DR. SPENCER'S VEGETABLE PILLS

A PUBLIC BLESSING.

These Pills have long been known and appreciated, for their extraordinary and immediate powers of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame

They are particularly recommended to all these persons who are afflicted with any kind of a chronic or lingering complaint, as there is no medicine be-fore the public which has so natural and happy effect upon the system in correcting the stomach and liver, and to the formation of healthy chyle and thereby purifying the blood,

They are acknowledged by the hundreds and thousands who are using them, to be not only the most mild and pleasant in their operation, but the most perfeetly innocent, safe and efficient medicine ever offered to the public. Those who once make a trial of these Pills, never afterward feel willing to be without them, and call again for more; which is sufficient proof of their good qualities. Price 25 cents per box, with full directions,

The following is from Col. James Porter, a respecta

ble citizen of Gibson Co., Tenn.]

Gibson Co , Tenn. December 10, 1842. To Dr. SPENCER : DEAR SIR: This is to certify, that I have used in my family within the last eight months, one dozen boxes of your Vegetable Pills, and I consider them decidedly superior to any other Pills I have ever used. I have been afflicted for the last three or four years with a severe dyspeptic and liver affection, accompaied at times with a nervous head-ache, which at times totally unfitted me for physical or mental efforts and for the enjoyment of the common blessings of life, and must acknowledge, that your Pills have so far restored me, that I feel nearly as well as ever, and I really think that the further use of them will make an entire cure. I was also troubled with a bad cough and affection of the lungs, proceeding as I suppose, from the complaint, and I am entirely relieved from that. Some of my neighbors are also using the Pills with the most decided benefit. The Pills cannot be too highly recommended, and I candidly confess that I have derived more real benefit from them than from any other medicine I have ever taken, and I think every family should always keep a supply of them JAMES PORTER.

Pine Grove, Macon Co., Ala., Aug. 11, 1842. Dr SPENCER.

It affords me real pleasure to certify what I know of the unrivalled excellence of your anti-bilious pills. have used them in my family, and know of their being used in very many families with which I am acquainted, in complaints for which your medicine is offered as a remedy. They have never failed in giving entire satisfaction. They are considered by us who have used them as the best family medicine with which we were ever acquainted.

BRANDRETH'S PILLS.

TRICTURE OF HEALTH .-

Oct. 2, 1843.

Health is characterized in an individual by the absence of all pain, suffering, or affection in any part of his body; by the free and regular exercise of all his functions without any exceptions. They consist in having a good appetite at meal times, an easy digestion, free evacuations, without looseness or costiveness at least once in every twenty-four hours, and without heat, dryness, or burning at the passage; the free issue of the water without acrimony or burning, and without a reddish sediment which is always a sign of a present or an approaching pain; quiet sleep without any agitation or troublesome dreams: no taste of bile or other bad taste in the mouth upon rising in the morning; no sourness or disagreeable ris-

no burning heat upon any part of the body; no excessive thirst when unexposed to labor or other known cause; no interruption to any natural evacuate, nor pain at their periodical return. Where the state of the system does not harmonize with the above picture of health, it is of the greatest importance that no time be lost in sending for a Doctor, or in the use of foolish remedies too often the result of speculation; instead of this course let a dose of Brandreth's Pills be taken, which will not deceive, but

ing of the stomach; a clean tongue; a sweet breath

no itching, pimples or spots on the skin; no piles

All who wish to preserve their health, all who are determined to defend their life against the encroachments of disease, which might send prematurely to the grave, will without hesitation have recourse to the Brandreth Pills, when the state of the system does not harmonize with the above picture of health. They are in general use by the Ladies in many parts of our

Those who live in a country where contagious or other diseases prevail, should often think of this true picture of health, and observe himself with particular attention, in order to act accordingly. ANN JOHNSON. Dec. 16, 1843.

To the American Public.

