MISCELLANEOUS.

CASTLE BUILDING.—The habit of what is common parlance, is called "building castles in the air," has a most pernicious influence on the health of the mind. There is a legitimate exercise of the imaginative faculty which is advantageous to the mind, and to which no objection can be urged; but when the fancy is allowed "to body forth the forms of things unknown," without being under proper discipline, much evil will result. Individuals endowed with an unhealthy expansion of the imaginations, create a world within themselves, in which the mind revels until all consciousness of the reality which surrounds them is lost. The disposition to reverie is very pernicious to intellectual health. Many habituate themselves to dream with their eyes open, without the sense being literally shut; they appear to be insensible to the impression of objects external to themselves. This condition of mind borders on the confines of insanity. If the imagination be thus permitted to obtain an predominant an influence over the other faculties of mind, some particular notion or object will fix itself upon the fancy; all other intellectual gratifications will be rejected; the mind, in weariness or leisure, recurs constantly to the favorite conception, and feasts on the luscious falsehood, whenever she is offended by the bitterness of the truth. By degrees the reign of fancy is confirmed; she grows first imperious and in time despotic; the fictions begin to operate as realities, false opinions fasten upon the mind, and life passes in dreams of rapture or anguish.

MILITARY CHIVALRY OF THE FRENCH.—Mr. Lover, in his interesting work of "Handy Andy," records an anecdote which reflects great credit upon the French. It proves still more what is pretty generally admitted, that the gallantry of the Irish to females is exceeded only by the French, who are said to be beyond compute. The story is told by Irish "Father Phil," as follows:

"I heard once, about a pretty bit of anecdote about the way the French behaved to one of our regiments on a retreat in Spain.—In going through a river they were, and the French taking advantage of their helpless condition, were peppering away at them hard and fast until some women, the followers of the camp, ran down, poor creatures, to the shore, and the stream was so deep in the middle they could scarcely ford it; so some dragoons, who were galloping as hard as they could out of the fire, pulled up on seeing the condition of the womankind, (for by no soul where is the son of the Emerald Isle who would not help a fair one in distress, or lose his life in defence of the dear ones,) each horseman took up a woman behind him, though it diminished his speed from the danger. The moment the French saw this act of manly courtesy, they ceased firing, and gave a cheer for the Irish dragoons; and as long as the women were within gun-shot, not a trigger was pulled in the French line, but volleys of cheers, instead of ball cartridges, were sent over the brigade, till the women were safe over."

BLUCHER.—He was as brave as a lion, and an adroit and ready tactician, and as a British Officer remarked of the American soldiery, he never knew when he was beaten. 'His jests,' says the Quarterly Review, 'frequently of a description ill calculated for chaste ears, extorted grim smiles from lips black with the cartridge, and sent laughter through the column, while grape-shot was tearing its ranks. When he checked his horse in the hottest cannonade, to light his pipe at the linstock of the gunner, the piece was probably, not the worse served. Towards the close of the campaign in France, the infirmities of age at one moment almost induced him to contemplate the abandonment of his command, and to retire into the Netherlands; but the spirit triumphed over the flesh, and, though unable to remain in the saddle for the last attack on Montmartre, he gave his orders with calmness and precision from a carriage. His appearance on this occasion must have taxed the gravity of his staff; for, to protect his eyes, then in a state of violent inflamation, the grisly veteran had replaced his cocked hat by a French lady's bonnet and veil."

PARENTAL FEELING.—I cannot paint the glorious host of feeling; the joy, the love, the pride, the blended paradise of rich emotions with which the God of nature fills the fathers heart, when he beholds his child in all his filial loveliness; when the vision of his infancy rises as it were re-animate before him, and a divine vanity exaggerates every trifle into some mysterious omen, which shall smooth his wrinkles and make his grave a monument of honor!—*Phillips.*

DENTISTRY.

