Notice to Owners of Mills.

HAVING obtained Letters Patent for grinding up Corn, Cob and Stuck, in the ordinary Grist Mill now in use, I take this method of informing the public, especially those who may infringe the right without authority, that I shall hold all such persons who may either use or construct any Mill or Mills upon the principle of my Patent, responsible under the Patent laws of the United States. I learn that an infringement has been made in this State, and I would notify the public that I have disposed of the Patent right for this State to Maj. Wm. F. COLLIER of this City—excepting two counties, Halifax and Northampton—and it would be well for all who wish to avail themselves of this valuable and saving improvement, to always advise with him upon the subject before having their Mills altered, unless they are satisfied others are acting under his authority. This addition of grinding up the Shuck thoroughly, is invaluable. I refer the public to Maj. COLLIER'S publication in Newspaper form and hand-bills, for particulars, &c.

Military do. (Infantry & Artillery practice) no charge

The course of Education is thorough, practical and well calculated to qualify youth for the various duties of life, whether occupying public or private. Civil or Military stations. The moral and intellectual faculties are kept severely in action, but not at the expense of the physical, as is unfortunately the case throughout the country.

Regular and systematic Military Exercises, as well as Practical and Scientific Operations, introducing Surveying and Civil Engineering, are substituted in the place of unprofitable play, and required of all students—the usual six hours of daily recitation and study being invariably left undisturbed and uninterrupted.

The Cadets, in rotation, discharge the duties of non-commissioned officers, Officers of the Guard, and Officers of the Day, of Adjutants and Commandants of Parades; and for the purpose of rendering them more perfect, occasionally act as Military Instructors.

It has been found from experience, that this beautiful Gymnastic invigorates both mind and body, and by inducing habits of order and regularity, contributes much to mental improvement.

Politeness, neatness in dress, and strict punctuality will be closely attended to.

A cheap Uniform is adopted—Dress Parade days, Monday and Friday.

No deduction made for absence, unless in cases of protracted sickness. Hours of Recitation and Study, from 9 to 12 A. M., and from 2 to 4 P. M., in the Winter. Board and Washing, in highly respectable families from \$3 to \$4 per month.
