MR. CLAY

THE LATE JUDGE GASTON. We know full well that the voice of praise and commendations of friendship, have no power to recall the breath that has gone; nor can the recital of claims to public honors and distinction " provoke the silent dust, or soothe the dull, cold ear" of the dead. And yet it affords us a melancholy satisfaction, to chronicle from paper to paper, the testimonials of respect and affection votes," while the same paper publishes a British which have, every where, been manifested for the article from a British paper, to convince the peomemory of the great and good man, whose name ple of North Carolina, that the American Tariff heads this paragraph. Perhaps, no tribute to his should be repealed! Yes! the Englishman sincers in feeling, more classical and chaste in so they would to see the Union dissolved !style, and more graphically true, than that which | But these are not arguments to convince as that graces our columns this day, from the pen of the Rev. Dr. Hooren, of South-Carolina, one of the most accomplished scholars of the South.

ROBBERS DETECTED.

On the 15th January last, Mr. P. Dickinson, of Knoxville, Tennessee, had his trunk cut from the Hillsboro' Stage, near this City, containing a considerable amount of clothing and other valuable articles. No clue to the robbery could be got, until within a day or two, since when, by the sagacious plans of Mr. Janes H. MURRAY. City Constable, the robbers have not only been detected, but most of the valuables recovered .-Four free persons of colour, arrested on suspicion of being concerned in the robbery, have been examined, and fully committed for trial.

EXECUTIVE COUNCIL.

This body, having failed to form a quorum, have adjourned, to meet again, in this City, on the 18th of March. The only members in attendance, were Mesers. CAMERON, of Cumberland, FITTS, of Warren, and Warson, of Chatham, all of whom have been detained here a week, waiting for the return of the messenger despatched after Mr. WATT, of Rockingham, the nearest absent Councillor. When the messenger arrived, with the information, that Mr. Warr declined coming, the Council adjourned as above. It is due to Mr. Holmes, of New Hanover, to say, that he apprized the Governor of his inability to attend, owing to ill health, but what excuse Maj. Con-NOR, of Lincoln, and Dr. MEBANE, of Bertie, (to say nothing of Mr. WATT, who was sent for and would not come,) have to render for this neglect of an important public duty, we are yet to learn. We know however, if the Council was a Whig body, instead of the opposite, the Loce Feco Press would teem with complaints long and loud, of public money squandered, public interests sacrificed, &c. because the Whige were too fond of ease to encounter a rough road. We will not mitate their example, but add simply the hope, hat the present occurrence will satisfy the Lerislature, of the folly of locating the Council all ver the State, instead of having them convenient o the Seat of Government.

IT The Rt. Hon. RICHARD PACKERHAR, PC. ently appointed Minister from Great Britain to to United States, has arrived at New York.

DEMAGOGUISM OF DEMOCRACY. Of all the humbuge which Democracy has sought to impose upon the people, none have been more used and less understood by those Van Büren party in this Shate, having been nominated by a Loco Focus meeting in Anson as a Delbeen more used and less understood by those the first class of politicians, it is intimately con nected with the despisy of nations, the overthrow of Constitutions and the dissolution of the Union! -while the emaller fry seem to entertain the religious belief that a "Tariff" destroys crops burns cities, sinks ships, and in short, is the indirect cause of every calamity. To an attentive observer, it is hard to say, whether the course of modern Democracy on this subject, is more remarkable for ignorance or impudence.-The epecimens of ignorance certainly abound. We have before us an extract from the Inaugural of one Mr. BARRY, a new Locofoco Governor in Michigan, who instead of confining himself to matters within his ability, and attenda ing to the interests of his constituents; takes upon himself to discuss and settle questions of national policy. Speaking of the staple of Michigan, he says, " the price of Wheat in this country always will be regulated by the foreign demand !" And, of necessity, if there should be no foreign demand, Wheat would bring nothing at all! Now the Wheat crop of 1839 in the United States was 91,000,000 Sushels, and was sold in this country at an average of \$1 per bushel. The exports to all foreign countries were less than 8,000,000 bushels; and yet this oracle of Locofocoism tells us, that the price of the eighty millions of bushels sold in this coun-