THOSE persons having their Teeth, in a situation to require the aid of a Dentist, are invited to call at Dr. Stringfellow's office, and examine his instruments, operating chair &c. His extracting forceps are constructed upon anatomical principles, so as to render their application to the teeth easy to himself and almost without pain to the patient, by their peculiar shape all bruising and laceration of the gums is avoided, a circumstance of especial importance where the mouth and mucous membranes are in an irritable condition. So many and so varied are the forms of some of his finer instruments, that no tooth or fang, however deeply buried in the gum, has ever been presented to him which has not been instantly extracted, with facility and always without the slightest injury to the jaw. One extractor only, the result of toil and study, lately invented by Dr. S. he cannot reveal, and to this instrument, particularly, his ability to extract without severe pain is due.

High compliments have been paid, in the American Journal of Dental surgery and other periodicals, to the elegant finish and perfect adaptation to the purpose of his plugging instruments, yet those invented since his arrival in Raleigh are certainly superior, in every respect, to all heretofore used, since by them the requisite degree of force, for consolidating the gold into a firm and dense plug, can be applied without danger of jarring the tooth, or of slipping and wounding the mouth of the patient.

Specimens of teeth set on pivots or gold plate, from one to a full set, with springs or upon the principal of atmospheric pressure, may be seen and examined at any time, as well as a complete stock of incorruptible diamond teeth, 25,000 in number, from which any shade of natural teeth can be exactly matched, so as to render the difference when in the mouth, absolutely imperceptible.

The subjoined article, is from the July number, 1840, of the American Journal of Dental science.

PIVOTING METHOD OF INSERTING ARTIFICIAL TEETH.

Our object in adverting to this subject, is merely to notice a plan proposed by Mr. L. S. Stringfellow, an ingenious and skilful practitioner, for giving egress to matter, whenever formed, within the root of a tooth on which an artificial crown has been placed, and by which the supervention of alveolar abscess may, in almost every instance be prevented. For this purpose, instead of cutting a groove on the side of the pivot, as recommended some years ago by Dr. L. S. Parmly, of New Orleans, he cuts it on the side of the tooth; and has invented an instrument by which it can be done with very great facility. This, together with several other ingeniously constructed instruments invented by Mr. S. for the excavation of carious portions of teeth, preparatory to filling, we may take occasion to describe in a future number of our Journal.—EDIT. ED.

[COMMUNICATED.]

It is with no little pleasure that we are enabled to inform the public, through the medium of your columns, that a cure has been at length discovered for the most painful and harassing of all nervous affections—Neuralgia or Tic Dolereux. The many unfortunate patients whose sufferings we have witnessed, and who are ignorant that those sufferings can be relieved by scientific means, induce us to make this communication. The number of cases already cured by Dr. STRINGFELLOW, of this City, prove conclusively the success of his practice, which is as novel as it is efficacious. His residence in the Capital of the State, will make it convenient for him to be consulted by many at a distance, who are afflicted with a disease, almost as prostrating to the mental, as to the physical energies of the human system. PILLS! PILLS!! PILLS!!!

HEALTH THE TRUEST RICHES.
THE CELEBRATED
Hygeian Vegetable Pills,
Can be had at the State JOHN PRIMROSE,
FAYETTEVILLE STREET, RALEIGH, N. C.

MOAT'S MORISON PILLS.

THE GENUINE HYGEIAN VEGETABLE UNIVERSAL MEDICINE.—Accurately prepared by Dr. H. S. Moat, of New York, from the original recipe used for many years by his late father, Mr. Thomas Moat, Vice President of the British College of Health.

Twenty years' successful administration of these celebrated medicines in Europe, and more than twelve years in the United States, have established their high reputation. Thousands of both sexes, who have been restored to health—the numerous sufferers rescued from premature death—and volumes of certified cases of cure, embracing every disease in the long catalogue of human misery; must convince the most incredulous of their superiority and the truth of the Hygeian theory, resulting from scientific research and experience, namely, that man is subject to only one real disease—Impurity of the blood."

The Medicines being composed entirely of herbs or vegetable matter, purify the blood, and carry off the corrupt humors of the body, in a manner so simple as to give every day ease and pleasure.

