MISCELLANEOUS. THE FIRST ACT OF RESISTANCE.

The first overt act of resistance that took place in this celebrated struggle, occurred in 1772, in the waters of Rhode Island. A vessel of war had been stationed on the coast to enforce the laws, and a small schooner with a light armament, and twenty-seven men, called the Gaspee, was employed as a tender, to run into the shallow waters of that coast.

On the 17th of June, 1772, a Providence Packet that plied between New York and Rhode Island, named the Hannah, and commanded by Captain Lange, hove in sight of the man-of-war on her passage up the bay. The Hannah was ordered to bring to, in order to be examined; but her master refused to comply, and being favored with a fresh southern breeze, that was sweeping him out of gun-shot, the Gaspee was signalled to follow.

For twenty-five miles the chase continued, under a press of sail, when the Hannah coming up with a bar, with which her master was familiar, and drawing less water than the schooner, Capt. Lange led the latter on a shoal, where she struck. The tide falling, the Gaspee sewed, and was not in a condition to be removed for several hours.

The news of the chase was circulated on the arrival of the Hannah at Providence. A strong feeling was excited among the population, and towards evening, the town drum appeared in the streets, assembling the people in the ordinary manner. When a crowd was collected, this man led his followers in front of a shed that stood near one of the stores, when one disguised as an Indian, suddenly appeared on the roof, and proclaimed a secret expedition for that night inviting all of "stout hearts" to assemble on the wharf, precisely at nine, disguised like himself.

At the appointed hour, most of the men of the place collected at the spot designated, when sixty-four were selected for the bold undertaking in view. The party embarked in eight of the different vessels lying at the wharves, and taking with them a quantity of round paving stones, they pulled down the river in a body. The commander of these men is supposed to be Capt. Whipple, who afterwards held a commission in the service of Congress, but none of the names were publicly mentioned at the time.

their heaven aspiring steeples from almost every village home. Agriculture sits smiling over our furrowed acres, while commerce and trade go buzzing along our busy streets. Let me imagine for a moment that old time has made another revolution, and passed the magic wand of another hundred years over our country!

But stop. Another thought now thrills my bosom! Where then will be present busy, noisy race? Where our Statesmen, our Poets, our divines? Where the hardy yeomanry of our country? Alas! like the rude forefathers of the hamlet of 1742, each one of the present citizens of this vast Republic will be "in their narrow cell forever laid."

CAPTURE OF THE GUERRIER. A short time previous to her capture by the Constitution, the Guerrier had fallen in with and taken a French prize. Among the passengers transferred to the deck of the Guerrier was a French gentleman charged with despatches to the American Government; who on presenting himself to the British commander, was dispossessed of his books and papers, and peremptorily ordered to go below.

Overwhelmed with this sudden and unexpected termination of his mission, the gentleman passed several days in great distress and agony of mind—which was not a little heightened by the haughty bearing and insolence of his victor. Once or twice addressing him with the blandest manner and best English, he said: "Capt. Dacre, I thank you, sare, for my government despatch and my law books."

One hundred years hence. What a change will have taken place in the great valley of the Mississippi, ere the tardy lapse of another century will be accomplished! We can only judge of the future from the past, and if the past be a correct standard from which to derive deductions relative to our country's future glory, the prospect is, indeed, of the most cheering character.

In 1742, and what was known of the great west! Scarcely had the foot of civilized man, save the daring pioneer, made its impress upon our shores! Scarcely had the frowning forests, from the Alleghanies, back—back still farther back towards the setting sun, been broken save by the slight markings of the Indian's scalping knife, or the trapper's hatchet.

When the firing had ceased, our little Frenchman, peeping up the hatchway, espied "one officer-like man, and Captain Dacre handed his sword." The truth flashed upon him in an instant. He rushed upon deck; and finding himself at liberty, he capered about like one "possessed." Finally, advancing to the now mute and fallen Dacre; he said, with an air which defies our humble pen. "You tell me, Sare, you take dis ship in fifteen minutes—by gar, he take you!"

MATRIMONIAL ANECDOTE.

The Rev. Mr. Orton of New York, a respectable clergyman in the interior of the State, relates the following anecdote. A couple came to him to get married; after the knot was tied, the bridegroom addressed him with, "how much do you ax Mister?"