Such people seem to think, that we export all we make to England, and that if she should buy five millions of dollars less from us, this year, than she did last, we should be ruined .-The agricultural productions of this country in 1838 were nearly \$800,000,000, and we only exported \$121,000,000 !-- or about one dollar in seven. Our imports, in the same time, were \$127,000,000, leaving us six millions in debt And yet, Locofocoism is preaching to us, that we should take the duty off from British goods! We have now before us a paper which contains the stale and contemptible charge, that "Gen. Harrison was elected by British Gold and British public and private worth has been elicited, more | would rejoice to see it repealed, no doubt, and Americans should volunteer to do it for them !-In addition to this, it is now generally understood, that an English Association have furnished the funds to establish a paper in New York, which is to advocate free trade with England

try, was regulated by the eight millions carried

Another point, upon which the ignorance of Locofocoism is displayed, is the Tariff of England. A statement has been going the rounds of Southern papers, asserting that while our Tariff upon imports from England averaged 35 or 40 per cent. the English Tariff upon imports from this Country averaged only about six per cent! Now we hardly know whether to ascribe this to ignorance or impudence; but we oppose to it the naked and simple fact, that, in one year, England has levied a Tariff on the Tobacco im ported from this Country alone, of toenty-seven and a half millions of dollars -about twice as much as the whole revenue of this Country! The duty upon Rice is one hundred per cent; and upon Cotton two and a half millions annually. The imports from France were, previous to the passage of the Whig Tariff, about forty-five millions-the exports to that Country about twenty millions an nually-thus leaving us in debt twenty-five mil lions of dollars. Two-thirds of the goods imported from France were free of duty, while not a single article of American produce is admitted into France without heavy duty. And yet we are called upon to abolish the Tariff! This would be free trade with a vengeance !

Another point upon which the ignorance and impudence of Locofocoism are both displayed, is the effect of a Tariff. If their papers are to be believed, the Planter and Farmer have been ru- as a traiter to the pure unadulterated repudiation ined and beggared, while the Manufacturers have faith, because he recommended the payment of become Nabobe. Is this true? We presume no portion of the South is less favorable to the cultivation of Cotton than this portion of North Carolina; and yet among our acquaintance, there are many Planters who are not only not ruined, but who, in spite of this terrible "Tariff," have amassed handsome fortunes. We are rejoiced to say it, and wish they may long continue to increase them, but are not willing, for partizan purposes, to admit that such men are beggars And now, with regard to the "Nabob Manufactu- vet seen an account of its proceedings, but underters." If the Tariff has beggared so many Plan. stand that it was very numerously attended.—

The quarrel which the advocates of free trade are laboring to excite between the different classes of the community, is like the fable of

DEMOCRATIC CONVENTION.

egate to the Baltimore Convention, has addressed Letter to the Chairman of the meeting, denouncing in a bold, manly and independent spirit. the manner in which the friends of Mr. Van Bul ken propose to organize that Convention. This Letter of Mr. LEAKE's, too, was written before Mr. CALEGUN's recent Communication appeared showing that his views are influenced by principle, and that he is not controlled by the ipse digit of his great leader. The Letter is long, but the

following extract will give an idea of its reasoning Georgia, Mississippi and Missouri, when a debate

"What, then, are the characteristics of the Virginia of N. York plan? If we understand hem, they are prominent, arrogant and bold.-They profess no one model for their construction of the Convention; it is neither on the popular, federal or the sovereignty principle, but is made to partake of them all, not loosely thrown together,

out designedly arranged. "When she speaks of the popular will, it is so arranged by the general ticket plan, that the will of the majority is suppressed; and when to do this, she calls in the aid of "sovereignty," she uses that "sovereignty," not in its legitimate, constitutional mode, but for the purpose of bearing down, ever-powering and concentrating her divided individual preferences upon one man-thus giving to a small majority of a few large States, he control of a convention of political friends. Instead of meeting us like brothers, embarked upon a common bottom, she arrogantly seizes the helm, calls upon the ship's crew to be good sai lors, "look out for breakers," of which she is constantly reminding them, and leaves no discretion as to the port to which they will sail. Call you this Democracy? If so, I am no Democrat. Equality is Democracy, the reverse is Fed

