The facetious correspondent of Porter's Spirit of the Times, gives the following description of a scene in Louisville. It is characteristic of old Kentuck :

You have enjoyed the hospitality of the citizens of Louisville, and other portions of old Kentucky, I need not therefore tell you their houses have large front doors. They are a broth of a people, but they have a fault which is almost a virtue-'tis their strong belief in their women, men, horses, cattle and dogs. OW simple, yet how wise, how good and beautiful are all the laws of nature? Simplicity and truth are stamped upon every law of the creation -The mighty worlds which roll in space in every degree of velocity and direction are all governed by at traction of matter to matter. This principle governs the human body. Brandreth's Vegetable Universal Pills, attract all impurities of the blood to the bowels, which organ expels them from the body. At traction and disease are both units. All accidents of infections only affect the body in proportion as they

occasion impurity of the blood. The bowels for instance are costive—this most important organ is closed—the consequence is a great accumulation of impurities, which, as they cannot get out by their usual passage, are forced into the blood, occasioning impurity of blood. Thus Fevers, Chelics, Rheumstism, Coughs, and Colds are often produced. But let Brandreth's Pills be used in such de ses as will effectually evacuate the bowels, and health

is restored at once. The unworthy have counterfeited the Doctor's Medicine so extensively, that his travelling Agent is now taking in all the old boxes, and putting new ones of a different figure, with 25 Pills in their place. Some are just received at WILLIAM PECK'S Office.