Man will be born to days of bliss, compared to what has hitherto been his lot, weighed down as he has been by disease, infirmities, and sufferings which no earthly power knew how to alleviate, until this discovery was presented to the world. The weak, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, and the most obstinate complaints are removed by perseverance without the absence of a Physician. Adapted to all circumstances and situations, they are *the best Medicine ever invented for Families*, or to take to sea, preventing scurvy and costiveness, requiring no change of diet, particular regimen, or care against taking cold.

☞ The prepotency of these medicines, has induced many speculators to attempt imposition on the public, by forging the labels, or forcing their *Imitations* into notice through the medium of the Press.—Some of them pretend to Hygeian principles, by stealing from the writings of the Hygeist, and copying whole pages into their fulsome advertisements.

But as they cannot copy the medicine, their specifics or their deleterious nostrums prove to be unavailing, their puffing and piracy become evident; disappointments to the afflicted is eventual, and with just obloquy the pretenders sink into oblivion.

The Hygeian medicines first introduced into this country by H. S. Moat, in 1836, have for the last four years been prepared by him, and the increasing sale attests their intrinsic merit; they comprise two sorts of Pills, No. 1 and No. 2, in single boxes of each at 25 or 50 cents, and Packets containing both sorts, at $1, $2, or $3. The Vegetable Cleansing Powders, in large boxes, at 37½ cents, with printed directions. Each packet has a fac simile of the signature of H Shepheard Moat, and to prevent counterfeits, are signed with a pen by the district agent and sub-agent on a label of *yellow paper*.

None are genuine unless they have these signatures, and are obtained from sub-agents, who can produce their written appointments from the district agent and whose names are advertised in their respective districts. H SHEPHEARD MOAT,
Principal Office, 50 Canal st.

All orders will be promptly filled at 20 per cent. less than retail prices for all sums over twenty five dollars, for cash.

Some person in every Town and Village, ought to keep this valuable medicine for the benefit of their fellow men. One individual, sent ninety miles to procure them.

RALEIGH HAT Manufactory.

HUGH LUCKEY, Hat and Cap Manufacturer, respectfully informs the Citizens of Raleigh, and the neighborhood generally, that he has established himself permanently in this City, for the purpose of carrying on the above business in all its branches. Hats will be kept constantly on hand, or manufactured to order, of every quality, price and fashion, such as Beaver, Russia, Silk, Cassimere, &c. Panama, Leghorn and Straw Hats cleaned and pressed, to look equal to new. Customers' Hats pressed *gratis*.

H. L. has taken the Shop on Fayetteville Street, next door to Mr. WHITE'S Shoe Store, recently occupied by Dr. JEFFREYS, where he invites the public to call before purchasing elsewhere. *He is determined not to be undersold*, and is perfectly willing that the Hats shall be compared with those from the Northern Factories, either as to their substantial quality, or fashionable shape. All that he asks is a fair trial.

NEWLY INVENTED
TRANSPOSING PIANO FORTES.
No. 348 BROADWAY, NEW YORK.

THE SUBSCRIBERS respectfully inform their friends, and the public in general, that they have just finished a newly invented instrument, called the TRANSPOSING PIANO FORTE, which they now introduce to the Musical community.

This Instrument presents a beautiful, rich and new exterior, and furnishes a tone full, brilliant and melodious. The great advantage derived from this new invention is, that Music may be transposed into any key desired, to suit the vocalist, or for an accompaniment of any other Instrument. It is, therefore, worthy the attention of the Amateur, as well as the Artist.

Mr. BRANDT has kindly offered to act as our Agent in North Carolina, and will be our sole Agent in that State.

A Pattern will always be found at his residence, Raleigh, N. C.

LINDELL, WENNERSTROM & Co.

I have just received a splendid PIANO FORTE, of the above mentioned description, and respectfully recommend it to the citizens of Raleigh, and the public in general. It can be seen at my residence, every day, between four and five o'clock, in the afternoon.

JOHN F. BRANDT,
Professor of Music,
St. Mary's Hill.

Have you a Cough? Don't neglect it!

