VALUABLE MANUFACTURING PROPERTY FOR SALE.

WILL BE SOLD to the highest bidder, on Wednesday, the 1st day of May, 1844, that valuable property in the town of Milton, North Carolina, belonging to the Milton Manufacturing Company, viz.

1st. The Cotton Factory building, and all the machinery contained in, or belonging to it. The building, which is nearly new, is of brick, and is 82 feet long by 46 feet wide, four stories high, and resting on a very superior and costly hewn stone foundation. The whole building is constructed in the best style of workmanship, of the very best materials, and is covered with a metal roof. The machinery, (made by Messrs. Rogers, Ketchum and Grosvenor, of Paterson, New Jersey, in their best style, and on the most modern plan) is also nearly new, and in excellent order. It consists of—

12 Cards, 3 Pickers,
4 Speeders, 3 Drawing Frames,
3 Railroad Heads,
10 Frames, containing 1272 Warp Spindles,
2 do do 192 Filling do
3 double Reels, 1 Spooling Frame,
20 looms, 1 dressing
1 Warping Frame, 1 Lathe and Tools, &c. &c.

With all the various gearing, machinery and appurtenances necessary to operate the same.

2d. The Grist and Saw Mills and Cotton Gin. The Grist Mill is a wooden building, 44 feet long by 40 feet wide, three stories high, and built of excellent materials. It contains 2 pair of Burr Stones for Wheat, and 1 pair Cologne ditto for Corn; with all the usual machinery and appurtenances belonging to large manufacturing mills. The Saw Mill is adjoining the Grist-Mill, and is constructed for two saws. Both of the Mills have an excellent custom;

All those Mills, viz: the Cotton Grist and Saw Mills, and the Cotton Gin, are driven by water power belonging to the Company, and which is believed to be equal to any in this section of Country.

3d. Some 12 or 14 buildings (with suitable lots attached for each) for the families to live in, whose members are employed in the establishment; nearly all of which have been erected but a few years. In addition to which, there is a sufficiency of unoccupied ground belonging to the premises, on which to erect as many more such houses as may be needed.

As it is presumed that no person would purchase such valuable property without a personal examination, a further description is deemed unnecessary; and the Directors or Agent of the Company, will, at all times, with pleasure, shew the property to those who may wish to purchase, or give any information which may be required.

The entire property will be sold on a credit of one, two, three, four and five years—equal payments, and the whole to bear interest after one year from the day of Sale. The title to the above property is unquestionable. By order of the President and Directors.

A VALUABLE PLANTATION is offered for sale, near Tallahassee, Florida. The Subscriber, wishing to remove to a more Northern climate, offers for sale the TRACT OF LAND, on which he resides, situated about 8 miles from Tallahassee, in Leon County. There are 1600 acres contained in the Tract, a very large proportion of which is of very superior quality. The place is plentifully watered, with excellent water; and there are not more than 30 acres of waste land in the body. About 750 acres of land are cleared, from which, with a force of forty-five or fifty hands, in a favorable season, 300 or 350 Bales of Cotton can be produced in a season, and more Corn than would serve the Plantation. The land is so situated, that it can be divided into two separate Tracts if preferred. There is good land enough to employ from seventy-five to eighty hands to advantage. The natural growth is Sweet Gum, Post Oak, Red Oak, Cherry, Ash and Dogwood. The upper *terminus* of the Rail Road, leading from Tallahassee to Stewart's, is only 8 miles distant, and the Railroad is twenty-three miles long.

The improvements, including buildings of every description, are extensive and convenient. A large white family can be comfortably accommodated; and there are Cabins enough for the convenient accommodation of about 80 Slaves. There is a newly erected Gin House on the place, with all necessary appendages.

The society of the neighborhood is of the most desirable kind, and the lands adjoin the Plantations of the Messrs. Cotten and N. Thompson from North Carolina. There are also several Churches, convenient enough to attend.

RALEIGH, N. C.

Right Rev. L. S. IVES, *D. D. Visiter.*
Rev ALBERT SMEDES, *Rector.*

THE Fifth Session of this School will commence on the 1st day of June, and continue five months. A punctual attendance of the Pupils, at the opening of the Session, is very important, and is particularly requested.

