The Dwelling House has five Rooms, with a Fire-place in each. There is, also, an excellent well of water in the yard, and contiguous thereto a Bathing Room and Dairy. Also, two Kitchens, and every Out-house, necessary for a Family—all well constructed and conveniently arranged.

NOTICE.
THE subscriber now offers for sale, delivered in Baltimore, and at prices corresponding with the hardness of the times, Lewis H. May's portable Cast Iron THRESHING MACHINES, for threshing Wheat, Rye, Oats, and small seed, and cracking Corn in the ear for the purpose of preparing it for food for cattle.
The improvement which makes these Machines superior to any now in use in the Southern and even Northern country, is because of the body of the cylinder being cast in one or two pieces, with the heads & teeth or points all cast together, being a solid mass—thereby giving it additional weight, and obviating the danger of the spikes flying out, as sometimes happens with the wooden cylinder, which greatly endangers the lives of the operatives.
Of these Machines no fears need be entertained of their performance; for the reason of their having been successfully tried for three years past, and as yet no objection has been made known to the Agent.
Being the only Agent in North Carolina, to dispose of said Machines, and living as I do in a remote section of country, I feel it to be incumbent on me to give notice through the columns of some of the public organs, that the farmers and others may supply themselves (if they are so disposed) with said Machines.
They can be transported on one wagon, but more conveniently on two, from one farm to another, and after arriving at the place where the work is to be executed, and set in operation in less than fifteen minutes. With four good horses and eight hands, these Machines will thresh of good Wheat four hundred bushels per diem.
I now propose to sell the four horse power for \$120, and the two horse power, built after the same construction and upon the same principle, for \$95, each, delivered as above stated. I will, if requested by the purchaser, order at his or their risk, from Baltimore, said Machines complete and ready for work, (with the levers and hoes that propel the horse-power,) to any point on the Rail Road that bears they may direct.
Orders for Machines will be forwarded to my address as soon as the purchaser makes up his mind to purchase. In order that I may have them cast and sent to Baltimore in time for the buyer to get them home in due season, communications on this subject will receive my earliest attention. If directed as follows:

VALUABLE MANUFACTURING PROPERTY FOR SALE.
WILL BE SOLD to the highest bidder, on Wednesday, the 1st day of May, 1844, that valuable property in the town of Milton, North Carolina, belonging to the Milton Manufacturing Company, viz:
1st. The Cotton Factory building, and all the machinery contained in, or belonging to it. The building, which is nearly new, is of brick, and is 82 feet long by 46 feet wide, four stories high, and resting on a very superior and costly heavy stone foundation. The whole building is constructed in the best style of workmanship, of the very best materials, and is covered with a metal roof. The machinery, (made by Messrs. Rogers, Ketchum and Greenough, of Paterson, New Jersey, in their best style, and on the most modern plan) is also nearly new, and in excellent order. It consists of—
12 Cards, 2 Pickers,
4 Spindlers, 3 Drawing Frames,
3 Railroad Heads,
10 Frames, containing 1272 Warp Spindles,
2 do do 192 Filling do
3 double Reels, 1 Spooling Frame,
20 Looms, 1 Dressing do
1 Warming Frame, 1 Lath and Tools, &c. &c.
With all the various gearing, machinery and appurtenances necessary for operating the same.
2d. The Grist and Saw Mills and Cotton Gin. The Grist Mill is a wooden building, 44 feet long by 40 feet wide, three stories high, and built of excellent materials. It contains 2 pair of Burr Stone Mills, Wheat, and 1 pair Cologne ditto for Corn; with all the usual machinery and appurtenances belonging to large manufacturing mills. The Saw-Mill is adjoining the Grist-Mill, and is constructed for two saws. Both of the Mills have an excellent custom.
All these Mills, viz: the Cotton, Grist and Saw Mills, and the Cotton Gin, are driven by water power belonging to the Company, and which is believed to be equal to any in this section of Country.
3d. Some 12 or 14 buildings (with suitable lots attached for each) for the families to live in, whose members are employed in the establishment; nearly all of which have been erected but a few years. In addition to which, there is a satisfactory acreage of ground belonging to the premises, on which to erect so many more such houses as may be needed.
As it is presumed that no person would purchase such valuable property without a personal examination, a further description is deemed unnecessary; and the Directors or Agent of the Company, will, at all times, with pleasure, show the property to those who may wish to purchase, or give any information which may be required.
The entire property will be sold on a credit of one, two, three, four and five years—equal payments, and the whole to bear interest after one year from the day of sale. The title to the above property is unquestionable. By order of the President and Directors,

It contains 2 pair of Burr Stone Mills, Wheat, and 1 pair Cologne ditto for Corn; with all the usual machinery and appurtenances belonging to large manufacturing mills. The Saw-Mill is adjoining the Grist-Mill, and is constructed for two saws. Both of the Mills have an excellent custom.
All these Mills, viz: the Cotton, Grist and Saw Mills, and the Cotton Gin, are driven by water power belonging to the Company, and which is believed to be equal to any in this section of Country.
3d. Some 12 or 14 buildings (with suitable lots attached for each) for the families to live in, whose members are employed in the establishment; nearly all of which have been erected but a few years. In addition to which, there is a satisfactory acreage of ground belonging to the premises, on which to erect so many more such houses as may be needed.
