There are 1600 acres contained in the Tract, a very large proportion of which is of very superior quality. The place is plentifully watered, with excellent water ; and there are not more than 30 acres of waste land in the body. About 750 acres of land are cleared, from which, with a force of forty-five or fifty hands, in a favorable season, 300 or 350 Bates of Cotton can be produced in a season, and more Corn than would serve the Plantation. The land is so situated, that it can be divided into two separate Tracts if preferred. There is good land enough to employ from seventy five to eighty hands to advanatage. The natural growth is Sweet Gum, Post

Oak, Red Oak. Cherry, Ash and Dogwood. The upper terminus of the Rail Road, leading from Tallahassee to Stewart's, is only 8 miles distant, and the Railroad is twenty-three miles long. The improvements, including buildings of every de
