OSTERS! OYSTERS!!
FRESH OYSTERS!!!
The Subscriber, direct from Norfolk, has established himself in Raleigh, in order to carry on the Oyster trade more effectually, through the country West of this, and the central part of North Carolina. His arrangements are so effected, that by the arrival of the Mail Train, he receives fresh opened Oysters, every day from Norfolk, which will enable him to furnish the above great luxury, farther up and through the country, than has ever been attempted hitherto. The subscriber professing, through years of experience, to know something about Oysters, to order, he has five and six gallon kegs, (well hooped) which can be carried in Stages or other conveyances, as may be most convenient. West of Salisbury, and farther up that country, it is difficult to send fresh Oysters. He has Oysters put up in gallon Cansisters, in the same manner as Oysters are prepared in such establishments or Rectories—they are perfectly good for 12 or 15 days; when taken out of the canister, they can be warmed over, and such ingredients added as Butter, &c., as in the general mode of cooking fresh Oysters. For mutual convenience, families may by clubbing together, receive suitable supplies, without receiving an excess of the article, or incurring unnecessary expense—half dozen canisters, (more or less) can be boxed up and safely sent to the address of one individual. The Subscriber pledges himself to give to his business unremitting attention, and afford every satisfaction in his power. Address
JOHN WILSON.

of all colors and qualities, selected by himself with much care and judgment in the Northern Markets, and principally for Cash.
In offering this Stock to the public, the Subscriber desires it to be distinctly understood that his prices (to say nothing of others, who are offering to do work for prices which they know they cannot do justice by) will be as small as any other House in the State—in being his object to pay all honest debts without the aid of Bankruptcy.
He deems it useless to mention his Tariff of Prices because his work will be done in a superior and more elegant style than the one that has been offered; and the prices charged will accord with the quality of the Goods. He thinks it unnecessary to say any thing more than those who want of
Clothing
would do well to call and examine his stock before they purchase elsewhere, as he has Cloths of all qualities, and will make them up on the Cash principle, probably a little cheaper than some who would wish to be regarded as the only fair dealers in the City.
As the Subscriber has and keeps on hand a General Assortment of
All kinds of Goods
kept by similar establishments in the Northern Cities, the public are respectfully invited to call and judge for themselves, for he assures them that his Goods will be disposed of at a small advance on cost for cash, or to punctual customers on time, at his usual moderate prices. Truly thankful for the encouragement he has heretofore received, his future endeavors shall be to please all who may favor him with their patronage.
N. B. As the Subscriber's terms of credit are six months, all indebted to him either by note or account are respectfully requested to call and settle, for no longer indulgence can be given.

Hygeian Vegetable Pills,
Can be had at the Store JOHN PRIMROSE, FAYETTEVILLE STREET, RALEIGH, N. C.
MOAT'S MORRISON PILLS.
THE GENUINE HYGEIAN VEGETABLE UNIVERSAL MEDICINE—Accurately prepared by Dr. H. B. Moat, of New York, from the original recipe used for many years by his late father, Dr. Thomas Moat, Vice President of the British College of Physicians.
Twenty years' successful administration of these celebrated medicines in Europe, and more than twelve years in the United States, have established their high reputation. Thousands of both sexes, who have been restored to health—the numerous sufferers rescued from premature death—and volumes of certified cases of cure, embracing every disease in the long catalogue of human misery; must convince the most incredulous, of their superiority and the truth of the Hygeian theory, resulting from scientific research and experience, namely, that 'man is subject to only one real disease—impurity of the blood.'
The Medicines being composed entirely of herbs or vegetable matter, purify the blood, and carry off the corrupt humors of the body, in a manner so simple as to give every day ease and pleasure.
Man will be born to days of illness, compared to what has hitherto been his lot, weighed down as he has been by disease, infirmities, and sufferings which no earthly power knew how to alleviate, until this discovery was presented to the world. The weak, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, and the most obstinate complaints are removed by perseverance without the expense of a Physician. Adapted to all circumstances and situations, they are the best Medicine ever invented for Families, or to take to sea, preventing scurvy and costiveness, requiring no change of diet, particular regimen, or care against taking cold.
The propensity of these medicines, has induced many speculators to attempt imposition on the public, by forging the labels, or forcing their imitations into notice through the medium of the Press—Some of them pretend to Hygeian principles, by stealing from the writings of the Hygeian, and copying whole pages into their falacious advertisements.
But as they cannot copy the medicines, their specifics or their deleterious nostrums prove to be unavailing, their puffing and piracy become evident; disappointment to the afflicted is eventual, and with just obloquy the pretenders sink into oblivion.
The Hygeian medicines first introduced into this country by H. B. Moat, in 1830, have for the last four years been prepared by him, and the increasing sale attests their intrinsic merit; they comprise two sorts of Pills, No. 1 and No. 2, in single boxes of each at \$1, \$2, or \$3. The Packets containing both sorts, at \$5, \$10, or \$20. Each Packet containing directions, in large boxes, at 37 1/2 cents, with printed directions. Each packet has a fac simile of the signature of H. B. Moat, and to prevent counterfeits, are signed with a pen by the district agent and sub-agent on a label of yellow paper.
None are genuine unless they have these signatures, and are obtained from sub-agents, who can produce their written appointments from the district agent, and whose names are advertised in their respective districts.
Principal Office, 50 Canal St. less than retail prices for all sums over twenty five dollars for cash.
Some person in every Town and Village, ought to keep this valuable medicine, for the benefit of their fellow men. One individual, sent ninety miles to procure them.

BEWARE OF
"TEMPORARY COLDS."
Nothing is actually more pernicious to the perfect existence of health, than the idea that a simple cold is of no consequence. How many are there that pay no attention to a Cough until it becomes permanently seated, and the constitution is undermined—
"We mind no warning—but attempt to save"
The frame too late, when destin'd for the grave!"
Such indeed is human carelessness and human frailty. Why should we be so neglectful without any cause? It is hard to answer when such a remedy as
J. PEASE & SON'S
Clarified Essence of Hoarhound Candy
can be had for a trifle, with a perfect certainty of relieving the frame from all temporary affections of colds or coughs. Advice cannot be given too early, and here it is given with surety and certainty of removing from the body any disposition towards consumption arising from a cold.