"We cannot, sir, command language sufficient ly courteous, to give vent to the just indignation which a bare recital of such a proposition enkindles; but we must be permitted to say, that it is an acrogant presumption, and an insult to the friends

of the District system. "And for what, we ask, are we called upon to make such an unheard of surrender! Not for the advancement of our principles, for judging from recent indications in Congress, these bave been assailed. The 21st Rule, one of the Pali sades of our constitutional fortress, and in the rear of which stand our domestic institutions, is already tottering to its fall. Free Trade has received no assistance and Fanaticism no rebuke. Thus, as things now stand, we are called upon to become the passive instruments of our own politi-

"If such be the case, and we confess that we have some misgivings, the somer we set up for ourselves the better, and although we may not be able to elevate the man of our choice, vet we shall have a consciousness of political rectitude to animate our course.

" Less than this, would not satisfy an honest man, and more than this, (in the present aspect of affairs,) we have no reason to expect. "For myself, as the political friend of John C CALHOUN, I play at no such game; if we must abide the trump, we must be allowed at least to shuffle the cards.

"We are willing, nay desirous of concentrating the strength of the party if it can be honorably effected; but if this be denied us, then we prize our principles, more than "the party," and must be left free to act as circumstances may require"

Gen. D. L. CLINCH, Member elect from the State of Georgia, took his seat in the House of Representatives on the 12th inst.

On the 15th inst, the President nominated WILLIAM WILKINS, of Pennsylvania, as Secretary of War, and Thomas W. GILMER, of Virginia, as Secretary of the Navy: which nominations were immediately confirmed by the Senate.

By the last accounts from Jackson, the small pox was prevailing to an extent that threatened to break up the session of the Legislature prematurely. A member of the Senate, Mr. Boyd, died of the disease on the 30th ult. and several other members were sick.

The Vicksburg Sentinel attacks Gov. Brown the Planter's Bank Bonds-a debt created before the present State Constitution and excepted by name in that instrument, from the operation of the clause limiting the Legislative power to pledge the credit of the State. The Vicksburg Sentinel wishes repudiation to stand on the " high" ground that State debts ought not to be paid at all. It goes for " principles." - Charleston Mercury.

LATER FROM ENGLAND.

The packet ship Europe has arrived at New York from England, bringing dates to the 16th January, three days later than the last news. Cotton had further advanced, so as to make the entire advance within the previous fortnight equal-

to two cents per pound. The London Morning Herald announces that Mr. PACKENHAM, the newly appointed British En-

voy and Minister Plenipotentiary to this Government, is to come out with full instructions to negotiate a settlement of all the questions respecting the Oregon Territy. His arrival may be daily expected, as he was to sail from Portsmouth on the 16th ultimo.

IRELAND.

THE STATE TRIALS.-On Thursday, Mr. MOORE, Q. C., applied to the Court of Queen's Bench on the part of the traversers, that the pannel of special jurors be quashed and set aside, or cancelled, and that a mandamus, or order in the nature of a mandamus, should be issued, directed to the Right Honorable the Recorder of the city of Dublin, commanding him to place on the list of jurors for the year 1844, in the county of the city of Dublin, in their proper order, the names of divers persons, to wit, of twenty-seven persons, whose qualifications respectively, to be placed on tion. the list, was legally proved before, and allowed by the Recorder as special jurors. After a lengthened argument, the Chief Justice proceeded to give judgment. Viewing the question in all its bearing fully and fairly, the Court could not but arrive at the conclusion that the present application was a very unprecedented one, and at variance with reason and principle; and it was therefore refused.

On Saturday the Attorney General moved, on the part of the Crown, for an order that, in the event of the trial in this case not having terminated on or before the 31st ultimo, that Thursday. the 1st of February, and every day until next term. or as many as shall be necessary, shall be fixed by the Court for the purpose of said trial, and be deemed and taken to be part of the present Hilary Term. He could not say the precise time that would be necessary for the trial, but he thought t well to have the order made. The motion was pranted.

