OYSTERS! FRESH OYSTERS!!!

The Subscriber, direct from Norfolk, has established himself in Raleigh, in order to carry on the Oyster trade more effectually, through the country West of this, and the central part of North Carolina. His arrangements are so effected, that by the arrival of the Mail Train, he receives fresh opened Oysters, every day from Norfolk, which will enable him to furnish the above great luxury, farther up and through the country, than has ever been attempted hitherto.

The Subscriber, professing, through years of experience, to know something about Oysters, to order, he has five and six gallon kegs, (well hooped) which can be carried in Stage or other conveyances, as may be most convenient. West of Salisbury, N. C., farther up that country, it is difficult to send fresh Oysters, but he has Oysters put up in gallon Cansisters, in the same manner as Oysters are prepared in such establishments or Retailers—they are perfectly good for 12 or 15 days; when taken out of the canister, they can be warmed over, and such ingredients added as Butter, &c. as in the general mode of cooking fresh Oysters. For mutual convenience, families may by clubbing together, receive suitable supplies, without receiving an excess of the article, or incurring unnecessary expense—half dozen canisters, (more or less) can be boxed up and safely sent to the address of one individual. The Subscriber pledges himself to give to his business unremitting attention, and afford every satisfaction in his power. Address—

IMPORTANT SALE OF ROCKY POINT LANDS.

The "Mosely Hall" Estate, containing about 2600 Acres, amongst the finest Lands in the State.

By virtue of a Decree of the Court of Equity for Cumberland County, the undersigned will sell at the Court House in Wilmington, on Monday, the 8th day of January next, being the first day of the Extra Term of New Hanover Superior Court, the well known Estate called "Mosely Hall" on Rocky Point, in said County, about 18 miles from Wilmington, within from 2 to 4 miles of the Rail Road, and lying immediately on the North East Branch of the Cape Fear, which is navigable thence to Wilmington, for boats and rafts. The tract contains about 2600 acres, of which a large proportion is of the richest and most durable soil, being founded on rotten Limestone, lying very near the surface, which affords an inexhaustible supply of manure. It cannot be worn out. The tract was entered nearly a century ago, by Col. Mosely, by the then Surveyor General of the Province of North Carolina, who selected it in preference to any Lands in the Province, on account of its exhaustless fertility; and though it has been cultivated ever since with no effort to improve it by artificial means, it still retains its rich soil.

It will be divided into several Tracts, of which one will be put up at a time, with the privilege of all. The terms of sale are very easy, being a payment of only one-eighth of the purchase money in hand, and the balance in equal instalments at one, two, three and four years. Notes, with approved security, bearing interest from date, will be required.

Also, on the day following, will be sold on the premises, all the Stock and Plantation Utensils, of every description. Terms Cash.

DR. SPENCER'S VEGETABLE PILLS

A PUBLIC BLESSING.

These Pills have long been known and appreciated, for their extraordinary and immediate powers of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

They are particularly recommended to all those persons who are afflicted with any kind of a chronic or lingering complaint, as there is no medicine better for the public which has so natural and happy effect upon the system in correcting the stomach and liver, and to the formation of healthy chyle and thereby purifying the blood.

They are acknowledged by the hundreds and thousands who are using them, to be not only the most mild and pleasant in their operation, but the most perfectly innocent, safe and efficient medicine ever offered to the public. Those who once make a trial of these Pills, never afterward feel willing to be without them, and call again for more; which is sufficient proof of their good qualities.

Price 25 cents per box, with full directions. [The following is from Col. James Porter, a respectable citizen of Gibson Co., Tenn.]

Gibson Co., Tenn. December 10, 1842.

Dr. SPENCER: This is to certify, that I have used in my family within the last eight months, one dozen boxes of your Vegetable Pills, and I consider them decidedly superior to any other Pills I have ever used. I have been afflicted for the last three or four years with a severe dyspeptic and liver affection, accompanied at times with a nervous head-ache, which at times totally unfitted me for physical or mental efforts and for the enjoyment of the common blessings of life, and most acknowledge, that your Pills have so far restored me, that I feel nearly as well as ever, and I really think that the further use of them will make an entire cure. I was also troubled with a bad cough and affection of the lungs, proceeding as I suppose, from the complaint, and I am entirely relieved from that. Some of my neighbors are also using the Pills with the most decided benefit. The Pills cannot be too highly recommended, and I candidly confess that I have derived more real benefit from them than from any other medicine I have ever taken, and I think every family should always keep a supply of them on hand.

JAMES PORTER. Pine Grove, Macon Co., Ala., Aug. 11, 1842. Dr. SPENCER.

