To the American Public.

MERCHEMENT in whatever regards the happi averand welfare of our race is constantly on the march so perjection, and with each succeeding day same trem problem is solved, or some profound secret revenied: baving an important and direct touring over men's highest distinion. If we take a vetrost visit over the past twenty years, how is the mind struck with stonder h.: What capid strides has science lativ in that which relates to the knowledge of the ligaring system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does the amagination kindle and our admiration glow as the incorporate the pear approach to the standard of the ingularity, the near approach to the standard of perfection, of the present time! Through the claborate investigations of Physiology, or the science of lars, and the fath-logy of prevalent diseases, much valuable practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies have been sought after and discovered exactly ad speed to combine with, neuand submittee healthy action in its place. The beautiful simplicity of this mode of treatment is not only suggested by the parhology of disease, not only grate-ful to the sufferer, but periodly in consonance with the operations of Nature, and savidactory to the views and reasonings of every intelligent, reflecting mind It in thus that Banns' Sans passietz, al scientific nation of essential principles of the most valuable vegetable substances operates upon the system. The Saraperille is combined with the most effective aids, the most salutary productions, the most potent imples of the vegetable kingdom; and its unprecedented success in the restaration to health of those who had long pined under the most distressing chrona maladies, has given it an exalted character, for- ment is very complete, and well worthy to be recomnishing as it does evidence of its own intrinsic value. and recommending it to the afflicted in terms the of flicted only can know. It has long been a most important desid-ratum in the practice of me icine to obtain a temedy similar to this—one that would act on the fiver, stomach and bowels, with all the precision and potency of mineral preparations, yet without any of their deleterious effects duon the vital powers of the system.

The attention of the reader is respectfully called to the following certificates. However great achievement have heretofore been made by the use of this invalua-ole medicine, yet daily experience shows results still m ere sein uliable. The proprieture here avail themconstant satisfaction that they are made the means of relieving such an amount of suffering

NEWARE, N. J., Dec. 13, 1842. Messrs, Sands: Gent - Words cannot express the grati ude I feel for your treatment to me, a stranger, suffering under one of the most losthsome diseases that nature is capable of bearing. The disease with which I was afflicted commenced with inflammation of the eyes, in the year 1836, which caused aim at title eas. Furthis I was treated and finally reflered but the remedies were such as to cause the develope ment of a scrafulous affection on my left arm near the

ME'by pale extended from the shoulder to the and of my higers, and for two years my sufferings with borond description. I tried sarious roundies and consuited different Physicians in New York, and amongst them the late Dr. Bushe, who told me the disease of taken to care the inflammation of my eyes.

My sufferings continued, the sear enlarged tumors formed in different places, and in a few months discharged, making ten running alcers at one time some above and some helow the elbow, and the discharge was no offensive that no person could hear to be in the PORTER, ALE, WINES AND FRENCH CORroom where I was I then applied to another distinwas the only thing that could save my life, as it was impossible to cure so dreadful a disease; but as I was unwilling to come it to it be recommended me to use Swaim & Panaces freely, which I did without deriving but little ben-fit. " For three years I was unable to raise my hand to my head or comb my hair, and the scrofula naw made its appearance on my head, de-stroying the bone in different places, causing exten-sive efforations, and I feared it might reach and de-stroy the brain—the head swelled very much, ac-companied with violent pain, numerous external remedies were recommended, but did no good. About a vensulant I was taken severally ill with a swelling of the budy from head to first, so that I was entirely helphon, the Ductor advised me to go to the hospital, for he did not understand my case, for the last few months I had been afflicted with a severe pain on both sides, at times so hard I could scarcely get my breath A backing cough constantly annoyed me, and this combined with my other maladies rendered me truty miserable. Fuch, gentlemen, had been my situation for seven years of my life when I com nepced the use of your Sarsaperilla, but as my case was considered hopeseemed inevitable, I felt but but encouragement to persevere. The persuasion of friends in luord me to try your medicine, which in a few days produced a great change in my system generally, by causing an apperite, relieving the pains, and giving me strength; as success inspires confidence. I was encouraged to per evere, my pains grew easier my strength returned food relished, the ulcers healed, new flesh formed, and I once more felt within me that I might get well." have now used the Sarsaparilla about two months, and am like a different being: The arm that was to be amputated has entirely healed, a thing that seemed impossible. I can scarcely believe the evidence of my own eyes, but such is the fact, and it is now as need ful as at any period of my life, and my general health huest fancy toys of all sorts. &c. is better than it has been for years past.

