

OLIVER and PROCTER'S
NEW CASH
Tailoring Establishment.
We have taken the old stand of Litchford & Oliver, a few doors below Williams & Haywood's Drug Store, on Fayetteville Street, and are now opening a choice and elegant assortment of Goods in our line—consisting of the very best of English and French imported Goods, Cloths, Cassimeres, and Vestings of every color and variety. These Goods were selected by Mr. Oliver in person, with great care and attention; bought unusually low, and added to at prices greatly reduced from what Goods of the same quality have ever been offered for in this market, and equally as cheap as they can be had at any of the Cash Tailoring Establishments at the North. We deem it entirely unnecessary to enumerate the different pieces of Cloth, Cassimeres, Vestings, &c. we have on hand, or to state their color, texture, &c. we have every thing usually kept in such Establishments, and will sell them on such terms as cannot fail to suit those who wish to purchase. Gentlemen furnishing their own Goods, will have their Clothes made up with the same elegance and despatch as though they were sold the articles, and at greatly reduced prices. Trimmings supplied at the same prices as warranted to fit, and to be as well made as can be in the United States. See hand-bills, or call and learn for yourselves, how cheaply we are working and selling.
OLIVER & PROCTER,
MERCHANT TAILORS,
Fayetteville Street,
A few doors below Williams & Haywood's Drug Store.
P. S. Recollect, we will sell a suit or a single article, as cheap, for Cash, as can be purchased of any Northern Establishment.
CUTTING REDUCED.
Coats 50 cents; Pants 25 cents; Vests 25 cts. Raleigh, Oct. 18, 1843.

Raleigh, Oct. 24, 1843.

VERY DESIRABLE PROPERTY
for sale, in the City of Raleigh.—The Subscriber, being desirous of moving to his Plantation, wishes to sell his HOUSE AND LOT in the City. The Property is situated on Newbern Street, east from the center of the Capitol. The House is a large two story building, forty-two feet by twenty-eight, with a passage through the middle—three Rooms on the lower floor and four above, with Fireplaces to each. It has a basement story of hammered Rock the whole extent, which is intended for a Dining Room, &c. with a fire place at each end—the basement Rooms not finished. There is a superb Rock Stable, two stories high, twenty-four by thirty feet square, also a Brick Smoke-house, and good frame Kitchens, and an excellent Well of Water. The Lot contains from six to seven acres of ground, which have been highly improved. The House is beautifully situated on an eminence, near the front line. All the improvements have been made within three years, and cost the builder over six thousand Dollars.
This desirable property is now offered for four thousand dollars. Time will be given the purchaser, but the notes will draw interest and undoubted security will be required. Persons desirous of living in Raleigh, have now an opportunity of purchasing a desirable residence, at a very reduced price.
E. P. GUION,
Raleigh, August 25, 66 1/2

NEW GOODS, JAMES M. TOWLES
is now receiving his fall supply of seasonable Dry Goods embracing every variety and quality both fashionable and staple, which he offers on the smallest possible advance for Cash, or to punctual customers.
His friends and the public generally, are respectfully invited to examine for themselves.
Raleigh, Oct. 9th, 1843.

TEMPERANCE NOTICE.—The first Monday in next month, the Washington Temperance Society of this City will elect their Officers for the ensuing year. A punctual and general attendance of the Members is requested on the occasion. By order.

BWARE OF
"TEMPORARY COLIC."
Nothing is actually more pernicious to the perfect existence of health, than the idea that a simple cold is of no consequence. How many are there that pay no attention to a Cough until it becomes permanently seated, and the constitution is undermined—
"We mind no warning—until our destiny is sealed."
Such indeed is human carelessness and human frailty. Why should we be so neglectful without any cause? It is hard to answer when such a remedy as
J. PEASE & SON'S
Clarified Essence of Hound Candy
can be had for a trifle, with a perfect certainty of relieving the frame from all temporary affections of colds or coughs. Advice cannot be given too early, and here it is given with surety and certainty of removing from the body any disposition towards consumption arising from a cold.
READ, YE SKEPTICS!
[From the New York True Sun.]
"THE MAYOR OF THIS CITY"
has voluntarily come forward in favor of Pease's Hound Candy.
I have repeatedly used your Candy for coughs and colds, and always found relief; but official duties prevented me from writing to you before. But as I have lately been cured of the Influenza, I cannot withhold from recommending the same to the public.
I am yours truly,
ROBT. H. MORRIS.
To John Pease and Son,
45 Division street, New York.