It affords me real pleasure to certify what I know of the unrivaled excellence of your anti-bilious pills. I have used them in my family, and know of their being used in very many families with which I am acquainted, in complaints for which your medicine is offered as a remedy. They have never failed in giving entire satisfaction. They are considered by us who have used them as the best family medicine with which we were ever acquainted.

BRANDRETH'S PILLS.

Health is characterized in an individual by the absence of all pain, suffering, or affection in any part of his body; by the free and regular exercise of all his functions without any exceptions. They consist in having a good appetite at meal times, an easy digestion, free evacuations, without looseness or costiveness, at least once in every twenty-four hours, and without heat, dryness, or burning at the passage; and without a reddish sediment which is always a sign of a present or an approaching pain; quiet sleep without any agitation or troublesome dreams; no taste of bile or other bad taste in the mouth upon rising in the morning; no sourness or disagreeable rising of the stomach; a clean tongue; a sweet breath; no itching, pimples or spots on the skin; no piles; no burning heat upon any part of the body; no excessive thirst when unexposed to labor or other known cause; no interruption to any natural evacuate, nor pain at their periodical return.

Where the state of the system does not harmonize with the above picture of health, it is of the greatest importance that no time be lost in sending for a Doctor, or in the use of foolish remedies too often the result of speculation; instead of this course let a course of Brandreth's Pills be taken, which will not deceive, but will at once restore health to the organ or part that requires it.

All who wish to preserve their health, all who are determined to defend their life against the encroachments of disease, which might send prematurely to the grave, will without hesitation have recourse to the Brandreth Pills, when the state of the system does not harmonize with the above picture of health. They are in general use by the Ladies in many parts of our country with the happiest effect.

Those who live in a country where contagious or other diseases prevail, should often think of this true picture of health, and observe himself with particular attention, in order to act accordingly. The wise and rightly directed will follow this advice—the unwise are left to their own destruction.

To the American Public.

IMPROVEMENT in whatever regards the happiness and welfare of our race is constantly on the march to perfection, and with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing upon man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder! What rapid strides has science made in every department of civilized life particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does the imagination kindle and our admiration glow as the ingenuity, the near approach to the standard of perfection, of the present time! Through the elaborate investigations of Physiology, or the science of LIFE, and the Pathology of prevalent diseases, much valuable practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies have been sought after and discovered exactly adapted to combine with, neutralize and expel morbid matter, the cause of disease, and substitute healthy action in its place. The beautiful simplicity of this mode of treatment is not only suggested by the pathology of disease, not only grateful to the sufferer, but perfectly in consonance with the operations of Nature, and satisfactory to the views and reasonings of every intelligent, reflecting mind. It is thus that SANDS' Sarsaparilla, a scientific combination of essential principles of the most valuable vegetable substances, operates upon the system. The Sarsaparilla is combined with the most efficient and the most salutary productions, the most potent simples of the vegetable kingdom, and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intrinsic value, and recommending it to the afflicted in terms the afflicted only can know. It has long been the most important desideratum in the practice of medicine to obtain a remedy similar to this—one that would act on the liver, stomach and bowels, with all the precision and potency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system.

The attention of the reader is respectfully called to the following certificates. However great achievements have heretofore been made by the use of this invaluable medicine, yet daily experience shows results still more remarkable. The proprietors here avail themselves of the opportunity of saying, it is a source of constant satisfaction that they are made the means of relieving such an amount of suffering.

NEWARK, N. J., Dec. 13, 1842.

Messrs. Sands: Gent.—Words cannot express the gratitude I feel for your treatment to me, a stranger, suffering under one of the most loathsome diseases that nature is capable of bearing. The disease with which I was afflicted commenced with inflammation of the eyes, in the year 1836, which caused almost total blindness. For this I was treated and finally relieved, but the remedies were such as to cause the development of a scrofulous affection on my left arm near the elbow.

"The pain extended from the shoulder to the end of my fingers, and for two years my sufferings were beyond description. I tried various remedies and consulted different Physicians in New York, and amongst them the late Dr. Bushe, who told me the disease of the arm was caused by the large quantity of mercury taken to cure the inflammation of my eyes.

My sufferings continued, the arm enlarged, tumors formed in different places, and in a few months discharged, making ten running ulcers at one time, some above and some below the elbow, and the discharge was so offensive that no person could bear to be in the room where I was. I then applied to another distinguished Physician who told me amputation of the arm was the only thing that could save my life, as it was impossible to cure so dreadful a disease; but as I was unwilling to consent to it, he recommended me to use Swain's Sarsaparilla, which I did without deriving but little benefit. For three years I was unable to raise my hand to my head or comb
