JAMES W. OSBORNE.

Friday, September 20, 1814.

TO CORRESPONDENTS.

We are desirous that from every County in North Carolina, our friends should address us in rebrence to the movements of the People, from now until the Presidential Election. We want to keep our readers informed as to what is going on in the State.

ERROR CORRECTED.

In the list of members elect to the Legislature this State, published some weeks since, we tated the name of the Commoner from Jones County to be Calvin Koonce. This, we learn, is mistake, the name of the successful member is WILLIAM Fox-a good and true Whig.

The Committee of Invitation of the Clay Club at Morganton, Burke county, have received letter from the Hon. WILLIE P. Manount. stating his acceptance of the invitation to their Mass Meeting on the 18th and 19th of October next. The Whigs of the Mountains are going to have great time at this meeting.

WHIG MASS MEETING.

The Whige of Halifax County will assemble in Mass Meeting, at the Town of Halifax, on Friday the 11th day of October next. Citizens of the neighbouring Counties and elsewhere, are cordially invited to attend. Distinguished Whige will address the Meeting.

ELECTION IN MAINE.

Enough is known of the recent Election, to convince us that the Whigs have little to hope for in Maine. The Loco Focos are making a terrible hurral over their partial victory, but they forget to state, that Maine has been steadily Loto Foco since 1840, when Gen. HARRISON carried it by the small majority of 411. But it is a source of consolation, that this little Loco Foco State, with her nine Electoral votes, is not the United States.

Returns have been received from 161 Towns. swell the Whig vote to 212. ANDERSON, the Loco Foco candidate for Governor. is elected by the people.

the Whigs have elected 3 in Kennebec, and 2 in vision. Somerset-the Locos have elected 4 in Cumberland, 2 in York, and 2 in Oxford-and there is no choice in Waldo or Lincoln.

Very few members of the House of Represent tives have been elected, throughout the Stateprobably not a quorum of the members—and it a not improbable that a majority of those who are elected are Whigs.

The chances are, that only two members of Congress are elected throughout the State-Sevtrance, Whig, in the Kenebec district, by an o ferwhelming majority-and Dunlap, Loco, in the Comberland district-unless, perchance, Robinon, Whig, shall be found to have been elected the Hancock and Washington district.

AN UPRISING OF YOUNG WHIGS. A mass meeting of young Whige was held a

lew nights since in Baltimore, under the auspices of the Junior Central Clay Chub. The hall, which vill accommodate probably 1200 persons, was completely crowded with the most promising outh of that City, together with a large number ladies and gentlemen of matured age. It was teally a beautiful display. One of the transpatencies placed in front of the Speaker's stand had inscribed on it the significant words- Our Mothers know were out."

BACKING OUT.

A few days ago, in New York, it was announ-Potr and Dattas, in lots to unit customers. A in consequence of it and losses will be sustainof the Loco Focos.

THE FINAL RESULT.

We have recently had opportunities for forming an opinion as to the result of the Presidential Election denied to many of our readers, and we feel that we stand on perfectly safe ground, with the " lights before us," in predicting the triumphant election of the Whig candidates. The bide now runs as in 1840. The progress of Whig principles is onward and irresistible. Without the slightest design to mislead our readers, and with full faith in the accuracy of our calculation, we subjoin a statement of the chances of the respactive Candidates for the Presidency as they are now believed to exist. With regard to New York, Pennsylvania, New Jersey, Delaware and Matyland, we speak from personal observation, and with regard to the other States, our calculation is founded upon information derived from the heat sources. In the five States mentioned above the Whigs are thoroughly organized and prepared for action. Their armer is burnished and their arms furbished for the coming strife. Nothing that a wise foresight deems prudent to be accomplished, has been left undone. The glorious flag of our noble HARRY, is, in every village and district, streaming to the winds. Young and old. grave and gay-even the gentle and lovely-are uniting to place in his hande, the Nation's guidance. Indeed, we are perfectly convinced, that nothing but his death, will prevent HENRY CLAY from being our next President.

The Electoral College will contain 275 votes -138 of which are necessary to make a President. The following States we consider

· WHIGS ATTEND!

The Whigs of Rowan propose to hold a Mass Meeting at Salisbury, on Saturday the 21st inst. (it being Saturday of their Superior Court.) Several distinguished Speakers are expected to be present and to address the meeting.