Sherman's Cough Lozenges, Are the safest, most sure and effectual remedy for *Coughs Colds, Consumptions, Whooping Cough, Asthma, Tightness of the Lungs or Chest*, &c. &c. The proprietor has never known an instance where they did not give perfect satisfaction. Several thousand boxes have been sold with the last year, restoring to health persons in almost every stage of consumption, and those laboring under the most distressing colds and coughs. They do not check and dry up the cough, but render it easy, promote expectoration, allay the tickling or irritation, and remove the proximate or exciting cause. They are made from a combination of the most valuable expectorant or cough medicines, and are undoubtedly superior to everything in use for these complaints. Hundreds upon hundreds of certificates have been offered of their wonderful virtues, from those who have been saved from an untimely grave, and restored to perfect health, by using them.

The above Medicine may be obtained at the Drug Store of Messrs. Williams & Haywood, and of Dr. N. L. Stith, with full directions accompanying each box.

Braudreth's Pills.—We have a few supply—we were about say, of this valuable Medicine—but to those who have tried them, it is unnecessary to say so, and those who have not tried them would be slow perhaps to believe us. It is, however a serious fact, that we could name at least one family, where their regular use for several years past, has made the Physician's visits "few and far between." Our new boxes contain 25 Pills each, the old only have 21. WILL. PECK.

TO THE AFFLICTED.

HADLOCK'S Vegetable Powder and Syrup, for diseases of the Lungs, Bronchitis, Liver Complaints, Coughs, Colds &c. &c.

The above Medicine has been before the public, too long, and is too well known to need a long advertisement, to recommend it. For further particulars, see hand bills and printed directions around each bottle. For sale at the North Carolina Book Store Raleigh.

Worms—Worms—Worms!

Sherman's Worm Lozenges, proved in more than 400,000 cases to be infallible; the only certain worm-destroying anthelmintics ever discovered. Many diseases arise from worms and occasion long and intense suffering and even death, without their ever being suspected; grown persons are very often afflicted with them and are doctored for various complaints, without any benefit, when one dose of these Lozenges would speedily ease them.

MEDICAL LECTURES.

DR. HENDREE will give a regular Course of Medical and Surgical instruction, to prepare those students who wish to visit the Northern Colleges.

All the private Students of Dr. H., six in number, graduated with credit, at the end of their first session, in the Richmond Medical College.

The following Letters are selected from many, in the possession of Dr. H.

Dr. HENDREE: *Dear Sir*: It affords me much pleasure to inform you, that my daughter is permanently relieved by the operation performed by you.—She had been to her distressed mother and myself, a source of the most painful uneasiness for years; having been subject to frequent and violent attacks of croup. During the last twelve months, she has had seven attacks, manifestly increasing her already enlarged tonsils and elongated uvula; and evidently tending to the destruction of her constitution. The slightest cold would bring on one of those attacks. She is now the picture of health, and her voice and wonted vivacity restored. I cannot sufficiently thank you, for the blessing you have conferred on us, in the excision of the organs above named, nor can I do justice to the expedition and skill, with which you performed the operation. Long may you live to enjoy the best blessings of this life, and the consciousness of usefulness to your fellows.

In haste, yours truly,
TH. T. HUNT.

Oxford, Dec. 14, 1842.

Richmond, Va. Nov. 21, 1842.

Dr. J. HENDREE: *My Dear Sir*: I am perfectly willing to state the circumstances of my case. I was born with a rupture of the right side; it was small at first, but by the time I had reached my twentieth year, it was larger than my two fists, and troubled me a great deal; indeed any exercise made me suffer very much. I was often unable to attend to my business from this cause. About this time, a friend told me of your newly discovered operation for the radical cure of hernia, and I applied to you two months afterwards. I cannot describe the operation you performed, but I do not think the painful part of it lasted more than two minutes. You put me upon a course of treatment and at the end of five weeks I returned home, cured. It is now upwards of eleven months since the operation, and I have had no return of my complaint and do not believe I ever shall, for I have taken all kinds of exercise, some times very violent, without the slightest pain or inconvenience whatever. I have seen two other cases permanently cured by your operation in a very short time.

