VALUABLE ROANOKE LAND FOR SALE. FITHE Subscriber would sell, privately, his two Farms on the North Bank of Roanoke river. lying in the county of Warren, North Carolina, immediately above and below Robinson's Ferry, each containing upwards of 1000 acres, 400 or upwards being river low ground, of as good quality as any on the river, it is believed. Those two Farms are in fine cropping cendition, great pains having been taken for the last few years to improve them every way.

The subscriber will not puff, through this advertisement, the above valuable tracts of Land, as they need no effort of the sort, thinking it probable that those persons wishing to purchase will view the lands: he is content to leave them to speak for themselves. The terms on which he would sell the above Farms will be liberal every way, and he invites an inspection of his winds by those wishing to purchase before buying elsewhere.

My friends John B. Thrower, John H. Lewis, and D. J. Claiborne, Jr. of Brunswick county, Va. will take pleasure in showing the above lands to any persons wishing to view them, or give any further information in reference to them that may be wished CLACK ROBINSON.

To the American Public.

MPROVEMENT in whatever regards the happi ness and welfare of our race is constantly on the march to perfection, and with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing over man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder! What rapid strides has science made in every department of civilized life! particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does the imagination kindle and our admiration glow a the ingenuity, the near approach to the standard o perfection, of the present time! Through the elabor rate investigations of Physiology, or the science of LIFE, and the Pathology of prevalent diseases, much valuable practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies have been sought after and discovered exactly adapted to combine with, neutralize and expel morbific matter, the cause of disease, and substitute healthy action in its place. The beautiful simplicity of this mode of treatment is not only suggested by the pathology of disease, not only grate ful to the sufferer, but perfectly in consonance with the operations of Nature, and satisfactory to the views and reasonings of every intelligent, reflecting mind. It is thus that SANDS' SARSAPARILLA. a scientific combination of essential principles of the most valuable vegetable substances, operates upon the system. The Sarsaparilla is combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intrinsic value, and recommending it to the afflicted in terms the afflicted only can know. It has long been a most important desideratum in the practice of medicine to obtain a remedy similar to this-one that would act on the liver, stomach and bowels, with all the precision and potency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system.

The attention of the reader is respectfully called to the following certificates. However great achievements have heretofore been made by the use of this invaluaple medicine, yet daily experience shows results still more remarkable. The proprietors here avail themselves of the opportunity of saying, it is a source of constant satisfaction that they are made the means of relieving such an amount of suffering.

NEWARK, N. J., Dec. 13, 1842.

Messrs, Sands: Gent. - Words cannot express the grati ude I feel for your treatment to me, a stranger, suffering under one of the most loathsome diseases that nature is capable of bearing. The disease with which I was afflicted commenced with inflammation of the eyes, in the year 1836, which caused almost tota blindness. For this I was treated and finally relieved, but the remedies were such as to cause the develope ment of a scrofulous affection on my left arm near the

"The pain extended from the shoulder to the end of my fingers, and for two years my sufferings were peyond description. I tried various remedies and consulted different Physicians in New York, and amongst them the late Dr. Bushe, who told me the disease of the arm was caused by the large quantity of mercury taken to cure the inflammation of my eyes.

