATER's HAIR TONIC .--- We have, heretofore nombered ourselves among those who believed that the "Hair Tonic," prepared by Dr. Jayne, was one of the many quack nostroms whose virtues are never sees beyond the fulsome puffs of their suthors. We are willing, at length, to make public acknowledgement of the error of our belief. An intimate friend, some two of three months since, all the top of whose cranium was as bald as a piece of polished marble, maugre all our jesting and ridicule of the idea of attempting

to cultivate so barren a spot, purchased a bottle or two of the Hair Touic from Dr Jayne, and according to his directions applied it. During the present week, the same friend ushered himself into our present , and uncovering his hitherto naked head, astonished us with a thin, though loxoriant growth of hair from

Many who have been labouring under protracted Coughs and Pains in the Breast, and have been supposed by themselves and their friends far advanced in Consumption, have been happily restored to perfect health by the use of this valuable Expectorant.

Extract of a Certificate from Rev. Dr. Babcock, late

President of Waterville College, Maine. "From intimate personal acquaintance with Dr. D. Jayne, a regular student of the Medical University of Pennsylvania, and an experienced successful practi-tioner of medicine, I was prepared to appreciate the numerous testim onials in favour of his different medi-ent preparations, much more highly than the great majority of those which are extensively eulogised. On trial of them in my own family, and some of them personally, I have more than realized their favourable as well as emimently useful remedy for the diseased." KUFUS BABCOCK, Jr.

The principle there announced of the morbid character of obstructions—its tendency to originate inflammation of the Bronchis, and consewent vitistion of the natural humors-is, beyond disute, the truth itself. The only practicable mode of removing such obstruction, is by means of expectora-tion, a result which we are convinced can always be obtained by a judicious exhibition of the remedy of Dr. Jayne.—Philadelphia Spirit of the Times.