I am very respectfully your friend,
J. C. L.

I am a neighbour of the writer of the above letter and consider his cure perfect. I have also witnessed a number of cases relieved by Dr. Hendree, without any return of the hernia ever having taken place. I do not regard his singular mode of operating as at all dangerous.
G. D. HAMILTON.

Dr. HENDREE: *Dear Sir*: For more than two years, my wife was afflicted with a stricture in the throat, which rendered swallowing so difficult and painful, that at times she could scarcely take sufficient nourishment to sustain life. After remaining under your care for six weeks, the stricture was entirely removed, and she is now in the enjoyment of perfect health.

I remain very truly, yours,
R. L. BRANDAUN.

PETERS' PILLS

THESE UNRIVALLED PILLS having now acquired a celebrity and a popularity unequalled in the annals of Medicine, and also having obtained the entire confidence, and being used in the private practice at almost the whole body of the Medical Faculty in the United States, Europe, Asia, South America, the West Indies, and a great part of Africa, it is unnecessary to advertise them at length, or to say any thing further of their merits, than by stating the complaints which they are most effective in the cure of, and which are as follows:—yellow and bilious fevers, fever and ague, dyspepsia, croup, liver complaint, sick head-ache, jaundice, asthma, dropsy, rheumatism, enlargement of the spleen, piles, colic, female obstructions, heart burn, furred tongue, nausea, distensions of the stomach and bowels, incipient diarrhœa, flatulency, habitual costiveness, loss of appetite, sloven or sallow complexion, and in all cases of torpor of the bowels, where a cathartic or an aperient is needed. They are exceedingly mild in their operation, producing neither nausea, griping nor debility.

The above Pills are for sale in the city of Raleigh by Messrs. Williams & Haywood, and at the Drug stores of N. L. Stith, and in Fayetteville by E. J. Hale, at New York Prices.

"DISEASE A UNIT"

Impurity of the BLOOD the only Disease.

HOW simple, yet how much good and beautiful are all the laws of nature! Simplicity and truth are stamped upon every law of the creation. The mighty worlds which roll in space in a degree of velocity and direction are all governed by *attraction of matter to matter*. This principle governs the human body. Brandreth's Vegetable Universal Pills, attract all impurities of the blood to the bowels, which organ expels them from the body. Attraction and disease are both units. All accidents or infectious only affect the body in proportion as they occasion impurity of the blood.

The bowels for instance are costive—this most important organ is closed—the consequence is a great accumulation of impurities, which, as they cannot get out by their usual passage, are forced into the blood, occasioning impurity of blood. Thus fevers, Chicken pox, Measles, Coughs and Colds are often produced. But by Brandreth's Pills be used in such doses as will effectually evacuate the bowels, and health is restored at once.

The unworthy have counterfeited the Doctor's Medicine so extensively, that his Traveling Agents are now taking in all the old boxes, and putting new ones of a different figure, with 25 Pills in their place. Some are just received at WILLIAM PECK'S Office.

NEPTUNE DEPOT.

FRESH OYSTERS and FISH!
NEW ARRANGEMENT.

THE Subscriber begs leave respectfully to inform the Citizens of Raleigh, and the adjoining neighborhood, that OYSTERS will come regularly, from the state, EVERY DAY IN THE WEEK, (Tuesday excepted.) Oysters not receiving here regularly through the Steamers, were in part owing to late vessels changing hands. They will now come regularly as heretofore, on the days above stated. He hopes the citizens will continue to patronize the Depot, for they may rely upon Oysters FRESH, as my word is my bond. For parties, I shall always be best without notice. I have made arrangements to have FISH from Norfolk, three times a week, (weather permitting) all the winter and spring season, and will be supplied next week with a lot of *SPANISH OYSTERS*, of the largest quality, from Norfolk, which is the Cheapest, especially for Families and Hotels. The Subscriber has a large Cellar for Oysters to keep for months. JOHN WHITAKER.
