

For the Presidency of the United States, HENRY CLAY, OF KENTUCKY.

RALEIGH, N. C.

Tuesday, September 26, 1843.

POPULAR EDUCATION.

It must be humiliating to the pride of every true son of the Old North State, to witness the jeering derision in which our venerated old Mother is spoken of by the Press in other parts of the Union, for her ignorance, and the destitution of the mental culture of her citizens.

"In life's low vale remote, to pine alone / Then drop into the grave unlighted and unknown."

An esteemed Correspondent from the Eastern part of the State, in a recent Communication which we published, urged upon us to take this matter in hand, and as we have broached the subject, we may refer again and again to it.

The "Newbernian," has the following just remarks in reference to our patriotic and intelligent Candidate for Congress in the recent campaign:—"We publish in another column to-day, the letter of H. W. Miller, Esq. the late Whig candidate in the Wake District, in reply to a letter of invitation to a public dinner by the Whigs of Wake Forest. Mr. M. does not deal in soft words; he speaks plainly, and like a man who believes what he says."

A correspondent of the Charleston Courier, states that a rough-draft of the celebrated, "Sunday-mail Report" has been discovered among the papers of the late Judge Cooper, of Columbia, S. C. in that gentleman's hand writing.

The Globe mentions a rumor that a portion of the \$40,000 appropriated by Congress for the China mission, has been purloined—and it more than hints that an extensive system of forgery and official peculation exists, in at least one of the Departments.

"THE SENATOR OF HIS PARTY" ON THE BANKRUPT ACT.

The Editor of the Standard last year said, that Democracy and demagogism were inseparable. We have never expressed so harsh an opinion; and we had thought the proposition was not true. We had thought that at least Mr. Haywood was an exception. But since his speech at Charlotte, we do not know what to think.

Now we do not choose here to advocate the policy of that Law. It may not have answered the expectations of those who passed it. It may, for aught we know, have been abused by some who unworthily took advantage of its provisions.

In 1827, Mr. Van Buren voted for a Bankrupt Law—and one too, with the "cheating clause," retroactive in its operation, and not extending its benefits to farmers or mechanics.

It is a rule, the sacred observance of which is indispensable to the well being of society, that Government should never interfere with private contracts even when the authority to do so is conferred by the Constitution, except upon the ground of evident public necessity.

Such a law would be decidedly more objectionable than the law of 1840. Col. Johnson, in a letter dated Jan. 13, 1843, replying to an enquiry, states his views fully—in which he first discusses the constitutionality of a Bankrupt Law, of which he has no doubt.

Through this vast domain and with their various pursuits, bankruptcies must always exist, and it is the duty of the Government to make such provisions as will be calculated to give the greatest possible relief that can be given, consistently with the principles of justice.

Credit in trade is based upon confidence in the success of him who obtains it, and ought not in any degree to depend upon a contingent right which the creditor may claim on the liberty of the future independence of the debtor.

The Senator has mistaken his men. He has carried his scales to the wrong market. They are hard to fool—those mountain men. And the Senator will find out his error, before he has "seen" much of the country west of Charlotte.

It is to stifle in him all spirit of enterprise, and to bind him and family down to perpetual poverty, without the slightest prospect of benefit to his creditors or to society. A punishment like this, without the conviction of guilt, is too revolting to my feelings to give it any sanction; and it never ought to exist in a free or civilized country.

The interest of the debtor, the interest of the creditors, the interest of society, and the glory of our country, all conspire to sanction the measure. The object of Government ought always to be the mitigation of human misery, and the advancement of human happiness, as far as possible.

The Whisky Rebellion.—The Philadelphia Sun recommends a tax on all home-made spirits, consumed or manufactured in Pennsylvania; and says it would pay the interest on the State Debt, as well as absorb the principal.

From the Salisbury Watchman. DINNER TO JUDGE GASTON. Seldom has it fallen to our lot to record a "brighter passage in human life," than occurred in our Town on Wednesday last, on the occasion of a dinner given by the members of the Bar attending Rowan Superior Court.

And yet the "Senator of his party" talks about the Bankrupt Law, and the cheating clause of the Bankrupt Law, and asks "what did the Whig people of the West gain by this?" We do not know much about the finances of the "Whig people of the West," and therefore cannot say whether they "gained" or lost by the law.

NEW COTTON. The first new Cotton received in this market, was brought on Friday last, from the plantation of Mrs. White of Richmond County, and was sold at 64 cents. It is of prime quality.

BLUSHING.—We love to see the rosy hue mounting over the neck and face of a beautiful woman; it shadows forth, delicately and suitably, the gentle feelings of the soul.

HUSBAND. The etymology of this word may not be generally known. The head of a family is called husband, from the fact that he is, or ought to be, the bond which unites the home together—the bond of union among the family.

We hope for the honor of the good old North—for his own honor—to save his party from contempt—that the gentleman has made no more such miserably demagogical displays as he is reported to have made at Charlotte. We do hope most sincerely, that the "Jeffersonian" gave an incorrect account of the matter, and that he will yet come out over his own name, and pronounce that which he said, well intended perhaps, but most offensive in fact.

VERY LATE FROM EUROPE. By the steam-packet Calcutta, arrived on Wednesday at Boston, we have London dates to the 4th and Liverpool to the 5th instant.

