#### GIPSIES. From Walsh's Journey

The race of Gipsies, or, as the continental ations of Europe call them, Bohemians, is inknown on this continent; but the books. both grave and light of Europe, have made the name familiar to all reading people ; and we shall therefore, without hesitation, copy trange people, as he found them at the foot of the Carpathian Mountains in Transylvania: "I was now in the country where these extraordinary people are most numerous and where they were first known in Europe .-number of these people at present in Walla- is called, in Transylvania, enfedl, and is 22,000. These chiefs are the guardians of some privileges granted them by the Bathorian family, in the year 1600, of which the Czingaries of Transylvania are very proud and tenacious, Notwithstanding their general depravity, they have grades of infamy, and many are so vile that they are rejected by the rest; of these some are made executioners, who set about she task with delight, prepare extraordinary instruments of torture, and take a savage collecting gold from the beds of the Olt, Do- the undoubted origin of the musketoe." brieza, and other auriferous rivers. ## ECONOMY IN A FAMILY.

"There is nothing which goes so far to-wards placing beyond the reach of poverty. as economy in the arrangement of their domestic affairs. It matters not whether a man furnishes little or much for his family, ure to the rank of citizens; but in Wallachia it runs away, he knows not how, and that if there is a continual leakage in the parlor, demon WASTE, cries more, like the horseleech's daughter, until he that provides has no more to give. It is the husband's duty to bring into the house, and it is the duty of the wife to see that nothing goes wrongly out of it ; not the least article however unimportant in itself ; for it establishes a precedent ; nor under any pretence, for it opens the door for ruin to stalk in. A man gets a wife to look after his affairs, assist him in his journey carry her no farther than his welfare and happiness, together with that of her children .-This should be a sole aim, and the theatre of exploits in the bosom of her family, where she may do as much towards making a fortune as he possibly can do in the countingroom or work-shop. It is not money earned that makes a man wealthy ; it is what is saved from his earnings. A good and prudent husband makes a deposit of the fruits of his labor with his best friend-and if that friend be not true to him, what has he to hope; if he does not place confidence in the friend of his bosom, where is he to place it. A wife acts not for herself only, but she is the agent of many she loves, and she is bound to act for their good, and not for her own gratification. Her husband's good is the end at which she should aim-his approbation is her reward. Self-gratification in dress, or indulpurse can well entertain, are equally pernicious. RALEIGH & GASTON RAIL ROAD. Expedition increased and no detention.

AND NORTH-CAROLINA GAZETTE.

SEMI-WEEKLY.

TUESDAY, SEPTEMBER 29, 1840.

THE Raleigh and Gaston Rail Road is now completed and in full operation. This road connects with the Greensville and Roanoke Rail Road netween Raleigh, N. C. and Boston.

Passengers travelling South leave Baltimore at 9 clock, A. M. and arrive at Petersburg at 1 A. M. next morning ; leave Petersburg at 2 A. M. and arrive Raleigh at 5 P. M. the same day -- making only 32 hours, including stoppages, from Baltimore to Raleigh-338 miles. From Raleigh to the South, there is a daily line of stages running in connection with the Rail Road Cars. To the South West and West, there is a daily line of four horse post coaches. which leave immediately on the arrival of the train, and run via Hillsboro' and Greensboro, to Salisbury -from thence a tri-weekly line via York and Alibe ville, S. C. to Milledgeville, Ga. There is also a tri-weekly hack line from Releigh, via Pittsboro and Ashboro to Salisbury. From Salisbury there is a tri-weekly four horse post coach line via Lincolnton and Rutherfordton to Ashville, and also a tri-weekly back line from Salisbury, via Statesville and Morganton to Ashville, From Ashville to the Warm Springs there is a four horse post coach line six times a week, and from thence a tri-weekly line via Newport and Dandridge to Knoxville,-there is also a semi-weekly line via Greensville to Knoxville. At Greensboro', N. C. a tri-weekly four horse coach line branches off and runs via Salem, N. C. thence across the Blue Ridge to Wythe Court House, Va. where, it intersects with the Valley Line. From this line there is also a tri-weekly hack line which branches off at Salem, N. C. and runs via Huntsville, Wilkesporo', Jefferson, N. C., Elizabethton and Jonesboro', Tenn. to Knoxville.

It will thus be seen that there are three stage lines connecting Tennessee with the central parts of North Carolina, and two, connecting South Carolina and Georgia with North Carolina. All these lines finaly concentrate at Raleigh, the Southern terminus of the Rail Road.