It is with no ordinary feelings of pleasure we lay before the public a letter from his Excellency, our worthy Governor, which speaks for itself!
ALBANY, May 18, 1843.
Messrs. Pease & Son:
Gentlemen—You will pardon me for the delay in replying to your letter of the 14th ult., and acknowledging the receipt of a box of your Clarified Essence of Hound Candy.
Allow me to thank you for this kind respect, and to express the hope that you will be liberally patronized in your efforts to the public. The article is got up in beautiful style, and is highly commended by those who have had occasion to use it.
Your obedient servant,
WM. C. BOUCK.
READ! READ!
The third letter Messrs J. Pease & Son, 45 Division street, has received from Gen. Jackson—
HARRISBURG, April 7, 1843.
Messrs. J. Pease & Son:
Gentlemen—I have the pleasure to acknowledge your kind favor of the 1st ult., by the hand of a friend, Mr. J. Armstrong, and with it your much esteemed present, a package of your Hound Candy, for which receive my sincere thanks. I can only add that many thousands receive from its use as much benefit as I have done; then will its inventor go down to posterity as one of its benefactors.
I am, gentlemen, very respectfully,
Your friend and obedient servant,
ANDREW JACKSON.
The genuine article, and no mistake, for sale by
M. HARDIE,
Raleigh N. C.

PROSPECTUS FOR THE NORTH CAROLINA UNIVERSITY MAGAZINE.
THE above is the title of a Literary Periodical proposed to be established at the University of North Carolina, under the control and management of the Senior Class.
The Magazine will be devoted entirely to Literature, consisting of original contributions from the Faculty and Students of the University—subject to the immediate supervision of an Editorial corps selected from the Senior Class. Steps have been taken to ensure neatness in the typographical execution of the work.
The Magazine will be issued Monthly in Pamphlet form, of octavo size, containing about forty eight pages. The price of a year's subscription will be \$3 00. If five hundred subscribers shall have been obtained, the first number will be issued on the 1st of February next, or as early thereafter as possible.
It is with no small degree of diffidence that this Periodical is introduced to the Public; but while its Editors feel a lively solicitude for its success, they flatter themselves that their efforts will not be without some claims, upon the sympathy and patronage of the Friends of the University and State at large.
If intended merely as a Literary Paper—containing the choice Literature of the day, calculated to please and instruct the reading public, our Magazine could neither command nor claim any favor whatever. But its design is entirely different. It is to be established merely as a University Paper, designed for its direct improvement—by exciting a love of Letters, and forming a literary taste in the Students by its direct appeal to their pride and ambition. It is hoped, that, by effecting this, all the means of intellectual improvement here offered, may be brought into full exercise, and a degree of cultivation produced, in Polite Literature, co-extensive with the improvements which are in progress in the regular branches of our Collegiate Education.
The Magazine claims, therefore, no father credit than for its object—if that be accomplished, then we shall feel amply rewarded.
We solicit the patronage of the Public because we feel that our motives will be appreciated. We appeal to our Parents and Guardians for the support of a Production, which, if it will not instruct, will at least please them as an earnest of well spent time, and will greet them with all the freshness of youthful offerings upon the altar of Learning. To the Friends of the University generally, would we commend it, as an important and interesting auxiliary to the regular college exercises. And most especially, do we humbly solicit the influence of the smiles of the Ladies, in whose cause we will feel bound, at all times, in the true spirit of Literary Chivalry, to wield a gallant pen.
We flatter ourselves that this Magazine will have some influence upon the Literary character of the State. We are ashamed to say that there is not a single Literary Periodical in North Carolina. While her sister States around her are offering the most liberal encouragement to active Literatures, by the development of genius, North Carolina languishingly suffers from slumber. It is a reproach to her fair name. It is proper and important that, amidst the exertions of political strife, the milder influences of Polite Literature should be induced upon Society. Although this Magazine may not directly effect this reform, it may awaken reflections favorable to it; and thus give an impulse to will move important Literary enterprises. Emmanating from the very seats of Learning—rich with the treasures of our well stocked Libraries, it may go forth imparting its mild influences—presenting the most pleasing associations to those who were once where we are, among the dormant energies and awakening the latest genius of the State. Those who go forth from the University will leave with intellectual cultivation and refined—prepared to diffuse a Literary taste into the circles of Society.
Aware of the nobleness of our first efforts, while we beg the patronage of the Public, we claim the kindest sympathy and indulgence.
It may be proper to state that all the pecuniary support we require will be for defraying the expense of the Publication.
Editors friendly to this enterprise, both in and out of the State of North Carolina, are requested to give the above a few insertions.
October 24, 1843.