AGGREGATE MEETING .- This assemblage was held at Dublin on the 13th ultimo in the Music Hall. Amongst those present were DANIEL O'-CONNELL, Sir T. ESMONDE, Sir J. POWER, Sir VALENTINE BLAZE, and the Lord Mayor, who was called to the chair. One of the principal speakers was Mr. R. SHIEL; and, after several addresses, the following resolutions were agreed to: Resolved, That we, the Roman Catholica of Ireland, yield to no portion of the Queen's subject in true loyalty to the throne, or strict obser-

vance of the religious obligation of an oath.

Resolved, That the officers of the crown, in striking from the special jury pannel all the Ro-man Catholics who were placed thereon by ballet, have inflicted upon our body a wrong and an insult, and that it becomes our duty, in the face of the empire, to vindicate our character for worth,

Resulved. That the omission of sixty-three names of special jurors, including a large propor tion of Reman Catholics, as well as liberal Protestants, making up the special jurors' list, affords grounds for more than suspicion that fair dealing mentary investigation.

Resolved, That an humble petition be presented to the Queen, praying her Majesty that she will be gracionally pleased to direct her attention to the conduct of the Irish Government in carrying on state prosecutions under the circumstances

aforesaid. Resolved. That a petition be presented to both Houses of Parliament, setting forth the facts embodied in these resolutions, and praving for inquiry into the facts.

THE MARKETS.

LIVERPOOL COTTON MARKET, January 15-On Saturday forencon, the Hibernia, Boston packet, was telegraphed off Ormshead, and the packet, was telegraphed off Ormshead, and the intelligence by her was looked for with considerable interest. It was very evident the brokers would not disperse until the upshot was known, and no sconer did they receive her papers than a very brisk demand sprung up for speculator's account, and 5,000 to 6,000 bales were sold at full TURNER & BUGGES.

This repening the market

opened with a very active inquiry. Prices fully ad per lb. was readily paid, and in some instances ad per lb. was asked at this advance. About 20,000 bales have been sold, 14,000 of them to speculators, the remainder to the trade; and . I this advance holders seem unwilling to bring out their stocks. Consumers have been taken by surprise, and it yet remains to be seen in what light they may view it. An advance of 1d per lb. has been established on the prices ruling last Friday week.

COTTON MARKET-WEEKLY REPORT The narket opened this week with a moderate demand; but since Tuesday; speculators have bought very extensively. Their attention being directed chiefly to the common and midding quties of American and Surat. ad dearer than on Friday last, other kinds rentain without alteration. SUICIDE.

On Friday last, Mr. Clark Elder, a middle aged nan and a respectable citizen of this county, put an end to his own life by hanging himself with a rope attached to one of the joists of his barn. AMENDMENT OF THE CA SA LAW.-We see that a petition praying the Legislature for an amendment of this Liaw; so that no man shall be seized with a Ca Sa, unless the creditor will make oath that he believes his debtor has Tradulently concealed his effects, or is endeavoring so to do. has been started in Rowan, and has received the signatures of many most respectable citizens, and s urged by them with great zeal. The power of one man to seize the body of another, simply because he owes him money, is a remnant of barbarsm; and unless the creditor believes it is the design of the debtor to defraud him, a Ca Sa should not in our opinion, be tolerated. As the law now stands, it is often a trap to catch a poor man's friends, by means of some slip of his own, or his Attorney, or of the officer who serves notice, and often causes the greatest oppression and hardships upon innocent persons.

We wish success to the petition, and we hope other counties will take the matter in hand, and speak to their law-makers in a tone worthy of reemen.-Salisbury Watchman.

DIABOLICAL -On the night of the 13th inst. a nost diabolical outrage was perpetrated at Clinon, Miss., upon the person of Mrs. M. E. Blackman, a respectable Dutch lady, about 45 years of age, by a negro man, who, having ascertained that Mrs. B.'s husband was from home, entered the house, knocked down Mrs. B. and while she was insensible from the effects of his blows, committed the outrage. He was apprehended the next day, fully identified by his victim, and after an examination before the Mayor of the town; was placed for conveyance to Raymond in cuetody of he constable, from whom he made his escape of Saturday night, although heavily ironed.
