YANKEE GIRLS AND ITALIAN GIRLS. Female delicacy in Italy is looked upon as a pure crystal which the faintest breath of the world may contaminate. It is a sweet tender flower, equally dreading the scorching meridian ray and the blast of the northern gale. The Italians believe in virginity of jarring the tooth, or of slipping and wounding the of the soul, without which personal chastity mouth of the patient. of the soul, without which personal chastity has hardly any value in their eyes. To secure this moral innocence, and here perhaps is than an almost entire abstraction from, the of a Yankee girl-we make use of an obnoxious denomination, not through disrespect for the " smartest nation in creation." but better to designate the people of New-England, that part of the United States where American manners are more characteristically developed, -begins with the earliest stage of boarding-school life. Early in the morning she walks out alone sometimes for a distance of miles to her academy; who which the supervention of alveolar abscess may, in ever care to inquire; or, if asked, scarcely ever does she condescend to reply. In proportion as she grows, more complete and absolute does she acquire the mastery over her own actions. She chooses her dancing and music masters, her congregation, her minister. She subscribes to cotillion parties, shines off at a Fancy Fair, or at a Flower Auction. She walks home late at night from a rout with her favorite partner, and takes a long tour by moonlight to enjoy the

out consulting the " old lady;" finally she informs her parents that her lover has ' popped the question,' unless indeed she prefers the eclat and excitement of a runaway match. And yet this unbounded latitude is scarcely ever attended with mischievous results .-Thanks perhaps to natural coldness of temperament, or to the early marriages which in those wide-spreading colonies are, and will long continue to be the order of the day, the American young lady very early acquire the calculating habits of the country. She is her own duenna and chaperon. Her hand and heart are always under the control of mirers according to their worth. Having still a queen at the head of our nation, as well as a national church and aristocracy, we cannot boast of going the whole

coolness and sentimentalism of the night air.

She introduces her male friends to her moth-

If not absolutely under the sway, they are still at least under the guidance of their natural guardians .-They have got eyes, and are permitted to make use of them; a taste, and they are free Straw Bonnet Establishment, to exercise it : a heart, and we let them believe that it is theirs to bestow .: Truly this by Mr. JOHN O'RORKE. liberty exists rather in words than facts .-The tether is long and loose, but we never let it entirely slip from our hands; our daughters have the motion of their marriage bills, but we reserve the enactment for ourselves. We do not control their inclinations. but reason them out of them. We do do not crush their feelings, but tamper with them. We do not thwart their love, but awaken their ambition. We do not present them the alternative between an old husband and a convent-God forbid! we only bid coronet. They are not dragged like victims to the altar, oh no! they are driven to church lishment; and pledge themselves that no attention in glittering carriages, decked out with jew- shall be wanting, on their part, to please their cusels and garlanded with flowers.

An Italian mother-we speak of the ladies of the old school, since Countess Peploli seems to entertain more liberal ideas can be contented with nothing short of making herself the jailer of her daughter. The poor girl must grow up in her parents bower like a sweet rose-bud hidden beneath a bush of thorns, like a gein buried in the depths of mind his friends, that he is much in want of money, in the ocean. She is never lost sight of for a order to meet his engagements. Are visitors announced, she is bidden to withdraw. Is mamma going to the opers, she is ordered to hed. The slightest out-burst of passion or enthusiasm is visited with a frown. Every thing is studied to guard her against sudden impressions. Her friends are in a constant dread of her Southern susceptibility. Her heart is a half-smothered volcano, which causes them andless anxiety. All her mother is able to teach the girl must learn from her. If other instructors are required, females are referred to male teachers, old to young.-In all cases the mother is in constant attendance, lest the inexperienced young creature, d set off one fair morning with her dancsaster, bound upon what is called in this

His extracting forceps are constructed upon anatomical principles, so as to render their application to the teeth, easy to himself and almost without pain to the patient; by their peculiar shape all bruising and laceration of the gums is avoided, a circumstance of especial importance where the mouth and mucous membranes are in an irritable condition. So many and so varied are the forms of some of his finer instruments, that no tooth or fang, however deeply buried in the gum, has ever been presented to him which has not been instantly extracted, with facility and always without the slightest injury to the jaw. One extractor only, the result of toil and study, lately invented by Dr. 8. he cannot reveal, and to this instrument, particularly, his ability to extract without

High compliments have been paid, in the American fournal of Dental surgery and other periodicals, to the elegant finish and perfect adaptation to the purpose of his plugging instruments, yet those invented since his arrival in Raleigh are certainly superior, in every respect, to all heretofore used, since by them the requisite degree of force, for consolidating the gold into a firm and dense plug, can be applied without danger

Specimens of teeth set on pivots or gold plats, from one to a full set, with springs or upon the principal of atmospheric pressure, may be seen and examined at their main error, they know no better means any time, as well as a complete stock of incorruptible diamond teeth, 25,000 in number, from which any ignorance of the world. PILLS! PILLS!! PILLS!!! HEALTH THE TRUEST RICHES.