EVERY DAY BRINGS SOMETHING NEW.
"MORE NEW BOOKS."
DEATH; or Murder's Dream a Poem; by the author of Abasurus Woman an Enigma, by the author of Conquistador and St. Francis. An Historical account of the Polynesian Islands, by Rev. M. Russell, LL. PRINT WAREHOUSE.
IN NEW YORK.
B. F. LEE, formerly of the firm of Lord & Lees Lee & Babcock, &c. and **U. B. BREWSTER,** under the firm of LEE & BREWSTER, have established at
113 PEARL STREET,
Hanover Square, New York, a Warehouse on an extensive scale,
EXCLUSIVELY FOR
PRINTED CALICOES,
To supply the City and interior trade, by the piece or packages.
By confining their attention entirely and exclusively to this one article, L. & B. are enabled not only to exhibit a more extensive and beautiful assortment than is to be found elsewhere, (there being no similar establishment for prints in the United States) but to sell always at prices as low, and generally lower, than those of houses whose attention and means are divided among a large variety of articles.
The Stock, embracing some Thousands of different Patterns and Colorings, comprises all the latest and choicest styles to which will be constantly added all the new and desirable patterns as they appear in the market, besides many which will be printed exclusively for their own sales.
Purchasers of their article will find it to their interest to examine this Stock before buying their Prints. If they do not purchase, they will at least have the advantage of seeing all the new styles, and learning the lowest market prices.
Catalogues of prices, corrected with every variation of the market, are put into the hands of buyers.
All orders will receive the best attention.

Carmer, Druggist, Newbern; and on every quay, may be found at the principal Drug Stores and Villages throughout the Southern and Western States.
Oct. 2, 1843. 79-6mo

BRANDRETH'S PILLS.
PICTURE OF HEALTH.
Health is characterized in an individual by the absence of all pain, suffering, or affection in any part of his body; by the free and regular exercise of all his functions without any exceptions. They consist in having a good appetite at meal times, an easy digestion, free evacuations, without coarseness or costiveness at least once in every twenty-four hours, and without heat, dryness, or burning at the passage; the free issue of the water without acrimony or burning, and without a reddish sediment which is always a sign of a present or an approaching pain; quiet sleep without any agitation or troublesome dreams; no taste of bile or other bad taste in the mouth upon rising in the morning; no sickness or disagreeable breathing of the stomach; a clean tongue; a sweet breath; no itching, pimples or spots on the skin; no piles; no burning heat upon any part of the body; no excessive thirst when unexposed to labor or other known cause; no interruption to any natural evacuations, nor pain at their periodical return.
Where the state of the system does not harmonize with the above picture of health, it is of the greatest importance that no time be lost in sending for a Doctor, or in the use of foolish remedies too often the result of speculation; instead of this course let a course of Brandreth's Pills be taken, which will not deceive, but will at once restore health to the organ or part that requires it.
All who wish to preserve their health, all who are determined to defend their life against the encroachments of disease, which might and prematurely to the grave, will without hesitation have recourse to the Brandreth Pills, when the state of the system does not harmonize with the above picture of health. They are in general use by the Ladies in many parts of our country with the happiest effect.
Those who live in a country where contagious or other diseases prevail, should often think of this true picture of health, and observe himself with particular attention, in order to act accordingly. The wise and rightly directed will follow this advice—the unwary are left to their own destruction.

DR. SPENCER'S VEGETABLE PILLS
A PUBLIC BLESSING.
These Pills have long been known and appreciated, for their extraordinary and immediate powers of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.
They are particularly recommended to those persons who are afflicted with any kind of a chronic or lingering complaint, as there is no medicine before the public which has so natural and happy effect upon the system in correcting the stomach and liver, and to the formation of healthy chyle and thereby purifying the blood.
They are acknowledged by the hundreds and thousands who are using them, to be not only the most mild and pleasant in their operation, but the most perfectly efficient, safe and efficient medicine ever offered to the public. Those who once make a trial of these Pills, never afterward feel willing to be without them, and call again for more; which is sufficient proof of their good qualities.
Price 25 cents per box, with full directions.
[The following is from Col. James Porter, a respectable citizen of Gibson Co., Tenn.]
Gibson Co., Tenn. December 10, 1842.