The principal building of this Institution is of brick, about 90 feet by 60, three stories high, with a basement. The wings are of granite, 36 feet by 56, and two stories high. These buildings are on elevated ground, in the midst of an Oak Grove, of nearly 30 acres, one mile from the City of Raleigh—a situation perfectly healthful at all seasons of the year.

The Saloon, the School Room, and the Dormitories are each 33 feet by 57. The Dormitories are divided into alcoves, each designed for two pupils, and securing to them a closet for their prayers, and privacy for the duties of the Toilet.

The Chapel is furnished with an Organ, a Chancel, and an Alter, and is exclusively devoted to religious worship and instruction.

The course of Studies embraces the Ancient and Modern Languages, Mathematics, the Natural Sciences, Mental and Moral Philosophy, &c., and may be pursued in any branch, and to any extent that may be desired.

It is the aim of the Rector to give to every department of his School the highest efficiency, and to render it eminently worthy of the patronage it enjoys, and of that to which it aspires.

DYSPEPSIA.

TO SOOTHE the sufferings of humanity, to ameliorate the pangs of disease, is the grand object of medical science. This is efficiently demonstrated in the healing virtues of DR. BENJAMIN BRANDRETH'S PILLS. The cures effected by this medicine would fill volumes.

Views on Indigestion as a source of various Undefined and Irregular Nervous Sensations.

"Ills, small at first, grow larger from delay,
"And slowly eat their sad and cankering way;
"Thus by sucessive throes, the frame is torn,
"Till health and peace of mind alike are gone."

The nerves of the human body—those necessary and mysterious agents which immediately connect man with—external nature are singularly prone to have their functions disordered by an oppressed condition of the stomach; the minute termination of the portion of the nerves expanded upon the organs of digestion conveying the morbid impression to the Brain. And although the Head can, undoubtedly, like other organs, be the seat of primary disorder, yet, in the great majority of cases, the uneasy sensations there experienced are symptomatic of disordered Stomach; and, further, there is abundant evidence to prove that cruelties in the Stomach and Bowels can, in every grade of human existence, give rise to spasmodic action in every organ of the body; and whether we survey it in the agonising form of Tic Doloreux—the alarming convulsions of the Epileptic seizure—or in that irritable condition of the nerves of the heart occasioning nervous palpitation—they can all frequently be traced to the source above mentioned, and be cured by mild evacuant and tonic remedies. To relieve a state of so much suffering and distress (in which body and mind also participate) BRANDRETH'S PILLS are confidently recommended; as, by combining aromatic, tonic and cleansing properties, they remove all oppressive accumulations, strengthen the Stomach, induce a healthy appetite, and impart tranquility to the nervous system: and in fact, by their general purifying power upon the blood, exert a most beneficial influence in all cases of disease. Read the following.

DYSPEPSIA CURED.

BENNINGTON, Vt. Dec. 5th, 1843.

Dear Sir:—I wish you to add my testimony to the host of others that you have, in favor of your valuable Pills. In the year 1838, I was attacked with that disagreable complaint, the DYSPEPSIA, which so affected me that I could not take the least particle of food, without the most unpleasant and uncomfortable sensations in my chest, head and bowels. My chest was so sore that I could not bear the slightest pressure without giving me pain. My health was most miserable: many physicians told me they thought I was in the consumption, and that if I did not give up my business, and change climate, I could live but a short time.

I tried every thing in the shape of medicine, and consulted the most skilful physicians, but found no permanent relief. I became discouraged, gloomy, sad, and sick of life: and, probably, ere this, should have been in my grave, had I not fell in with your precious medicine. A friend of mine, who had been sick of the same complaint, advised me to try your pills: but, having tried most other medicines without obtaining any relief, had but little faith that your Pills would be of benefit to me; but, at his earnest solicitation, I procured a box and commenced taking them.

The first produced little or no effect, and I began to despond, for fear that your medicine would prove like others I have taken, but my friends argued that one was not a fair trial, and I purchased a second, and before I had taken the whole box I began to experience a change; the pain in my chest began to be less painful, and my food did not distress me as much as formerly. I went on taking them until I had taken six boxes, and my DYSPEPSIA was GONE, and my expectation of an early death vanished, and I felt like a "new creature." I was then, and am now, a healthy man. I have never since been troubled with the Dyspepsia. I have administered your Pills to the members of my family, and to my friends, and in all cases with good success. You can publish this if it will be of any use to you.