My sufferings continued, the arm enlarged, tumors formed in different places, and in a few months discharged, making ten running ulcers at one time, some ab me and some below the elbow, and the discharge was so offensive that no person could bear to be in the room where I was. I then applied to another distinguished Physician who told me amputation of the arm was the only thing that could save my life, as it was impossible to cure so dreadful a disease; but as I was unwilling to consent to it he recommended me to use Swaim's Panaeea freely, which I did without deriving but little benefit. " For three years I was unable to raise my hand to my head or comb my hair, and the scrofula now made its appearance on my head, destroying the bone in different places, causing extensive ulcerations, and I feared it might reach and destroy the brain-the head swelled very much, accompanied with violent pain, numerous external remedies were recommended, but did no good. About a year since I was taken severely ill with a swelling of the body from head to foot, so that I was entirely helpless, the Doctor advised me to go to the hospital for he did not understand my case; for the last few months I had been afflicted with a severe pain on both sides, at times so hard I could scarcely get my breath. A hacking cough constantly annoyed me, and this combined with my other maladies, rendered me truly miserable Such, gentlemen, had been my situation for seven years of my life when I commenced the use of your Sarsaparilla, but as my case was considered hopeess, and the near prospect of a speedy dissolution seemed inevitable. I felt but little encouragement to persevere. The persuasion of friends induced me to try your medicine, which in a few days produced a great change in my system generally, by causing an apperite, relieving the pains, and giving me strength; as success inspires confidence, I was encouraged to persevere, my pains grew easier, my strength returned, food relished, the ulcers healed, new flesh formed, and I once more felt within me that I might get well. have now used the Sarsaparilla about two months, and am like a different being. The arm that was to be amputated has entirely healed, a thing that seemed impossible. I can scarcely believe the evidence of my own eyes, but such is the fact; and it is now as useful as at any period of my life, and my general health

is better than it has been for years past. Health! what magic in the word! how many thousands have sought it in foreign lands and sunny climes, and have sought in vain! Yet it came to me when I had been given up to die, and as I feel the pulsations of health coursing through my veins my whole heart and soul go forth in fervent gratitude to the Author of all our sure mercies, that he has been graciously pleased to bless the means made use of. "Truly have you proved yourself the good Samaritan to the afflicted. for next to my Creator my life is indebted to you (or rather) the use of your invaluable Sarsaparilla. The value of such a medicine is countless beyond price, money cannot pay for it. I have been raised from leath, I may say, for my friends and myself thought next Term, of this Court, to be held at the Court h impossible I could recover. And now, gentlemen, suffer me to add another proof, certified friends and guardians, as a just acknowledgment of the virtues of your health-restoring Sarsaparilla. That the afflicted may also use it, and enjoy the benefits it alone can confer, is the heartfelt, fervent wish of their of your excellent Liniment? It is certainly the best and your friend.

NEW YORK, Feb. 9, 1842. Dear Sir-Will you oblige me with another bottle of the kind I have ever seen. It has cured entirely my son's knee, about which I was so uneasy, and I have found it productive of immediate relief in several cases of external injury in my family. A few evenings since my youngest child was seized with a violent attack of croup, which was entirely removed in twenty minutes, by rubbing her chest and throat freely with the external remedy. I think you ought to manufacture this Liniment for general use, instead of confining the use of it, as you have heretofore done, to your particular acquaintances.

Yours traly, G. W. SANFORD. Dr. B. Brandreth, 241 Broadway, N. Y.

PACKET BOATS

For Scottsville and Lynchburg.

Commine arinar Giruley.

OUR Mail Packet Boats, JOHN MARSHALL, Capt. Hull, and J. C. CABEL, Capt. Huntley, will leave Richmond from our landing, at the head of the Basin, for the above places, on Mondays, Wednesdays and Fridays, at 8 o'clock, A. M. precisely, and arrive at Scottsville by 1 A. M. next day, and into Lynchburg by 7 P. M. RETURNING. Leave Lynchburg, Mondays, Wednesdays and Fri-

days, at 7 A. M. and arrive at Scottsville by 10 P. M. and into Richmond next day by 4 P. M. By this arrangement, passengers for Tennessee and Guyandotte, will not be detained in Lynchburg, as heretofore. Our Boats will also connect with the

lines of Stages from Scottsville to Staunton. This is now the cheapest and best route to the different Virginia Springs, and offers many other inducements to travellers for preference.

The invatid will be pleased with his easy, comfortsble and safe passage; the beautiful and romantic scenery will delight the admirers of nature, and the rich, far famed and highly cultivated James River low

grounds and highlands, will gratify the agriculturist and man of taste. On their arrival at Lynchburg, Passengers have a choice of two routes to the White Sulphur Springs, with an assurance that all shall be sent on-two hies. of Stages running over the Natural Bridge and by

Dibbret's Springs, and the other by Liberty, Fincastle and the Sweet Springs. EDMONDS & DAVENPORT'. Richmond, June 8, 1843