New York, Philadelphia, and other importing Cities, are now all bustle, distributing in all directions the late heavy importations of goods .-The streets are full of drays, the pavements full the Locofocos. NEW YORK STATE CONVENTION

The Delegates from the Whigs of the several Counties equal in number to their Representatives in the Assembly, chosen to select and present candidates for State Officers, assembled at Syracuse on Wednesday the 11th inst. On calling the roll, every County in the State was found to be represented by a full Delegation-a circumstance almost without precedent. On motion of Hon, Christopher Morgan, Senator F. F. Backus of Monroe was chosen Chairman pro. tem. and C. P. Kirkland of Oneida and F. W Rexford of Chenango Secretaries. Rev. Mr. Slocum, (Baptist.) opened the deliberations of the Convention with do here, in such gross and bold relief.

The President, FRANCIS GRANGER, of Ontario, having been conducted to the Chair by Measrs Morgan and Wheaton, (a committee appointed for the purpose,) addressed the Convention in brief, eloquent and energetic terms.

Victory Birdseye then nominated Millard Fillmore of Erie County, as the Whig Candidate for Governor. The President put the question, and the building rang with the assenting cries of the Delegates, succeed by six hearty and enthusiastic cheers, as the President declared that the nomnation was carried without opposition. Mr. Kirkland, of Opeida, next proposed the names of Samuel J. Wilkin, of Orange, for Lieut. Governor, and this nomination was likewise received and adopted with hearty and enthusiastic cheering. On motion of Christopher Morgan and John C. Hamikton respectively, Willis Hall and John A. Collier were nominated and unanimously approved as Electors for the State at large.

A MOVEMENT IN PENNSYLVANIA.

Gen. THOMAS C. MILLER, late of the State Senate, and several other prominent citizens of Dickineon, Cumberland County, Pennsylvania, who have always acted with what claims to be the Democratic party, but who still cling to the doctrine of the old Democracy that Protection to Home Industry is beneficent and indispensable, recently held a meeting and addressed a letter to James K. Polk, asking him, " Will you sustain the present Protective Tariff?" Polk refuses to give them an answer, just as he had before refused to answer the question-"Are you in favor of the immediate Annexation of Texas on the terms of Mr. Tuler's Treaty?"-After waiting long enough, the Pennsylvanians held another meeting a few days since, and resolved that they would not support Mr. Polk for President.

CHEERING PROSPECTS AHEAD.

if there be a single Whig in North-Carolina, who fears the issue of the great coptest in November, we know of no better way to allay his doubts than by pointing to the result of the Elections which have taken place within the last month. Indiana has thrown off the Locofoco voke and completely turned the tables upon the Spoilsmen.-Last year they had a majority of ten in the Legislature—this year the Whigs have a majority of ten-and the popular vote is with them. The Whig candidate for Governor of NORTH CAR. OLINA was elected by upwards of Three Thousand Four Hundred majority-and the Legislature, in which the Locofocos had, last year, a majority of 30, has been carried by the Whige, who have now a majority of twenty-four. In KENTUCKY, the Whig majority for Governor has been greatly reduced, owing to causes which cannot operate in November, but the Legislature is Whig by an increased majority, thus showing that in Old Kentuck all is right! In Missouri the Whig vote has been largely increased, and the Whig strength in the Legislature greater than it has ever been the best chance of carrying Virginia, which would In ALABAMA and ILLINOIS, conceded Locofoco States, the Whigs made no effort. No candid man, in view of these results, can for a moment doubt the success of the Whig ticket. Party feelings, and prejudices, will induce the Locofocos determination not to vote at all and yet others to "keep a stiff upper lip," to brag high, and pretend to believe their men will succeed, but they are doesed to irretrievable defeat as sure as the coming of November.

BENTON ON TEXAS.

We commend to the attention of the Loco Foco advocates of the Annexation of Texas, who are also admirers of Col. THOMAS H. BENTON, the the scheme of Annexation :

EDITOR'S CORRESPONDENCE.

New York, Sept. 18, 1844. Having promised, Mr. RESISTER, to write you few letters from the "City of Fountains," I will now begin my new business, with your paper for a warehouse, and a capital of facts, fancies, and thoughts.