I am, dear Sir, truly yours,

J. I. COOK,
Publisher of the State Banner.

NOTICE.

THE subscriber now offers for sale, delivered in Baltimore, and at prices corresponding with the hardness of the times, LEWIS H. MAUS'S portable Cast Iron THRESHING MACHINES, for threshing Wheat, Rye, Oats, and small seed, and cracking Corn in the ear for the purpose of preparing it for food for cattle.

The improvement which makes these Machines superior to any now in use in the Southern and even Northern country, is because of the body of the cylinder being cast in one or two pieces, with the heads & teeth or points all cast together, being a *solid mass*—there by giving to it additional weight, and obviating the danger of the spikes flying out, as sometimes happens with the wooden cylender, which greatly endangers the lives of the operatives.

Of these Machines no fears need be entertained of their performance, for the reason of their having been successfully tried for three years past, and as yet no objection has been made known to the Agent.

Being the only Agent in North Carolina, to dispose of said Machines, and living as I do in a remote section of country, I feel it to be incumbent on me to give notice through the columns of some of the *public* organs, that the farmers and others may supply themselves (if they are so disposed) with said Machines.

They can be transported on one wagon, but more conveniently on two, from one farm to another, and after arriving at the place where the work is to be executed and set in operation in less time than fifteen minutes. With four good *horses* and eight *hands*, these Machines will thresh of good Wheat four hundred bushels per diem.

I now propose to sell the four horse power for $130, and the two horse power, built after the same construction and upon the same principle, for $95, *cash*, delivered as above stated. I will, if requested by the purchaser, order at his or their risk, from Baltimore, said Machines complete and ready for work, (save the levers and braces that propel the horse power,) to any point on the Rail Road that he or they *may direct*.

Orders for Machines will be forwarded to my address as soon as the purchaser makes up his mind to buy. In order that I may have them cast and sent to Baltimore in time for the buyer to get them home in due season, communications on this subject will receive my earliest attention, if directed as follows:

DANIEL A. MONTGOMERY, P. M.,
Albright's, N. C.

N. B.—I will take occasion to state that three Machines have been cast in Chatham county, in this State, and that suit is about to be brought for damages, against all those making, vending, or using the same, without first procuring a right for said Patent.

"GUARD" OR "NO GUARD."

THE General Assembly of North Carolina, at the Session of 1842-'43, passed an Act, "authorizing the Intendant of Police, and the Commissioners of the City of Raleigh, to levy a special or Guard Tax for said City"—of which Act, the following is the most material clause, viz:

"*Be it therefore enacted, by the General Assembly of the State of North Carolina, and it is hereby enacted by the authority of the same*, That the Intendant of Police, and the Commissioners of the City of Raleigh, shall have power to levy a Tax of not more than twenty-five cents on the One Hundred Dollars worth of property, and One Dollar on each taxable Poll, for the purpose of hiring a Guard or Patrol for said City, to be levied and collected as other taxes are now levied and collected: And the Guard, so employed, shall have all the powers and authority belonging to the City Watch or Guard, as heretofore established."

Under the provisions of this Act, a hired Guard was employed during the year 1843, and is still continued. At the regular meeting of the Commissioners of the City, held on Tuesday, the 5th of March, several Petitions were presented to the Board, both *for* and *against* the present mode of guarding the City. Whereupon, for the purpose of ascertaining, in a satisfactory manner, the sense of the citizens of Raleigh on this question, the following Resolution was proposed and adopted, viz:

"*Resolved*, That the Intendant be requested to cause a Poll to be opened at the Court House, for the purpose of ascertaining the sense of the citizens of Raleigh, as to the propriety of hiring a Guard for the present year, as provided for by an Act of Assembly, passed at the Session of 1842-'43"

Pursuant to the above Resolution, I hereby give Public Notice, that a Poll will be opened at the Court House, in this City, on Saturday, the 23d of March instant, for the purpose of ascertaining the sense of the Citizens on the above point. The Poll will be opened at 10 o'clock, and close at sun-down. Those who are in favor of employing a hired Guard, the present year, and of levying a Poll and Property Tax for that purpose, will vote with a printed or written Ticket "*Hired Guard*"—those of a contrary opinion—"*No hired Guard*."

By order of the Board of Commissioners,

Intendant of Police.
