If I promised to marry a grl. I would consider it binding, and keen the promise religiously. I have no charity or a scoundrel who breaks an engagement. But these innocent flittations are different things. Why-what would the world be worth if one could'nt take moonlight walks with the girls, or have some one whom you visited, you know, especially. > In this conviction he daily grew more confirmed. No one visited the proud mansion of Mrs. Gordon, who seemed a more welcome visitor. If she did not blush at his entrance as she would have done eight years before, she welcomed him with a cordiality there was no mistaking. She sang for him, she promenaded with him, she danced with him-for who does not dance at 26?'-and there was nothing wanting in her demeanor toward him to assure him of her love, except the absence of that conscious embarrassment in his presence which once characterised her.