Travellers from the upper parts of South Carolina and Georgia, the middle and Eastern portion of Tennessee, the South Western part of Virginia, and the Western part of North Carolina, wishing to go north, will find the route by the Raleigh and Gaston Rail Road cheaper and more expeditious than any other. ### COCHRANE'S CANNON.

The New York American contains a notice, at some length, of an experimental exnibition of Mr. Cochrane's patent bomb cannon at Castle Garden. The advantages appear to be incalculable. The efficiency of the gun is so weather. When inclined to a settled life, "Great Cayuga Marshes," is the following great that it is computed that one steamer. with two of Cochrane's sixty-four pounders, could cope with and destroy any line of battle ship, armed in the ordinary way.

#### FLOWERS AND SHRUBS.

Why does not every lady who can afford t-and who can not-have a geranium, or some other flower in her window? It is very cheap-its cheapness is next to nothing I you raise it from seed, or from a slip; and it is a beauty and a companion. It was the remark of Leigh Hunt, that it sweetens the air, rejoices the eye, links you with nature and innocence, and is something to love .---And if it cannot love you in return, it cannot hate you : it cannot uter a hateful thing, even for your neglecting, it; for tho' it is all beauty, it has no vanity ; and such being the case, and living as it does purely to do you good and afford you pleasure, how will you be able to neglect it? We receive, in imagination, the scent of those good natured leaves, which allow you to carry off their perfume on your fingers ; for good natured they are in that respect, above other plants, and fitted for the hospitality of your room. The very feel of the leaf has a household warmth in it-something analagous to clothing and comfort.

AMILTONIAN SYSTEM .--- The French Language taught in Fifty Lessons.-Mr. Hamilton, a native of France, and son of the late author of this system, respectfully announces to the inhabitants of Raleigh and its vicinity, that he is now ready to meet the classes of Ladies and Gentlemen, for the purpose of communicating a knowledge of the above useful and fashionable language. Mr. H. does not deem it necessary to enter into all the details of this system in an advertisement. He has brought with him upwards of twelve letters of introduction to some of the most respectable families in the place, it will therefore be enough to say that on this system such a knowledge of the French Language may be acquired as to enable the pupil to read, pronounce and understand any French author with very nearly the same facility and pleasure as if in English, in twenty four lessons, to write it with grammatical accuracy and to speak it if not with the

fluency of a Frenchman, at least with correctness and purity in fifty lessons. The course is divided into six sections, and to each section a corresponding degree of proficiency is attributed. The first section comprehends the Gospel of St. John, in which if the inflections of the verbs he counted there will be found nearly nine thousand different words. Every pupil will at the end of eight lessons have a perfect knowledge of it, so as not to fear the competition of an adept in the language, in translation and pronunciation. A proficiency equal-ly astonishing is attached to the second section and in the third, or in twenty four lessons the learner will be enabled to read and translate with nearly the same pleasure as in English any book in the language. The fourth, fifth and sixth sections are de-voted to writing and speaking, which Mr. 11. promises his pupils they shall then do with purity. The Hamiltonian system has passed as severe an

rdeal as an improvement of so great an importance demanded, it has been pronounced by the Edinburgh Review " one of the most useful and important dis coveries of the age," by the Westminister Review "the most extraordinary improvement in the method

Worms being especially apt to infest persons of debilitated digestive organs and emaciated constitutions, much mischief is often done by the ordinary worm medicines, which generally consist of th strongest purgatives, calomel, that destroyer of the constitution, bitters, pink root, spirits of turpentins, wormseed oil, &c. &c. Articles of this kind may de-stroy worms, but they debilitate the stomach, and often materially injure the general health, without removing the cause. Swaim's Vermifuge has the peculiar advantage of removing the cause of worms, by giving vigor and healthy action to the stomach, bowels, and organs of digestion, thereby relieving measles, croup, hooping cough, &c. This medicine, by invigorating the internal functions, strengthenin the organs of digestion, and removing the primary cause which creates morbid secretions, will relieve Bowel Complaints, Cholic, Dysontery, Dyspepsia.and the whole train of biliary affections, Sick Headach, Acidity of the Stometh, Foul Preath, Bleeding Piles, &c. It is an antidole in the carly slages of Fever and Cholera Morbus. As a general Family Medicine, it stands unrivalled, as it is applicable to most of the diseases to which children are subject. Swaim's Vermifuge will be found of some utility to personal who occasionally indulge in the conviviality of the table ; a dose taken before dinner will anticipate the effects of acidity of the stomach, not unfiege produced by wine In the neglect of this, howeve a dose in the morning or the following morning, will n most instances, restore the tone of the Stomach.