Although the letters will be written from New York, I will not promise that they shall slways treat of it, or the sayings and doings there, for fassey and thought will fly away from its two hundred miles of payed streets, and brick houses, to revel alone, or to rest where sature can be worshipped, and art and heartesaness do not stand out, as they too often

Then the "wax ends"-without them. how would our industrious brethren, the cordwainers, make or mend our soles. And the lover too, he bows before a certain shrine for menths or years, and at last, in the midst of a nervous excitement, caused by vanity, bashfulness and passion, proposes, and asks the goddess if she will become the better half of a poor mor-

The end of he world too, when the elements shall melt with fervent heat, and the heavens and the earth pass away like a scroll, and that great mystery, the mind, shall stand forth revealed each to its fellows, and its weil, the body, be rent asunder and cast into outer darkness. The politicians are moving earth and hades. and building not castles but Presidents in the air. and all is noise, excitement, and hope. The New Yorkers are likely to outstrip what they have done before for the seven past years, in the way of eating, dancing, business and dissipation of all sorts. Accept this as a prologue to an unknown play, and wait patiently for the curtain to Yours, truly,

Kinston, N. C., Sept. 12, 1844. DEAR SIR: The Whigs of this County are sanguine and confident of Mr. Clay's election, and determined to do their duty. Though in the late election, we were defeated in our attempt to elect a Whig Senator from this District, yet we are not dishear ened. We know that our cause is too good and too holy, and our principles too just, for them long to be kept down. They must ultimately and permanently triumph, and we look. for this revolution at no very distant day. Already are they advancing, and they are destined

to continue to progress. In November, we expect to give Clay a larger vote than the lament ed Harrison received in 1840. Many of our Democratic" friends are disaffected at the nomination of Polk and Dallas, and careless and indifferent to their chances of success, which Heaven knows are as hopeless as any future event can well be; while others have expressed their guarantee of his usefulness among them. vow that they will vote for Clay. Among the neutrals, I hope there will be but few who will not before the day of the Election arrives, resolve to go for their country and their country's friend, Henry Clay, against the candidate of the disunionists and war party.

The Whig march here is onward. There is no doubt that Georgia will east her vote, in November next, for CLAY and Freemonursen. We believe that our cause is the cause of our country, and that it will prevail, notwithstanding the cry of Texas or Disunion by Loco Foco Demagogues.

> DRESDEN, TENN., SEPT. 3, 1844 DEAR SIR: Presuming that a letter from one whose desire is to promote the great cause of truth, liberty and freedom, will, in no wise, be objectionable, I avail myself of this opportunity to inform you, that the werk goes bravely on in this portion of our State. Tennessee will stand firm in the good cause, and the ballot-box in No. vember will tell a tale for our noble Harry the West which will cause every true heart to heat with patriotic joy. The Texas humbug is completely exploded in this quarter, and truly we may exclaim-

" Harra! harra! the country's risin " For Henry Clay and Fretinghaysen,"

The Whige of the old North State have done nobly in the recent contest, and each true Whig trouble when the scenes of a blissful immortality can exclaim- Well done, ye good and faithful sons of the old North State. > LETTER FROM MR. CLAY. On Agricult ure and the Bankrupt Law. ASHLAND, Aug. 20, 1844.

My dear Sir: I received your letter of the 12th inst. You surprise me by the statement of some opinions which are attributed to me. Nothing can be more unfounded than the assertion that I am unfriendly to the protection of agriculture. I eonsider that interest in all its departments as the predominant interest in the United States. Cotton, Hemn. Wool. Manufactures of Tobacco, and other articles of agricultural product are now protected, and if the measure be inadequate no man in the United States would be willing to go farther than I would in extending sufficient protection. I have never held or expressed any other sentiments. The substance of what I have said, and which is to be found in my published speeches, is that agriculture in the United States cance, as a German mystic might suggest, lies owing to our distance from European countries, najority of a whole world's navy governed by cipal aim in introducing and protecting manufactures is to benefit agriculture by opening a new and home market for its surplus productions .-Expressions disparaging to agriculture or rather to the habits of those who pursue it have been easn. put into my mouth, and paraded at the head even of newspapers. I never used such expressions. man by the \_\_\_\_. Oh, no! we never mention They have been forged or fabricated by political enemies. Of all the pursuits of man, I consider WHOLESALE & RETAIL GROCERS, the cultivation of the earth as the most honorable. t is my own pursuit, and any reflecting man nust at once perceive that I could say nothing derogatory of it.

I have already stated in a letter which has been published that the General Assembly of Kentucev save me no instructions to vote for the repeal of the Bankrupt Law. Instructions were pending before the Legislature but they fell by a disagreement between the two Houses.

I consider that the American people have ex ressed a decided disapprohation to the late Bankrupt Law, and for one, in deference to that opinon. I do not desire to see that law revived or any other Bankrupt Law passed.

I congratulate you on the satisfactory result of the August elections, and remain your friend, FTHE Session of 1844-5 will commence on the And obedient servant.