"Why replied the clergyman, 'I generally take whatever is offered me. Some times more, some times less. I leave it to the bridegroom.' " "Yes—but how much do you ax, I say?" repeated the happy man.

"I have just said," returned the clergyman, "that I left it to the decision of the bridegroom. Some give me ten dollars; some five; some three; some two; some one; and some only a quarter of a one."

"A quarter, ha? said the bridegroom; 'well that's as reasonable as a body could ax. Let me see if I've got the money.' He took out his pocket book, there was no money there; he fumbled in all of his pockets, but not a sixpence could he find. "Dang it," said he "I thought I had some money with me; but I recollect now, 'twas in my tother trowsers pocket. Hetty, have you got such a thing as two shillings about ye?"

"Yes, but consider, Hetty," said the bridegroom, in a soothing tone, "we're married now, and it can't be helped—if you have such a thing as a couple of shillings—" "Here, take 'em," interrupted the angry bride, who during this speech, had been searching in her work bag; "and don't you," said she, "with a significant motion of her finger, 'don't you serve me another such a trick.'"

PATRIOTS OF THE REVOLUTION.—When the news of the fall of Ticonderoga reached Exeter, John Langdon, who was speaker of the provincial legislature of New Hampshire, then in session, seeing the public credit exhausted and his compatriots discouraged, rose and said—"I have three thousand dollars in hard money; I will pledge my plate for three thousand more; I have seventy hogsheads of Tobago rum, which shall be sold for the most it will bring. These are at the service of the State. If we succeed in defending our firesides and homes, I may be remunerated; if we do not the property will be of no value to me. Our old friend Stark, who so nobly maintained the honor of our State at Bunker Hill, may safely be trusted with the conduct of the enterprise; and we will check the progress of Burgoyne."

It is well known that from this noble effort sprung that gallant little army of Stark's that covered itself with glory at Bennington. These were the deeds that make our history holy, and consecrate the revolution.

Oct. 6th, 1840. DR. KUHLE, Richmond, Va.

DEAR SIR: I am happy to inform you that I am in excellent health. In a letter twelve months or upwards since, I stated I had entirely recovered my health. Since that time, I have not had the slightest symptom of my old and much dreaded disease—the Dyspepsia. I also stated the cure of several cases of obstinate character and of long standing; they have all proved permanent, so far as I have been able to ascertain I have had several new cases, which have been successfully treated with your Aluminic Mixture and Anti-Syphilitic Syrup. I will mention one case, which had been treated with the usual remedies for three months, but without any abatement of disease. Your medicine was procured, and the disease, which before appeared to obstinate, in a few days yielded to your remedy. I have used your medicines in various diseases with success. I have used none other in my family for the last eighteen months. One of my sisters, whose eyes had been affected for some years—so much so that she was scarcely able to see to attend to the most ordinary business without the use of spectacles—was relieved by the use of your Restorer of the Blood and Depurative Powder. Respectfully yours, GEORGE R. BARR.

"DISEASE A UNIT Impurity of the BLOOD the only Disease. HOW simple, yet how vast, how good and how certain are all the laws of nature! Simplicity and truth are stamped upon every law of the creation.—The mighty world which rolls in space in every degree of velocity and direction are all governed by attraction of matter to matter. This principle governs the human body. Brandreth's Vegetable Universal Pills, attract all impurities of the blood to the bowels, which organs expels them from the body. Attraction and disease are both units. All secretions or impurities only affect the body in proportion as they occasion impurity of the blood. "The bowels for instance are secreted—this most important organ is closed—the consequences is a great accumulation of impurities, which, as they cannot get out by their usual passage, are forced into the blood, occasioning impurity of blood. Thus Fevers, Chills, Rheumatism, Gout, and Colds are often produced. But let Brandreth's Pills be used in such doses as will effectually evacuate the bowels, and health is restored at once. The unworthy have contemned the Doctor's Medicine so extensively, that his travelling Agents have taken in all the old bones, and putting new ones of a different figure, with 25 Pills in their place. Some are just received at WILLIAM PEUK'S Office, Raleigh, March 1, 1842. 12-1y