TO DR. SPENCER:
DEAR SIR: This is to certify, that I have used in my family within the last eight months, one dozen boxes of your Vegetable Pills, and I consider them decidedly superior to any other Pills I have ever used. I have been afflicted for the last three or four years with a severe dyspeptic and liver affection, accompanied at times with a nervous head-ache, which at times totally unfitted me for physical or mental efforts and for the enjoyment of the common blessings of life, and most acknowledge, that your Pills have so far restored me, that I feel nearly as well as ever, and I really think that the further use of them will make an entire cure. I was also troubled with a bad cough and affection of the lungs, proceeding as I suppose, from the complaint, and I am entirely relieved from that. Some of my neighbors are also using the Pills with the most decided benefit. The Pills cannot be too highly recommended, and I candidly confess that I have derived more real benefit from them than from any other medicine I have ever taken, and I think every family should always keep a supply of them on hand.
JAMES PORTER.

BRANDRETH'S PILLS.
PICTURE OF HEALTH.
Health is characterized in an individual by the absence of all pain, suffering, or affection in any part of his body; by the free and regular exercise of all his functions without any exceptions. They consist in having a good appetite at meal times, an easy digestion, free evacuations, without coarseness or costiveness at least once in every twenty-four hours, and without heat, dryness, or burning at the passage; the free issue of the water without acrimony or burning, and without a reddish sediment which is always a sign of a present or an approaching pain; quiet sleep without any agitation or troublesome dreams; no taste of bile or other bad taste in the mouth upon rising in the morning; no sickness or disagreeable breathing of the stomach; a clean tongue; a sweet breath; no itching, pimples or spots on the skin; no piles; no burning heat upon any part of the body; no excessive thirst when unexposed to labor or other known cause; no interruption to any natural evacuations, nor pain at their periodical return.
Where the state of the system does not harmonize with the above picture of health, it is of the greatest importance that no time be lost in sending for a Doctor, or in the use of foolish remedies too often the result of speculation; instead of this course let a course of Brandreth's Pills be taken, which will not deceive, but will at once restore health to the organ or part that requires it.
All who wish to preserve their health, all who are determined to defend their life against the encroachments of disease, which might and prematurely to the grave, will without hesitation have recourse to the Brandreth Pills, when the state of the system does not harmonize with the above picture of health. They are in general use by the Ladies in many parts of our country with the happiest effect.
Those who live in a country where contagious or other diseases prevail, should often think of this true picture of health, and observe himself with particular attention, in order to act accordingly. The wise and rightly directed will follow this advice—the unwary are left to their own destruction.

Raleigh, Oct. 19, 1843. 84-1f

TO THE AMERICAN PUBLIC.
IMPROVEMENT in whatever regards the happiness and welfare of our race is constantly on the march to perfection, and with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing upon man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder! What rapid strides has science made in every department of civilized life! particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does the imagination kindle and our admiration glow as the ingenuity the near approach to the standard of perfection of the present time! Through the elaborate investigations of Physiology, or the science of Life, and the Pathology of prevalent diseases, much valuable practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies have been sought after and discovered exactly adapted to combine with, neutralize and expel in their matrix, the cause of disease and substitute healthy action in its place. The beautiful simplicity of this mode of treatment is not only suggested by the pathology of disease, not only grateful to the sufferer, but perfectly in consonance with the operations of Nature, and satisfactory to the views and reasonings of every intelligent reflecting mind. It is thus that SANDS'S SARSAPARILLA, a scientific combination of essential principles of the most valuable vegetable substances, operates upon the system. The SARSAPARILLA is combined with the most effectual aid, the most salutary productions the most potent simples of the vegetable kingdom, and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intrinsic value, and recommending it to the afflicted in terms of the most confident assurance. It has long been a most important desideratum in the practice of medicine to obtain a remedy similar to this—one that would act on the liver, stomach and bowels, with all the precision and potency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system.
