"LIKE ORIENT PEARLS AT RANDOM STRUNG."
From the London Despatch.
THERE'S A STAR IN THE WEST.
There's a star in the west that shall never go down
Till the records of valour decay;
We must worship its light—'tis not our own,
For forty bursts in its ray:
Small the name of a Washington ever be heard,
By a freeman and thrill not his breast?
Is there one out of bondage that hails not the word
As the Bethlehem star of the West?

"War, war to the knife, be enthralled or ye die!"
Was the echo that waiked in the land;
But it was not his voice that prompted the cry,
Nor his madness that kindled the brand;
He raised not his arm, he defied not his foes,
While a leaf of the olive remained,
Till goaded by insult, his spirit arose,
'Like a long baited lion unchained.

He struck with firm courage the blow of the brave,
But signed o'er the carnage that spread,
He indignantly trampled the yoke of the slave,
And wept for the thousands that bled,
Though he threw back the fetters and headed the strife,
Till man's charter was fairly restored,
Yet he prayed for the moment when freedom and life
Would no longer be pressed with the sword.

Oh! his laurels were pure, and his patriot name
In the page of the future shall dwell,
And be seen in all annals the foremost in fame,
By the side of a Hofer and Tell.
Revive not my song, for the wise and the good
Among Britons have nobly confessed,
That his was the glory and ours was the blood,
Of the deeply stained fields of the West.

WEDLOCK.
"As spiders seldom seek the fly,
But leave him of himself to apply,
So men are by themselves employed
To quit the freedom they enjoyed,
And run their necks into a noose
They'd break them after to break loose."
Hudibras.

PILLS! PILLS! PILLS!!!
HEALTH THE TRUEST RICHES.
THE CELEBRATED
Hygeian Vegetable Pills,
Can be had at the Store JOHN PRIMROSE,
FAYETTEVILLE STREET, RALEIGH, N. C.
MOAT'S MORRISON PILLS.

THE GENUINE HYGEIAN VEGETABLE UNIVERSAL MEDICINE—Accurately prepared by Dr. H. S. Moat, of New York, from the original recipe used for many years by his late father, Mr. Thomas Moat, Vice President of the British College of Health.

Twenty years' successful administration of these celebrated medicines in Europe, and more than twelve years in the United States, have established their high reputation. Thousands of both sexes, who have been restored to health—the numerous sufferers rescued from premature death—and volumes of certified cases of cure, embracing every disease in the long catalogue of human misery; must convince the most incredulous of their superiority and the truth of the Hygeian theory, resulting from scientific research and experience, namely, that man is subject to only one real disease—impurity of the blood.

The Medicines being composed entirely of herbs or vegetable matter, purify the blood, and carry off the corrupt humors of the body, in a manner so simple as to give every day ease and pleasure.
Man will be born to days of bliss, compared to what has hitherto been his lot, weighed down as he has been by disease, infirmities, and sufferings which no earthly power knew how to alleviate, until this discovery was presented to the world. The weak, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, and the most obstinate complaints are removed by perseverance without the expense of a Physician. Adapted to all circumstances and situations, they are the best Medicine ever invented for Families, or to take at sea, preventing scurvy and costiveness, requiring no change of diet, particular regimen, or care against taking cold.

The propensity of these medicines, has induced many speculators to attempt imposition on the public, by forging the labels or forcing their Imitations into notice through the medium of the Press—Some of them pretend to Hygeian principles, by stealing from the writings of the Hygeian and copying whole pages into their fulsome advertisements; But as they cannot copy the medicines, their specifics or their deleterious nostrums prove to be unavailing, their puffing and piracy become evident; disappointment to the afflicted is eventual, and with just obloquy the pretender sinks into oblivion.

The Hygeian medicines first introduced into this country by H. S. Moat, in 1830, have for the last four years been prepared by him, and the increasing sale attests their intrinsic merit; they comprise two sorts of Pills, No. 1 and No. 2, in single boxes of each of 25 or 50 cents; and Packets containing both sorts, at \$1, \$2, or \$3. The Vegetable Cleansing Powders, in large boxes, at 37 1/2 cents, with printed directions. Each packet has a fac simile of the signature of H. Shepherd Moat, and to prevent counterfeits, are signed with a pen by the district agent and sub-agent on a label of yellow paper.
None are genuine unless they have these signatures, and are obtained from sub-agents, who can produce their written appointments from the district agent, and whose names are advertised in their respective districts.
H. SHEPHERD MOAT,
Principal Office, 50 Canal St.
All orders will be promptly filled at 20 per cent. less than retail prices for all sums over twenty five dollars, for cash.
Some persons in every Town and Village, ought to keep this valuable medicine, for the benefit of their fellow men. One individual, sent ninety miles to procure them.

[COMMUNICATED.]
It is with no little pleasure that we are enabled to inform the public, through the medium of your columns, that a cure has been at length discovered for the most painful and harassing of all nervous affections, Neuralgia or Tic Dolorous. The many unfortunate patients whose sufferings we have witnessed, and who are ignorant that those sufferings can be relieved by scientific means, induce us to make this communication. The number of cases already cured by Dr. Stringfellow, of this City, prove conclusively the success of his practice, which is as novel as it is efficacious. His residence in the Capital of the State, will make it convenient for him to be consulted by many at a distance, who are afflicted with a disease, almost as prostrating to the mental as to the physical energies of the human system.