The season of Parliament was brought to a close on the 24th ult. by a speech from the Queen in person. The speech, except in reference to the affairs of Ireland, is without interest.

The Prince de Joinville and the Duke d'Angoulême had made a short visit to the Queen of England, being despatched thither by the King of the French to invite her Majesty to visit France on her contemplated excursion by sea, with which request she complied, and was received on the afternoon of Saturday, the 2d, at Treport by the King of the French and family with great eclat.

The agitation in Ireland continues in undiminished violence. O'CONNELL has propounded his "Plan for the renewed action of the Irish Parliament."

The cotton market has improved.

THE WHISKY REBELLION.—The Philadelphia Sun recommends a tax on all home-made spirits, consumed or manufactured in Pennsylvania; and says it would pay the interest on the State Debt, as well as absorb the principal.

THE SAD TRUTH.—O! how difficult it is to engrave on our hearts the sad truth, that all we possess upon earth is only lent to us for a time, and for a short time; that to-morrow, perhaps, the object of our dearest affections may be a corpse; and all that our soul has made a support of, a source of joy and happiness, shall be confounded with the dust of the earth!

Seldom has it fallen to our lot to record a "brighter passage in human life," than occurred in our Town on Wednesday last, on the occasion of a dinner given by the members of the Bar attending Rowan Superior Court, in compliment to the highly distinguished gentlemen whose name stands at the head of this article.

RAIL ROAD NOTICE.—On and after to-morrow, the 24th inst. the Train will leave the Depot at 8 o'clock A. M. until further notice.

COTTON BAGGING, 2 cents to the yard; and good Blue Rope; offered at a small profit for the Cash.

Roanoke Navigation Company. The Annual meeting of the Roanoke Navigation Company, will be held at Weldon on Wednesday the first of November next.

UNIVERSITY OF MARYLAND. MEDICAL DEPARTMENT. THE ANNUAL COURSE OF LECTURES in the Medical Department of the University of Maryland will commence on the last Monday of October next, and be continued till the first day of March following.

THE well known advantages of the University of Maryland, its spacious halls, its unrivalled apparatus, the abundant and cheap materials for the pursuit of the practical anatomy afforded by the city of Baltimore, and the ample resources of the valuable Museum belonging to the College, leave nothing to be desired by those who attach themselves to it as students of the various departments of medical science.

THE lessons of the Professors of Surgery, of the Practice of Physic, and of Therapeutics will be illustrated by daily clinical instruction in the wards of the Baltimore Infirmary. This institution, which is connected with the College and in its immediate vicinity, presents at all times a number and variety of cases amply sufficient to afford to students an acquaintance with the practical application of the principles of Medicine and Surgery.

THE Professors of the several branches, thus provided with all the necessary and desirable means of aiding students of medicine in the acquisition of a thorough professional education, will make every exertion to promote the interest of their pupils, and to prepare them properly for the arduous and miscellaneous duties of the medical profession.

AN INCIDENT IN GEORGIA.

Some two years ago the writer of this article stopped at a town in one of the Southern Counties in Georgia. Strolling about, he entered the grave yard. From a small but chaste obelisk, he read this inscription:

MOTHER'S MEMENTO TO THE MEMORY OF AN ONLY SON WHO FELL AT THE MASSACRE OF FANNIN'S REGIMENT IN MEXICO.

He felt an interest to learn the history of its erection. The story was briefly this. A youth of nineteen, the only son of a widowed mother—a boy whom she loved with all the fondness of maternal affection—was returning to his home from the University of Virginia, at the time Fannin was raising his regiment of Georgians for the Texian service.

Judge of the mother's feelings when she read this letter. Without an instant's hesitation she departed for Charleston, in hopes to overtake her truant boy. Unfortunately the schooner lost her foremast; and when the mother reached Texas, she found the regiment had marched a week before for the scene of conflict.

Gordon D. Boyd, Mr. Van Buren's Receiver of Public Moneys in Mississippi, who robbed the Treasurer of \$100,000 and then resigned his office, has since been repudiating Loco Foco membership of the Legislature of Mississippi.

THE SAD TRUTH.—O! how difficult it is to engrave on our hearts the sad truth, that all we possess upon earth is only lent to us for a time, and for a short time; that to-morrow, perhaps, the object of our dearest affections may be a corpse; and all that our soul has made a support of, a source of joy and happiness, shall be confounded with the dust of the earth!

The Rev. Amos Lefevre, who about six or seven months ago, was charged with the seduction of a young girl, one of his congregation, under most aggravated circumstances, has been tried in Bradford county, Pa. where the circumstance occurred, and convicted of administering poison to Miss Woodburn, with an intent to murder her.

ONE of two courses must be pursued by me in the sale of my Piano Forte. I must either adopt the common practice, with many dealers in order to raise the character of my own, or I must do as I have been endeavoring to do for eight years past, get the public to form their own opinion by trying my instruments. The former is a course I have never adopted, and never shall; the latter I have tried and found to work well. I believe that my Piano Forte are at least equal to any made in this or any other country that I have heard of; but that opinion being an interested one, I do not ask the public to depend upon it, alone, and simply beg of them to test the matter by actual trial. Any person desiring to purchase a Piano, can take mine upon trial, and without payment until they are proved the instrument.