THE CELEBRATED Hygeian Vegetable Pills. Can be had at the Store of John PRIMROSE

FAYETTRVILLE STREET, RALEIGH, N. C.

MOAT'S MORISON PILLS. THE GENUINE HYGEIAN VEGETABLE UNIVERSAL MEDICINE-Accurately prepared by Dr. H. S. Moat, of New York, from the original recipe used for many years by his late father, Mr. Thomas Mont, Vice President of the British College of Health.

Twenty years' successful administration of these celebrated medicines in Europe, and more than twelve years in the United States, have established their high reputation. Thousands of both sexes, who have been restored to health-the numerous sufferers rescued from premature death-and volumes of certified cases of cure, embracing every disease in the long entalogue of human misery; must convince the most incredulous, of their superiority and the truth of the Hygeian theory, resulting from scientific research and experience, namely, that man is subject to only one real disease-impurity of the blood."

The Medicines being composed entirely of herbs or vegetable matter, purify the blood, and carry off the corrupt humors of the body, in a manner so simple as to give every day ease and pleasure.

Man will be born to days of bliss, compared to what has hitherto been his lot, weighed down as he has been by disease, infirmities, and sufferings which no earthly power knew how to alleviate, until this discovery was presented to the world. The weak, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, and the most obstinate complaints are removed by perseverance without the expense of a Physician. Adapted to all circumstances and situations, they are the best Medicine ever invented for Families. or to take to sea, preventing scurvy and costiveness, requiring no change of diet, particular regimen, or care against taking cold.

The prepotency of these medicines, has induced many speculators to attempt imposition on the public, by forging the labels, or forcing their Imitations into notice through the med um of the Press -Some of them pretend to Hygeian principles, by stealing from the writings of the Hygeist, and copying whole pages into their fulsome advertisements.

fics or their deleterious nostrums prove to be unavailng, their puffing and piracy become evident; disappointment to the afflicted is eventual, and with just obloquy the pretenders sink into oblivion.

The Hygeian medicines, first introduced into this country by H. S. Moat, in 1830, have for the last four years been prepared by him, and the increasing sale attests their intrinsic merit; they comprise two sorts of Pills, No. 1 and No. 2, in single boxes of each at 25 or 50 cents; and Packets containing both sorts, at \$1. \$2, or \$3. The Vegetable Cleansing Powders, in large boxes, at 374 cents, with printed directions Each packet has a fac simile of the signature of H. Shepheard Moat, and to prevent counterfeits, are signed with a pen by the district agent and sub-agent on a label of yellow paper.

None are genuine unless they have these signatures, and are obtained from sub-agents, who can produce their written appointments from the district agent. and whose names are advertised in their respective H. SHEPHRARD MOAT, Principal Office, 50 Canal et.

All orders will be promptly filled at 20 per cent less than retail prices for all sums over twenty five dollars, for cash.

Some person in every Town and Village, ought to keep this valuable medicine, for the benefit of their fellow men. One individual, sent ninety miles to procure them. Nov. 17, 1842.

Have you a Cough? Don't neglect it! Cherman's Cough Lozenges. Are the safest, most sure and effectual remedy for Coughs Colds, Consumptions, Whooping Cough, Asthma, Tightness of the Lungs or Chest, &c &c. The pro prietor has never known an instance where they did not give perfect satisfaction. Several thousand boxes have been sold with the last year, restoring to health persons in almost every stage of consumption, and those laboring under the most distressing colds and coughs. They do not check and dry up the cough, but render it easy, promote expectoration, allay the tickling or irritation, and remove the proximate or exciting cause. They are made from a combination of the most valuable expertorant, or cough medicines, and are undoubtedly superior to everything in use for those complaints. Hundreds upon hundreds of certificates have been offered of their wonderful virtues, from those who have been saved from an untimely grave, and restored to perfect health. by using them.

infections only affect the body in proportion as they occasion impurity of the blood.

The bowels for instance are contive—this most important organ is closed—the consequence is a great accumulation of importaice, which, as they cannot get out by their usual passage, are forced into the blood, occasioning impurity of blood. Thus Fevers, Chelics, Rheumatiem, Coughs, and Colds are often produced. But let Brandreth's Pills be used in such do see as will effectually evacuate the bowels, and bealth is restored at once."

The unworthy have counterfeited the Doctor's Medicine so extensively, that his travelling Agent is now taking in all the old boxes, and putting new ones of a different figure, with 25 Pills in their place. Some are just rectived at WILLIAM PECK'S Office.