MPROVEMENT in whatever regards the happi-

ness and welfare of our race is constantly on the march to perfection, and with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing over man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder! What rapid strides has science made in every department of civilized life! particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does, the imagination kindle and our admiration glow as the ingenuity, the near approach to the standard of perfection, of the present time! Through the elaborate investigations of Physiology, or the science of Lirs, and the l'athology of prevalent diseases, much valuable practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies have been sought after and discovered exactly adapted to combine with, neutralize and expel morbific matter, the cause of diserse, and substitute healthy action in its place. The bea. tiful simplicity of this mode of treatment is not only suggested by the pathology of disease, not only grateful to the sufferer, but perfectly in consonance with the operations of Nature, and satisfactory to the views and reasonings of every intelligent, reflecting mind. It is thus that SANDS' SARSAPARILLA, a scientific combination of essential principles of the most valuable vegetable substances, operates upon the system. The Sarsaparilla is combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intrinsic value, and recommending it to the afflicted in terms the afflicted only can know. It has long been a most important desideratum in the practice of medicine to obtain a remedy similar to this-one that would act on the liver, stomach and bowels, with all the precision and potency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system.

The attention of the reader is respectfully called to the following certificates. However great achievements have heretofore been made by the use of this invaluable medicine, yet daily experience shows results still more remarkable. The proprietors here avail themselves of the opportunity of saving, it is a source of constant satisfaction that they are made the means of relieving such an amount of suffering

NEWARK, N. J., Dec. 13, 1842.

Messrs. Sands: Gent. - Words cannot express the graticude I feel for your treatment to me, a stranger, suffering under one of the most loathsome diseases that nature is capable of bearing. The disease with which I was afflicted commenced with influmnation of the eyes, in the year 1836, which caused almost total blindness. For this I was treated and finally relieved, but the remedies were such as to cause the developement of a scrofulous affection on my left arm near the

"The pain extended from the shoulder to the end of my fingers, and for two years my sufferings were beyond description. I tried various remedies and consulted different Physicians in New York, and amongst them the late Dr. Bushe, who told me the disease of the arm was caused by the large quantity of mercury taken to cure the inflammation of my eyes.

My sufferings continued, the arm enlarged, tumorr

formed in different places, and in a few months discharged, making ten running ulcers at one time, some above and some below the elbow, and the discharge was so offensive that no person could bear to be in the room where I was. I then applied to another distinguished Physician who told me amputation of the arm was the only thing that could save my life, as it was impossible to cure so dreadful a disease; but as I was un willing to consent to it he recommended me to use Swaim's Panacea freely, which I did without deriving but little benefit. "For three years I was unable to raise my hand to my head or comb my hair, and the scrofula now made its appearance on my head, destroying the bone in different places, causing extensive ulcerations, and I feared it might reach and destroy the brain-the head swelled very much, accompanied with violent pain, numerous external remedies were recommended, but did no good. About a year since I was taken severely ill with a swelling of the body from head to foot, so that I was entirely helpless, the Doctor advised me to go to the hospital for he did not understand my case; for the last few months I had been afflicted with a severe pain on both sides, at times so hard I could scarcely get my breath. A hacking cough constantly annoyed me, and this combined with my other maladies, rendered me truly miserable. Such, gentlemen, had been my situation for seven years of my life when I commenced the use of your Sarsaparilla, but as my case was considered hopeless, and the near prospect of a speedy dissolution seemed inevitable, I felt but little encouragement to persevere. The persuasion of friends induced me to try your medicine, which in a few days produced a great change in my system generally, by causing an appetite, relieving the pains, and giving me strength as success inspires confidence, I was encouraged to persevere, my pains grew easier, my strength returned, food relished, the ulcers healed, new flesh formed, and once more felt within me that I might get well. I have now used the Sarsaparilla about two months, and am like a different being The arm that was to be amputated has entirely healed, a thing that seemed impossible. I can scarcely believe the evidence of my own eyes, but such is the fact; and it is now as useful as at any period of my life, and my general health

is better than it has been for years past. Health! what magic in the word! how many thousands have sought it in foreign lands and sunny climes, and have sought in vain! Yet it came to me when I had been given up to die, and as I feel the pulsations of health coursing through my veins, my whole heart and soul go forth in fervent gratitude to the Author of all our sure mercies, that he has been graciously pleased to bless the means made use of. "Truty have you proved yourself the good Samaritan to the afflicted, for next to my Creator my life is indebted to you (or rather) the use of your invalgable Sarsaparilla. The value of such a medicine is countless beyond price, money cannot pay for it. I have been raised from death, I may say for my friends and myself thought it impossible I could recover. And now, gentlemen, suffer me to add another proof, certified too by my friends and guardians, as a just acknowledgment of the virtues of your health-restoring Sarsapavilla. That the afflicted may also use it, and enjoy the benefits it alone can confer, is the heartfelt, fervent wish of their and your friend.