Beath & what magic in the word! how many thousands have wought to in foreign lands and sunny climes, and have sought in vain! Yet It came to me when had been given up to die, and as I feel the pulsations of health coursing through my voins my whole heart and soul go forth in fervent gratitude to the Author of all our sure mercies, that he has been staclously pleased to bless the means made use of. "Truly have you proved yourself the good Samuritan to the afflicted. he next to my Creator my I fe is indetted to you (or. rather) the use of your invaluable Sarsaparilla. The money cannot pay for it. I have been raised from death I may say, for my friends and myself the is impossible I could recover. And new, gentlemen, suffer me to add another proof, certified too, by my friends and guardians, as a just acknowledgment of the virtues of your health-restoring Sursaparille. That the afflicted may slee use it, and enjoy the benefits it al me can confer, is the heartfest, fervent wish of their and your friend. MARTHA CONLIN

IMPORTANT TO MISSAUS PROPERTY HAY SON A BONE DESIGNATION AND bindt Machine. This marking is constructed upon the principal of a reliber, beaver and blower combined. The object of marking and blower combined. a strong current of mind as it is beams, the fifth and all extrane has matter being blown off as fast as supprised from the grain; if then pusses under a scroll screw-plate and the desired amount of pressure, is of fected by a lever and maight, regulated at the will of the miller. The grain under the plate is from one to four inches deep, confined and in motion; it necessarily creates a friction upon itself, and consequently breaks every substance abfter, and polishes the surface. It then passes into a tube at an angle of forty-five de-grees of confined wind, and every substance whose specific gravity is not as great as the wheat, is separa-ted by spertures in the tube. This machine is extensively used in the North States and District of Columbias I have also many in operation in this State. Whatever they been been put into operation; they have invariably given actisfaction. I deem it unnecessary to say more in behalf of this mechine, but submit a few of the many Certificates I have obtained in J. B. BARRETT. its favor. May 5.

\* All orders addressed to me at Raleigh, will he promptly attended to.

Chatham, January 4, 1843. I take pleasure in stating to the public, that I have one of Mr. Barrett's Garlic and Smut Machines now in operation in my mill, and that it cleans wheat and prepares if for grinding superior to any Machine I have ever weed in operation; not having any of the garlie seheat in mill. I have not been able to test the power of the Machine upon that troublesome pest, but helieve that under proper management it will effectually remove it, and prepare the grain for grinding. I sulf further state, that I believe it to be the most economcal wheat denning machine ever introduced into this section of country, as it removes the fith without maste or loss of grain. I have observed, since I have had this machine in operation, that the ground meal bults much better, and the quality of the flour has been greatly improved. ISAAC CLEGG. greatly improved.

I take pleasure in saying that I have had one of Mr. Barrett's Muchines in operation, in one of my Mills for 3 or 4 months, and that I fully concur with Mrs Clegg, in all the particulars set forth by him alone, selective to the Machine. January 9, 1843 . . . . . . C. F. PAUCETT

Garnell County, Jun 10, 1843. To ALL WHON IT MAY CONCERN. - This is to cerify that I have used one of Mr Barrett's Garlie and Smut Machines, for the last 6 months in my Mills, and can with confidence recommend it to the public. as the test Machine for cleaning wheat that I have ever seen, and cleans with less loss of grain, its construction being both simple and durable. RICHARD YARBROUGH.

Having examined Mil Barrett's Smut and Garle Machines, seperate and apart, and in full operation take theseure in recommending them to the public, as the best for cleaning wheat I have over seen. The construction of them is both simple, and durable requiring less power and motion than any other that has come under my observation, which I deem a decided advantage over all others. JOHN T. DODSON.

Orange County, Enoc Mills, Jan. 1848 I have been using one of Mr. Barrett's Garlick and Smut Machines eight or ten months, and have cleaned Wheat containing every variety of fifth. Its perfurmance is highly satisfactory to myself and cust mers, as it removes the extraneous substances without the loss of grain, and purifies wheat, superior to any thing I have ever seen. I have cleaned several hundred bushels of wheat for seed, for my neighbors and gentlemen from a distance, and am fully satisfied that he crops produced from it, must be much improved. Knowing these facts, I cheerfully recommend it to the public, as an appurtenance which will soon pay for tself, in manufacturing Mills. THO. W. HOLDEN.

Chapel Hill, Jan. 14, 1842 I have a Machine of Mr Barrett's in my Mill, and can with pleasure, recommend it to the public, as it cleans wheat better than any thing I have ever seen, and man of taste. I had the best streen and fan that I could procure .-This machine expersedes them as it performs to smut choice of two routes to the White Sulphur Springs, wheat and that affected by the weavel and chest, what with an assurance that all shall be sent on—two lines no screen or fan can do, by removing such fifth, with-KENDALL B. WAITT. out a waste of grain. Drange County, April 18, 1843.

