The course of Education is thorough, practical and well calculated to qualify youth for the various duties of life, whether occupying public or private, Civil or Military stations. The moral and intellectual faculties are kept severely in action, but not at the expense of the physical, as is unfortunately the case throughout the country.
Regular and systematic Military Exercises, as well as Practical and Scientific Operations, introducing Surveying and Civil Engineering, are substituted in the place of unprofitable play, and required of all students—the usual six hours of daily recitation and study being invariably left undisturbed and uninterrupted.
The Cadets, in rotation, discharge the duties of non-commissioned Officers, Officers of the Guard, and Officers of the Day, of Adjutants and Commandants of Batches; and for the purpose of rendering them more perfect, occasionally act as Military Instructors.
It has been found from experience, that this beautiful Gynmnaze invigorates both mind and body, and by inducing habits of order and regularity, contributes much to mental improvement.
Politeness, neatness in dress, and strict punctuality will be closely attended to.
A cheap Uniform is adopted—Dress Parade days, Monday and Friday.
No deduction made for absence, unless in cases of protracted sickness. Hours of Recitation and Study, from 9 to 12 A. M., and from 2 to 4 P. M., in the Winter. Board and Washing, in highly respectable families from \$8 to \$10 per month.
