ONE of two courses must be pursued by me in the sale of my Piano Fortes. I must either adopt the common practice, with many dealers in the article of running down other Instruments in order to raise the character of my own, or I must do as I, have been endeavoring to do for eight years past, get the public to form their own opinion by trying my instruments. The former is a course I have never adopted, and never shall ; the latter I have tried and found to work well. I believe that my Piano Fortes are at least equal to any made in this or any other country that I have heard of ; but that opinion being an interested one, I do not ask the public to depend opon it, alone, and simply beg of them to test the matter by actual trial. Any person desiring to pur chase a Piano, can take mine upon trial, and withhold