Having purchased one of Mr. Barrett's Wheat Cleaners, and put it in successful operation in my mill. f consider it but justice to him, to say that it prepares Wheat afflicted with all kinds of fifth, and in all conditions, for grinding, superior to any thing I have evumns, that a core has been at length discovered for the | er known in use, without a loss of grain. My Flour bolts freer, and is much better, since using this Machine. I believe it to be a very valuable improvement

Falls of Neuse River, May 2, 1843. Having purchased, and for the last three months wed, Barrett's Garlie & Smut Machine, for cleaning Wheat in Mills. I feel no hesitation in recommending it to Millers, generally, as a most important and use-ful invention for the purpose of cleaning and purify-ing Wheat for Grinding. It completely separates the Wheat from all lighter and softer substances. The ground Meal, boits much faster, and certainly much improves the Flour in quality and quantity. JAMES D. NEWSOM.

Cane Creek, May 16, 1843. I cheerfully concur with Mr. Newsom, in the above statement, having purchased and used one of Mr Barrett's Machine for the last six or eight months; believe it to be a very valuable invention for all Merchant Mills. JAS. WHITEHEAD. President of Cane Creek Factory

SHERIFF'S SALE.

THE following TRACTS OF LAND will be Town of Rockingham, Richmond County, on the 3d sble to himself. He therefore hopes his friends and Monday in July next, or so much thereof as will sat- the public will try him and give him a chance to earn isfy the Taxes that are due on said Tracts up to the bis bread by the sweat of his brow. Year 1841.

PACKET BOATS For Scottsville and Lynchburg.

UR Mail Packet Boats, JOHN MARSHALL Capt Holt, and J. C. CABEL, Capt. Huntlev. will leave Richmond from our landing, at the head of the Basin, for the above places, on Mondays, Wednesdays and Fridays, at 8 n'clock, A. M. precisely, and arrive at Scottsville by 1 A. M. next day, and into Lynchburg by 7 P. M. BETURNING.

STRUCTURE ASSESSED BERNEVER.

days, at 7 A. M. and arrive at Scottsville by 10 P. M. and into Richmond next day by 4 P. M. By this atrangement, passengers for Tennessee and Guyandotte, will not be detained in Lynchburg, as heretofore. Our Boats will also connect with the

lines of Stages from Scottsville to Staunton. This is now the cheapest and best route to the dif. ferent Visginia Springs, and offers many other inducements to travellers for preference.

The invalid will be pleased with his easy, comfortable and safe passage; the beautiful and remantic scenery will delight the admirers of nature, and the rich, far famed and highly cultivated James River low grounds and highlands, will gratify the agriculturist

On their arrival at Lynchburg, Passengers have a of Stages running over the Natural Bridge and by Dibbret's Springs, and the other by Liberty, Fincaste

and the Sweet Springs. EDMONDS & DAVENPORT Richmond, June 8, 1843

TOTICE-JOHN J. UPCHURCH respectfully informs the Citizens of Raleigh and its Vi cinity, that he has taken a Shop on Morgan Street a few doors above Wm. F. Clark's Coarh Shop, and nearly opposite the Masonie Hall, and is prepared to execute any work in his line of business : Such as Engraving, Letter Cutting, Brand and Stamp Making, Gun and Lock Smithing, Bell-Hanging, Brass Castings, Canes neatly mounted, Repairing Umbrellas, 4c, 4c. He will also carry on the Electro Magnetic Gilding and Silvering in all its various branches, -on all small metallic articles, such as Pencil and Watch cases and Chains, Spectacles Spoons, Mathematical Instruments, Dentiata' Instruments, Castors, &c. In Silver Coach Plating, his style of workmanship is unsurpassed; being far superior both in beauty and durability to any thing of the kind ever before offered to the inspection of the public. Specimens of the art may be seen at his Shop. He will furnish any person, wishing to learn the art of Gilding & Silvering, an apparatus and instructions, on terms suitaperson in the State, by letter, and give the full receipt

for the art, so they connot misunderstand it. and siso an apparatus if desired. All of the above will be executed in the neatest manner and at the shortest notice, on reasonable terms. The Subscriber tendere his thanks to the public for past favors, and solicits further encouragement, as he is very destrous of establishing himself in a lusioffered for sale at the Court House door in the ness that will be useful to the community and profit
